Auto Turns Yurtle.

A serious auto accident occurred Tuesday afternoon near the B. F. Peetz home at DeMoss when a Ford, driven by John Muir, had a tire puncture as it hit some sand. The car skidded and upset, throwing all clear except Mr. Muir, who was caught by the back of the front seat and the steering wheel. When the passengers recovered themselves the car was wheels up and engine running, with Mr. Muir underneath. Mr. Muir received three broken ribs, one of which pierced his lung, and had a bone in his arm injured. Fred Wineberger and W. M. Miller received minor injuries and Ralph Greer, the fourth occupant, was not injured. The car had its left hind wheel wrecked and front tire thrown; the radiator is sprung and front axle badly bent. The party had been to Wasco and were coming into Moro.

L. L. Peetz of Moro has placed his order with G. N. Crofield for a 75-horse power Holt Caterpillar. This engine is right up-to-date with a lighting system, canopy top and side curtains.

Moro High School Notes.

Clifford Woods has again started to school.
M. H. S. students went to Biggs last Friday on a geographic research in hopes of finding acceptable specimens for the physical geography class. The specimens are to be analyzed by the students. A picnic dinner was eaten on the rocks and a little ducking escapade followed, in which several of the rocks rubbed their noses on the cold bottom of the Columbia.

The football team is practicing hard and will play Wasco Hi in Wasco Saturday the 18th. This being the first year M. H. S. has ever played football the boys are all inexperienced and are expecting a very hard game. Wasco Hi will play in Moro the 25th or on Thanksgiving.

Collis Moore returned to school Monday from a short visit to Portland and The Dalles.

Fine Alfalfa and Stock Ranch for Sale

356 acres, of which about 90 acres are Alfalfa Land. 1915 hay sold at \$15 in stack, and at \$19 in Portland. Noted as best-paying farm on the creek for its size. On O. W. R. & N. Railroad, and 3 1/2 miles to two towns. Altitude 918 feet; no better climate anywhere. Best watered farm in Eastern Oregon. Located 25 miles from Columbia River, 7 1/2 hours' run to Portland. Will sell with or without the livestock on easy terms.

Life is too short and time too valuable to buy raw land and build an alfalfa ranch. The task is too great a one for the ordinary man to tackle. Better to drop into a well-improved, modern farm and begin from the very first to enjoy the fruits for which others have labored.

Here is one of the best old-established alfalfa farms in Eastern Oregon for sale on easy terms, and the purchaser escapes the arduous, expensive work of digging irrigating ditches, building dams, leveling ground, erecting buildings, growing orchards, building fences and thousands of other things required in establishing a ranch like this.

Wishing to retire from farming the owner is offering for sale the following property: 356 acres of alfalfa and pasture land of which about

75 Acres is a Deeply Rooted, Heavy Producing Alfalfa Meadow

And about 15 acres or more of new land will be seeded to alfalfa as soon as the ground can be prepared. Already the ranch produces from 300 to 350 tons of alfalfa hay every season, which is the best-balanced single ration for all kinds of livestock the world has ever known, also the cheapest and easiest crop to grow; 102 acres are bottom land, balance hill pasture land, with good stream of water running through center of ranch, also many running springs. About 2 1/2 acres in peach, apple and pear orchards, heavy producing; six-room dwelling house, very cozy, surrounded by luxuriant shade trees, beautiful lawn, rose beds, etc.; new 50x60-foot barn, blacksmith shop well equipped with tools; wagon shed, wood shed, cement cellar, root cellar, poultry houses and other necessary outbuildings. Also all livestock, farm machinery and household effects. A complete and well-furnished country home to step into.

Pure Running Spring and Creek Water for Stock the Year Round

Water runs at all times through the stock corral, barnyard, lawn, calf lot, hog lot, and in every ditch on the ranch if desired. No quarrel with neighbors over irrigating ditches, nor with ditch riders over water. The intake to my ditches is just above my line fence and the water returns to main stream on my own land, AND THE WATER IS ABSOLUTELY FREE.

The Soil is Mostly Creek Sediment as Deep as 10 and 12 Feet

Hence very rich in plant-growing materials. Owing to depth of soil one irrigating early in the Spring will produce three heavy crops of alfalfa hay per year, and much of the land sub-irrigates from the creeks and springs. The fourth crop I have always pastured off up to the first of the year.

Big Demand for Alfalfa Hay in the Stack or Baled

Local sheepmen and cattlemen furnish a ready market for all the hay produced here, and it has been sold from this ranch at \$20 per ton. The 1915 crop sold for \$15 in the stack and \$19 in Portland, so it is not difficult to figure what your yearly income is likely to be. Luxuriant shade trees and pools of spring water along the creek make excellent summer conditions for cattle, horses and hogs. This farm is in the center of a famous Eastern Oregon wheat belt, and grain feed can be had at minimum cost.

This fine, healthful Eastern Oregon home and all its belongings can be had for \$30,000. (and is easily worth \$50,000), one-fourth of which can be paid in annual installments of \$500 at six per cent interest, and the remainder can be arranged agreeably between owner and purchaser. Will sell for less without livestock. Possession can be given at any time. Write or call upon
