

THERE is an economy wave over the land. American people are beginning to realize that they are living too fast, beyond their means. It has been the rule that the man with \$20,000 a year as well as the man with \$2,000 a year lives up to every penny of his income. Slowly but surely this order of things is changing. The era of extravagance and waste in business and personal expenses is nearing an end. Efficiency and economy is the order of the day. Bank deposits are growing.

It is up to every one to economize. The best and surest way to do so is to place your surplus in the bank. If you already have a bank account make it a point from today on to increase it. Add to it weekly, daily if possible.

IF YOU HAVEN'T A BANK ACCOUNT DECIDE TO OPEN ONE TODAY.

Fire starting in the northeast corner of Neil McDonald's wheat field Saturday afternoon destroyed about 25 acres of good grain on the Jack Thompson place farmed by L. D. May. The fire did not damage the McDonald grain because of having the right of ways cut, running along the fence to the Thompson place, where it took a diagonal direction through a quarter section of grain, being stopped on the southeast side by green grain in the right of way. The strip burned averaged about 200 feet wide. It is thought people driving by in a Ford car started the fire with criminal intent.
