DODGE BROTHERS MOTOR CAR

It is difficult to conceive how one of these cars can outlive its usefulness if given even ordinary care.

They are destined for long life. The same scrupulous manufacturing methods that make for efficiency and economy are an assurance of years of service.

In a number of striking instances business houses have recognized the car's longevity and low cost of maintenance.

Records carefully kept by municipalities which employ a number of cars show figures that are gratifyingly low.

It will pay you to visit and examine this car.

The gasoline consumption is unusually low.
The tire mileage is unusually high.
