calling it the horseless wagon the
French introduced the more con-
venient "automobile."

There is plenty of good inten-
tions and some talk these days
about putting the farm harness in
readiness for spring work. Look
up the adv. of J. F. Belshee, who
has extra help to do the work in
good time for you.

W. A. Woods happened to spy
the auto tire chain lost and ad-
vertised by Fred Hennagin in the
Observer. Knowing it had been
advertised as lost, it couldn't resist
the impulse to show itself when
W.A. went by, horseback.

Unetta Frantz celebrated her
seventh birthday Monday, receiv-
ing as one of her presents a "big"
cake made by her mother. The
Observer man was told by Unetta
that she was "only six" Sunday
and was "all seven" Monday, but
that she did not feel any different.

W. F. Jackson was a visitor at
Salem last week attending the de-
liberations of the legislative assem-
bly. According to newspaper re-
ports the same seat used by Mr.
Jackson, when a member of the
legislature from this district, is now
being used by Representative J. S.
Stewart from this district.

Following the suggestion in the
Observer a few weeks ago, a river
parade from Astoria to Lewiston
and monster celebration is being
planned in honor of the opening
of the Celilo canal in May. On
the return trip of the river parade
opening ceremonies will be held
at the Celilo canal and then on to
The Dalles where the big event
will be fittingly celebrated by the
bringing together of representa-
tives from all the communities
affected.

At a meeting of the officers of
the Moro Presbyterian church,
held after the regular morning
services last Sunday, it was voted
to go on a self supporting basis
and to so notify the home mission
committee of this Presbytery.

This means that the officers of the
church consider that the member-
ship is strong enough and willing
to assume full responsibility and
no longer need outside aid. Since
the establishing of the church or-
ganization, the home mission
committee has granted the sum of
\$11,000 for the Moro field.

The basket social at Monkland
last week was a decided success.
As a result of the evenings pleas-
ure about forty dollars was raised
with which to secure additional
school equipment.

The 2d episode in the picture
story Perils of Pauline was on the
opera house screen Tuesday night.
The story starts with plenty of life
and action and the movie actors
in good positions for a thrilling
story next Tuesday.

The two basket ball games at
the opera house Friday were won
by Moro school. The M.H.S.
girls won from the G.V.H.S. girls
by score of 10 to 4. The M.H.S.
boys also won from the G.V.H.S.
boys by a score of 28 to 16.

CONSCRIPT ARMIES.

Military Rules in Force in the Vari-
ous States of Europe.
Napoleon in 1798 first brought con-
scription into force, then it was adopt-
ed by Prussia after her defeat by
the French at Jena in 1806. In most
countries where conscription is in
vogue every man on reaching a certain
age—from sixteen to twenty-one—has
to undergo a period of military train-
ing. This prevails in France and Ger-
many, but in Russia a certain number
of men is required only, and if this is
exceeded the authorities decide from
whom full service shall be exacted. Of
course certain men are excused, such
as the only sons or eldest sons of
clergymen, etc.

In Spain and Portugal every man is
not directly called upon, but each lo-
cality is obliged to furnish a certain
number, the men being chosen by bal-
lot. There is no standing army in
Switzerland, but all able-bodied citizens
serve in the militia, which is called
upon to train a few weeks every year.
Although compulsory service is the
law of the land, the army in the Neth-
erlands is mainly composed of volun-
teers.

It is considered by some people that
conscription is unpopular, but in the
rural districts of the countries where
conscription is in force the inhabitants
look forward to the time when they
will be called upon as the only excit-
ing change in their lives.

The best conscriptive countries have
no legislated that when the conscript
leaves the army suitable employment
is found for him; also, another point in
his favor, his period of service is not
so long as that of the volunteer.—Lon-
don Chronicle.

In the Depths of the Sea.
The quantity of light emitted by
many minute deep sea animals is so
great as to supply over definite areas
of the sea bottom a sufficient illumina-
tion to render visible the colors of the
animals themselves. Some cephalopods
are furnished with apparatus which
reflects the light from their phosphor-
escent bodies upon the sea bottom over
which they float. This reflecting ap-
paratus is spoken of as "an efficient
bullseye lantern for use in hunting
through the abyssal darkness."

Not in His Line.

don me, sir, that's impossible. I'm a
strict vegetarian."—Punch.

The Grain Growers Conveniences

Are not alone confined to Rural Free Delivery of mail
and the Telephone. There is another convenience which all
farmers should have — and many do have — a checking ac-
count with a good bank. The possessor of such an account
avoids the risk of having his money on his person or about
his home where it is in danger of fire and thieves.

His bills paid by check are not only a valid receipt, but
also a convenience in his home transactions where very often
the necessary change for concluding settlement is not at hand
