

THE half fellow well met, the man who spends as he goes, is popular just so long as he is a half fellow well met, so long as he spends as he goes. His fair weather friends leave him the minute he is in financial distress. Don't be one of these kind. If you are making big money plan to set aside a certain sum in bank. You'll find that if adversity comes a goodly bank balance is your best friend. If you already have a bank account make it a point to keep a healthy balance, a good margin to work on. Places Extra Power

Behind the Dough

Here is a Baking Powder that has 20 to 25 per cent more leavening power than other baking powders. It is double acting, which means that it has two leavening gas actuating ingredients instead of the usual one. With it, dough or batter can be mixed and let stand up to twelve hours before baking, and a perfect raise results. Modern manufacturing sets the price low 25c a pound. To pay more, even as much, for less is wasteful. Send four cents in stamps for the new Crescent Cook Book. Crescent Mfg. Co., Seattle, Wash. (b14)
