Excitement. People who really get excited don't usually live nearly so long as people who keep calm. Excitement, in fact, wastes the vitality and affects one's health to a very great extent. This is true, too, of all who seek excitement, whether physical or mental. Excitement makes the pulse beat above the ordinary rate, and one's reserve of energy is used up so much the quicker. Occasional excitement, however, is very good for one's health, especially where the pulse is slow, but the natural condition of the body should be one of calmness and regularity.

Pain

Here is a message to suffering women, from Mrs. Kathryn Edwards, of R. F. D. 4, Washington Court House, Ohio. "I am glad to tell, and have told many women, what I suffered before I knew of Cardui and the great benefit to be derived from this remedy. A few years ago I became practically helpless..."

TAKE

Card-u-i

The Woman's Tonic

"I was very weak," Mrs. Edwards goes on to say, "and could not stoop without suffering great pain... Nothing seemed to help me until I heard of Cardui and began the use of it... I gradually gained my strength... I am now able to do all my work." If you need a tonic take Cardui. It is for women. It acts gently and reliably and will probably help you as it helped this lady.
