

THERE is an economy wave over the land. American people are beginning to realize that they are living too fast, beyond their means. It has been the rule that the man with \$20,000 a year lives up to every penny of his income. Slowly but surely this order of things is changing. The era of extravagance and waste in business and personal expenses is nearing an end. Efficiency and economy is the order of the day. Bank deposits are growing.

It is up to every one to economize. The best and surest way to do so is to place your surplus in the bank. If you already have a bank account make it a point from today on to increase it. Add to it weekly, daily if possible.

IF YOU HAVEN'T A BANK ACCOUNT DECIDE TO OPEN ONE TODAY.

There Is No Monopoly

in the packing industry.

Swift & Company, although the largest packer, handles not to exceed one-eighth of the total meat production of the United States.

The five large packers do not handle to exceed one-third of the total meat production of the United States.

Swift & Company is not in combination with any other packer or packers to control prices.

There is very active competition in the buying of live-stock and equally keen competition in the sale of dressed meats and by-products.
