## The Tractor for Service

The Caterpillar is built to give service, and it is backed by service, of which our annual Caterpillar School, free to owners and operators, is only one of the big features. That the Caterpillar gives exceptional service—day after day, year after year—is testified to by thousands of satisfied Caterpillar owners.  
 Swamps, hauling over rough and rocky roads, in swamp lands, where even horses cannot work without leg shovels.  
 Holt design and Holt construction have put into the Caterpillar endurance, long life with low upkeep, the sort of dependability that makes the work run smoothly without annoying and costly delays.  
 Write for further information about the Caterpillar—the leading tractor in the United States today. The Caterpillar is built in several sizes—a size for every sort of tractive work.

There's Only One Caterpillar. Holt Builds It. **HOLT** Don't Buy Caterpillar Unless You Know the Tractor Holt Builds.
