**DELCO-LIGHT**  
Increases Farm Efficiency

Fifty thousand Delco-Light plants in operation on American farms are saving at the most conservative estimate, an hour a day each—or over 18,000,000 work hours a year  
That is equal to an army of 60,000 men working ten hours a day for a full month.

Delco-Light is a complete electric light and power plant for farms and suburban homes.  
It furnishes an abundance of clean, safe, economical light, and operates pump, churn, cream separator, washing machine and other appliances.  
It is also lighting rural stores, garages, churches, schools, army camps and railway stations.

**Observer Store Discontinues**  
With the commencement of school next month a change will be necessary in the purchase of school books and supplies. After a continuous business of 20 years in the handling of the school book and supply trade of this section the Observer Store has sold all stationery, book, and school supplies to the Moro Trading Co. who in future will make a special effort to care for this trade.  
All tablet, pencil, box stationery, and miscellaneous business will be discontinued by the Observer Store after this date. This move has been made necessary because of the additional time needed for the printing and job business and newspaper work of the office and the large portion of each working day that in the past has been exacted by the stationery part of our business.  
We ask the consideration and cooperation of the public be given to the Moro Trading Co. in their taking over of this additional work and feel sure that all interests will be better served by the business change that has taken place.

"TH' BOY STOOD ON TH' BURNIN' DECK"

ARE CHILD ELOCUTIONISTS?

By resolutions adopted at its session in Astoria the convention of the Oregon State Editorial association pledged its members to fight any attempt to establish the non-partisan league in Oregon. It also condemned the 5 per cent interest bill, indorsed the northwest rivers and harbors convention, favored the establishment of printing departments in the schools and urged congress to enact laws limiting the size of the metropolitan papers to 60 pages on Sundays and 24 pages on week days as a means of conserving the supply of news print.  
The Union Fishermen's Packing company of Astoria filed with the supreme court an application for a temporary restraining order in an action against Carl D. Shoemaker, former state game warden, to prevent enforcement of the law prohibiting any person or firm to possess or sell food fish caught outside the three mile limit opposite the mouth of the Columbia river between the dates of August 25 and September 10. The application was placed in the hands of Justice Burnett who will have it under advisement until August 21.  
Dr. H. E. Armstrong, federal inspector, reports that dipping of sheep in Klamath county as a means of eradicating scabies is virtually completed and he believes that the disease has been effectively stamped out. Since June 1, 251,295 sheep have been dipped in Klamath county and in the northern part of Siskiyou county. Cal. Forty-six thousand sheep were dipped in Siskiyou, the remainder at various dipping stations in Klamath county. In addition, Dr. Armstrong states that 15,000 Jackson county sheep were dipped in the vicinity of Ashland, and all other sheep in Jackson county have been carefully inspected.

**Advantages of Egotism.**  
It is to be said in favor of self-adoration that people may not take you at your estimate of yourself, but they will be sure to accept any underestimate that you may make.

**"Yours for Real Tobacco"**  
says the Good Judge

Men are getting away from the big chew idea. They find more satisfaction in a little of the Real Tobacco Chew than they ever got from a big chew of the ordinary kind.  
Costs you less, too—the full, rich tobacco taste lasts so much longer. Any man who uses the Real Tobacco Chew will tell you that.
