MORO, OREGON.

Official Paper for Sherman County.

FRIDAY, October 13, 1916

Entered as second class matter at the post office at Moro, Oregon, July 25, 1891.

C. L. IRELAND, Manager.

If you do not read The Observer, why not?

We would like to have you take it, and we know it would be profitable to you to become a subscriber. We send it two months for \$2.50; one year \$1.50; 12¢ per month in advance. Try it. Order by postal card, and pay for it when you can.

We will not be responsible for the neglect of subscribers to notify as of changes in their address. Nor will the notification of a Postmaster that the subscriber has "Removed" settle the bill of a delinquent.

Church and Society notices FREE, except when for money making purposes. Such notices at regular rates at the option of the publishers.

At any time when requested to do so, the paper will be discontinued. But we expect that all arrears will be paid before such request is made. It is easy to ask us for a statement, which will be cheerfully rendered at any time.

W. O. Hadley is working on a project to place a fish way at Sherer bridge to cost about \$600. Part of the funds necessary have been raised but more is needed, and we think Sherman county sportsmen should contribute to this as well as Wasco county. Mr. Hadley is deputy fish warden for Wasco county and the work is all within that county, but Sherman county sportsmen would benefit to a large degree if it were put in. It would open 600 miles of spawning ground to the fish and affect the Crooked and Metolious rivers, among others.

Voters should give careful consideration to the proposed establishment of a state normal school in eastern Oregon at Pendleton. All of the institutions of higher learning are in the western part of the state and it is certainly time that the eastern section be given facilities for the students of this section to secure an education and training that will advance the interests of the rural schools of eastern Oregon. The proposed school will only entail a tax of four cents on a thousand dollars of taxable property, which certainly is not a great sum.

**A Sugar-Coated Pill.**

The Dalles Daily Chronicle.

It looks all right, but oh how bitter it will be if you swallow it—that "Farmers' Land and Loan Law."

Do you know what that "Land and Loan Law" really is? It's single tax in its worst possible form.

Why has it been given an attractive deceiving title? Because Mr. U'Ren's single tax bills have been twice buried under an avalanche of votes by the people of Oregon, and the paid propagandist from Oregon City knows that if the proposed amendment were to sail under its true colors it would be smothered beneath another landslide. So he promulgates the most vicious of all single tax bills under the alluring title of "Full Rental Value Land Tax and Homemakers' Loan Fund Amendment," commonly called the "Farmers' Land and Loan Law."

Single tax was defeated by the voters of Oregon in 1908 by practically a two-to-one vote. The amendment received 32,066 votes to 60,871 ballots against it. Single tax was given a more severe trouncing in 1912, when 82,015 citizens of Oregon registered their disapproval of the theory, and only 31,534 voted for it. It will be defeated again November 7 if it is presented to the voters of the state on its own merits.

And that is what must be done in this campaign—acquaint everyone with the fact that this so-called "Land and Loan Law" is the most wicked form of single tax. Remember the number—307 X No. Spread the word.

**ADDITIONAL LOCALS.**

Otto Peetz, assessor for Sherman county, and Margaret Whalley, daughter of John T. Whalley, of Portland, were married at the home of the brides' parents Thursday, October 5th. They will be at home to their many friends at Moro after Monday, October 16.

Mrs. J. H. Martin returned home Sunday last from a two weeks' stay in Portland. She was accompanied to Moro by Mrs. Diatman of Portland, who is visiting with her granddaughter, Mrs. Miles Martin, at the latter's home near Moro.

Dr. C. L. Poley has the noblest roadster in the county with which to answer professional calls. It is a "chummy" three seat 6-cylinder Studebaker, with the two seat arrangement joining with, but slightly back of the seat used by the driver.

Hans Thompson went to The Dalles Sunday to accept delivery of a brand new Hudson Super-Six. Hans says that he has had to eat dust for such a long time from "the other tellows" that he wants them all to get a sample of what dust he raises, so bought the Super-Six.

Manufacturers of the Hudson Super-Six have notified John R. Kaseberg, their agent for Sherman county, that the price for this automobile will be advanced \$175 December 1st. This is the same model that will be sold next spring and those who purchase now will save the \$175.

This week we introduce a new advertiser to our readers, the Golden Rule Store of The Dalles. A large number of Sherman county people have been visitors at their store at different times, but to those who may not be familiar with this business firm we can say that their advertising is like their merchandise, both reliable.

Quite a contest in salesmanship was staged at Moro this week when J. R. Kaseberg, representing the Hudson Super-Six and T. E. Hulery with the Chalmers Six, both tried to convince J. B. Holman that their car was the best in every respect. John is something of an authority on machines and machinery, and it was with more than ordinary interest that it became known that Mr. Holman had chosen the Hudson Super-Six, delivery being made Thursday.

Studebaker Six, Seven Passenger Touring Car \$1085

**Announcement**

There will be no change in the present series of Studebaker cars for several months to come. It has not been necessary to make any changes in Studebaker cars to increase their popularity or stimulate public demand.

Even with a great increase in Studebaker production from 5000 cars a month to 8000 cars a month, Studebaker cannot meet the present demand, and there is no indication that it will be able to meet the future demand for some time to come.

The present series of Studebaker cars were first announced to the public in June, 1915. Refinements and improvements were added in January, and the new series at that time called the "17" car.

Since then, no company has been able to dislodge the leadership of Studebaker in its class. No company has been able to offer greater value, higher quality, more power, greater beauty of line, or better riding qualities, than the public finds in the present series of Studebaker cars.

Seventy thousand of these cars have been sold since the original announcement, and the success of these cars in giving satisfaction and service is the one thing

which today makes it impossible for Studebaker to keep up with the steadily increasing demand.

The present series of Studebaker cars have been sold in all parts of the world—more particularly in all parts of the United States—and whether the service was in metropolitan centers or on the rough Rocky Mountain stage routes of the far West, Studebaker cars in power, in staminia, in dependability, in exceedingly low repair and maintenance expense, have established a splendid reputation.

Seventy thousand owners testify to the worth of the present series of Studebaker cars. Is there a better guarantee for you to consider in making your investment in a motor car, and is there greater assurance that the buying of a Studebaker car is a real investment; and if you should care to sell it in the future, is there a better guarantee that you would be assured of the highest possible resale price?

We have just received a liberal shipment of new Studebakers. It will be a pleasure for us to go over the Golden Chassis of this car, point by point, and demonstrate the car against any competitor on the road.
