when in Wasco.

The Tale of the Tum-a-lum Silo.

There lives a young farmer not far away
Who received a letter the other day
From a lumber firm in a near by town
Who are turning the wheels of progress around.
It told of Silos, tall and straight, [make
With FREE SPECIFICATIONS AND PLANS - so easy to
Designed by experts - using only stock lumber
Of kind known around Moro as just "Tum-a-lumber"
Some sample prices were quoted, too,
In order that he might know what to do
When canvassed by agents for silo firms
Who charge more money and give less returns.

Now, this young farmer is nobody's fool;
He was educated in a practical school,
Where he had learned the value of hard earned cash
So he read those prices; once, twice, thrice;
Then he rubbed his eyes and scratched his head,
And once again these lines he read:
A ten foot Silo, just twenty feet high,
Built of "Tum-a-lumber" - all nice and dry,
By any farmer, WITH FREE PLANS - COMPLETE
With cement foundation; roof and doors hard to beat
All material; except nails; one days notice; laid down
For EIGHTY FOUR dollars in his own home town.

There never was money more prudently spent
With me its a question of dollars and cents;
But how they can do it I cannot see:
Under selling Shears Sawbuck is a new one on me.
He took the letter to town next day
And asked the author if he meant to say
That he could do as the letter said
And pay the cash for his daily bread.

The lumberman smiled and answered this way
"You see we've no money for a patent to pay.
Our Silo Material is here; in our yard;
No agent; nor sub agents; to boost prices hard;
I can sell you that Silo for Eighty Four dollars today
To be taken and paid for, in October, say.

The same Silo, no better, with patented stave and door
Would cost One Hundred and Fifty dollars or more.
A "Tum - a - lum" Silo, coated inside and out,
Lasts just as long with many, as one with superior
points there about."

"Well! well!" said the farmer, "I now plainly see
That you and your company are good friends to me
I'm anxious to sign up my order today
For that kind of prices can't be here to stay."
Now that farmer is sleeping the sleep of the just
He does not fear drought or the deadly black rust
He will have plenty of feed to last him till spring
Great profits for you a "Tum-a-lum" Silo will bring.

See H. U. Martin about it

DIGESTER TANKAGE

MADE BY THE UNION MEAT CO.
NORTH PORTLAND, ORE.

NOW ON SALE IN MORO

Whether you raise three hogs or three hundred, you
cannot afford to overlook this famous hog food. Read
what J. M. Fruits, of Joseph, Oregon says about
DIGESTER TANKAGE.

Union Meat Company Joseph, Oregon,
North Portland, Ore. March 25th, 1914

Dear Sirs: In reference to the results obtained from your Digester Tankage, I have
found it to be a profitable and satisfactory feed. It has no superior as a feed for brood
sows. Its high percentage of protein makes it a great developer for the unborn pigs.
It makes strong boned pigs with nice glossy coats. In the show ring it has
no equal to my judgment. During the past winter, I have fed tankage to my young
pigs and have never met with greater success.

Very truly yours,
(signed) J. M. Fruits.

DIGESTER TANKAGE is made from fresh, wholesome pieces of
meat. It develops bone and muscle and makes pigs GROW. En-
dorsed by all leading Agricultural Experiment Stations and by the
best breeders and feeders in every state. It's a meal in form, fed wet
or dry, mixed with other foods.

DIGESTER TANKAGE can be purchased in Moro at our Warehouse.
We have purchased this famous hog food in a carload lot and can give
you the benefit of this saving in freight. If you want your pigs to grow
into fat, healthy hogs, send in your order now to

GINN & COLEMAN
