The Moro town baseball team defeated the Wasco town team at Wasco last Sunday by a score of 11 to 10 in a 10 inning game. The locals were at a disadvantage with Ben Tomlin missing from the lineup, also without John Hardin behind the bat. This makes the town team's second victory for this season. Not such a bad start. Get behind the team and they'll keep up the good work.

The Tractor for Service

The Caterpillar is built to give service, and it is backed by service, of which our annual Caterpillar School, free to owners and operators, is only one of the big features. That the Caterpillar gives exceptional service—day after day, year after year—is testified to by thousands of satisfied Caterpillar owners.

The Caterpillar won't slip, won't mire, won't pack the soil. It does all the work that other tractors do and does it better. Besides, it works in places and under conditions where no other form of tractive power can be used successfully. Caterpillars are at work in Alaska at 40 degrees below zero in the winter.

There's Only One Caterpillar. Holt Builds It.
