Moro, Oregon

J. B. Morrison and family have returned to Sherman county from Portland, where the younger members have been attending school.

To enable him to give county road affairs closer attention Road Master H. S. Wall and family have moved their residence from Early to Wasco.

Mrs. E. J. Powell has bought the Tomlin property on Scott street and will replace the present building with a modern bungalow early next spring.

S. H. Arbuthnot and wife made the round trip to Portland Monday, driving to The Dalles where an early train put them into Portland close to noon.

W. A. Terrall, former superintendent of Wasco city schools, has been mentioned as the probable appointee of the county court to succeed E. R. Curfman as county superintendent.

Harvest will soon be here and help, as usual, will be hard to find. One way that good help can be kept is by serving the government inspected meats sold by the City Market of The Dalles.

Lloyd Grimes has purchased the two lots on 4th street opposite the court house and has begun the building of a modern bungalow, 26x40 feet in size, containing when finished six rooms and bath.

C. C. Calkins and D. E. Stephens, accompanied by Paul F. Maris, state county agent department, left Moro Friday for Heppner, where they attended the annual farmer's picnic for Morrow county.

H. W. Strong and wife, accompanied by Miss Vivian, were visitors at the old farmstead this week. H. W. and wife from Carson, Wash., and Miss Vivian from Lebanon, where she has been attending school.

Word received from the engineer's office of the state highway commission leads us to expect a location crew will soon be at work running a survey for the highways voted at the special election in May for Sherman county.

The best grade of meats at reasonable prices and cheaper grades in proportion at the City Market, 314 East 2d street, The Dalles. Prompt attention to mail or standing orders. All meats government inspected and right up to standard.

Mrs. Lizzie DeMoss Davis, who announces in the Observer the forming of a class in Violin, has again been elected to the violin department of Philomath college. Mrs. Davis has had charge of violin instruction at Philomath for the last several terms.

George Urquhart has been visiting with his parents during the past ten days. George now makes his headquarters at Seattle and travels the Northwestern states in the interests of a Minneapolis concern manufacturing elevator machinery and supplies.

A 6000 mile guarantee against punctures when you use Marvel Tire Life. A liquid, but not a filler. Marvel Tire Life allows the use of air in tubes. Seals any puncture up to a 20-penny nail hole, while you ride. Absolutely no injury to tubes. DeMoss & Yancy, Wasco, county agts. 161f.

The rock crusher crew expect to finish the Fulton canyon road work within the next two weeks. The long haul from the crusher both ways is now finished and the crew is working toward the center quite rapidly. If men and teams can be secured a top dressing will follow all the work as soon as finished.

L. L. Peetz and family and Al Kirtley and wife who have been touring Eastern Oregon as far as the King Hill irrigation district in Southern Idaho, returned Friday of last week. While at King Hill they were guests of Mrs. R. W. Montgomery, sister to Mr. Peetz and Mrs. Kirtley. The party went east via Pendleton, LaGrande and Baker, crossing into Idaho at Nyssa. The return was made via Burns, Bend and Shaniko.

Two buck deer made themselves at home near the L. V. Moore farm the best part of Monday this week. When last seen they were on the divide of Grass Valley canyon near the A. H. Barnum farm. The deer were different from either the Black Tail or Flag Tail species, being more like the Japanese deer in style and action.

Their antlers had a wide spread and were yet in the velvet. Evidently they had crossed the Des Chutes river and were working east into the foothills of the Blue Mountains. Here's hoping they are not molested.

Driving west from the Hastings farm Wednesday evening about 5 o'clock the front left tire on Dr. Jos. Sanders Ford roadster blew out causing him to lose control and turning the car over, pinning him underneath. C. C. Richmond found him about 15 minutes after the accident and brought into town in his car, where it was found that three ribs near the left shoulder were broken. The car had the left front fender and steering wheel bent and the wind shield broken.

Geo. N. Crosfield, county chairman of the Salvation Army Home Service campaign, has received telegraphic acknowledgment from O. C. Bortzmeyer, chairman of the state campaign committee, and W. S. Kennedy, president of the Oregon State Elks' Association, in which they say: "Our heartiest congratulations to the Biggest Little County in the World. You have made a record and set the pace." Sherman county has exceeded its quota for the campaign exactly 11%.

Mrs. James Hollenbeck and daughter Lucile left Wednesday of last week for their home in Oakland, Cal., accompanied by her sister, Mrs. P. C. Axtell, who will go as far as Eugene to visit their brother, George E. James, who has just returned from overseas. P. C. Axtell and Mrs. I. K. Axtell accompanied them as far as Hood River, where they were met by J. C. Teal and family with whom they will visit at their home at Battle Ground, Wash. Mrs. Teal is a sister to Mrs. Axtell and Mrs. Hollenbeck.

For Biblical Students. What was the sweet cane of the Holy Land. In Isaiah it states: "Thou hast bought me no sweet cane with money, neither hast thou filled me with the fat of thy sacrifices; but thou hast made me to serve with thy sins, thou hast wearied me with thine iniquities."

Knew His Ailment. "You're looking miserable, Subbuba. Why don't you ask a doctor what ails you?" "I know what ails me—quick consumption." "You don't mean it?" "I do. I have to bolt my breakfast in two gulps to catch the train, and my lunch in two more to get back to the office."—Boston Transcript.

The Tractor for Service

The Caterpillar is built to give service, and it is backed by service, of which our annual Caterpillar School, free to owners and operators, is only one of the big features. That the Caterpillar outlasts other tractors—day after day, year after year—is testified to by thousands of satisfied Caterpillar owners.

The Caterpillar won't slip, won't more won't pack the soil. It does all the work that other tractors do and does it better. Besides, it works in places and under conditions where no other form of tractor power can be used successfully. Caterpillars are at work in Alaska at 40 degrees below zero in the Sierras, hauling ore over rough and rocky roads, in swamp lands, where even horses cannot work without log skids.

Holt design and Holt construction have put into the Caterpillar endurance, long life with low upkeep, the sort of dependability that makes the work run smoothly without annoying and costly delays.

Write for further information about the Caterpillar—the leading tractor in the United States today. The Caterpillar is built in several sizes—a size for every sort of tractor work.
