Our Motto
is.....

"All we can give

get for the goods"

Don't be taken in with the idea that the character of our goods means corresponding height in cost. We shall be glad to dispel that idea if you will call and see us. We want you to know a dollar here buys more than elsewhere.

Help Given by
O. A. C. to the
Oregon Farmer

in grain-raising, dairying, horticulture, stockraising, poultry, production, and other branches of agriculture, have

Saved Oregon more than
Higher Education
has ever cost

from its very beginning in Oregon. The college has reduced cost of production, improved quality of product, and helped keep down the pests of farm, garden, orchard and field.

Like the State University
and the Normal

it has helped bring school, business, and home into vital contact, and has helped demonstrate that

Higher Education is of
direct help to the
Country Districts

But higher education in Oregon is crippled by great increases in attendance, by lack of buildings, by the fallen buying power of the present millage support, and by the failure of the millage support to grow.

You are respectfully urged to vote for the millage support bill on May 21, the Higher Educational relief measure.
