WE cannot help but tell you every once in a while how much we appreciate your support here. We are doing our best to keep down the prices of food stuffs and have given you all the advantages possible of our contracts, only raising when we were forced to go in the market and pay higher prices. Many retailers have taken advantage of every raise to boost their prices. We expect the present high prices and contracted accordingly. While our policy of keeping prices down is not popular with the other retailers it has won for us the good will of hundreds. We expect to be in business after the World War is over and expect to see business back to its old basis. We would rather do our bit and forget extra profits now and thereby gain your lasting regard.

SPECIFICATIONS-SIX

The average owner is not interested in Specifications, but we want to call your attention to those big features of Studebaker specifications which make the car stand out as such exceptional value.

Genuine long-grain high-grade leather in the upholstery, the same as you find in cars costing from \$500 to \$1000 more—a reversible front seat, which can be adjusted backward or forward, and reversed in an instant so the passenger may face the tonneau; individual arm chair auxiliary seats with plenty of room for the comfort of the passengers, and you can fold them and slide them under the tonneau seat, leaving the back of the car as free and unobstructed as that of a five-passenger car, with no ugly gash in the carpets or recess in the back of the front seat.

Big 50 H. P. motor of wonderful efficiency and economy.

122" wheel base.

Plenty of room for seven passengers with the light weight and economy of five passengers.

High grade appointments even to the tumbler type of Yale Ignition Lock.

These are the features of the highest priced cars that you obtain in the Studebaker car at the Studebaker price.
