RECENT statistics show that the number of
women bank depositors is steadily increas-
ing. It is a healthy sign of business condi-
tions. There was a time when the number
of women depositors was practically nil.
With the advent in the business world of
so many women it was assured that the
number of female depositors would show an increase.
Women are inclined to be more thrifty than men.
Thrift and banking go hand in hand. Many women in
this community have bank accounts. To those who
have not this appeal is made. Open a bank account
today. Once having opened it, add to it. Watch it
grow. You'll like the experience.

WE'LL BE GLAD TO EXPLAIN OUR BANKING
