RECENT statistics show that the number of women bank depositors is steadily increasing. It is a healthy sign of business conditions. There was a time when the number of women depositors was practically nil. With the advent in the business world of so many women it was assured that the number of female depositors would show an increase. Women are inclined to be more thrifty than men. Thrift and banking go hand in hand. Many women in this community have bank accounts. To those who have not this appeal is made. Open a bank account today. Once having opened it, add to it. Watch it grow. You'll like the experience.

WE'LL BE GLAD TO EXPLAIN OUR BANKING SYSTEM.
