# DELCO-LIGHT

A New Model  
\$425

A 1/2 kilowatt DELCO-LIGHT at a greatly reduced price is  
offered to you. This plant generates plenty of electricity for  
the average requirements of the farm home, for abundant electric  
light, power for pumping water and for running the machines  
ordinarily turned by hand.

And the price is only \$425 f. o. b. Dayton, Ohio

There are larger DELCO-LIGHT  
models for larger requirements—at prices  
lower than those paid for former models of  
the same capacities. All DELCO-LIGHT  
models have the same unexcelled mechanical  
features. They are self-cranking,  
self-stopping, air-cooled, have only one  
place to oil, and are equipped with thick  
plate, long-lived battery.

No matter where you live, there is a  
satisfied user near you, enjoying the  
comforts, conveniences and labor-saving  
features of DELCO-LIGHT. Over  
125,000 plants in daily usage are your  
assurance of the continued satisfactory  
and economical service of all DELCO-  
LIGHT models. There is a size  
DELCO-LIGHT to meet your needs.

### Summons by Publication

In the Circuit Court of the State of  
Oregon for Sherman County  
Moro Trading Company, a Cor-  
poration, plaintiff  
vs  
O. E. Baker, defendant.  
To O. E. Baker, the above named  
defendant:

In the name of the State of Oregon:  
You are hereby required to appear and  
answer or otherwise plead to the com-  
plaint filed against you in the above  
entitled action within ten days from the  
date of the service of this sum-  
mons upon you if served within this  
County; or if served within any other  
County in this State then within  
twenty days from the date of said ser-  
vice; or if served by publication,  
then within six weeks from the date  
of the first publication thereof and if  
you fail so to appear and plead, plain-  
tiff will take judgment against you  
for \$574.45, with interest thereon at  
eight per cent per annum, from April  
1st, 1920; the further sum of \$241.82;  
for \$150 as attorneys fees and the  
costs and disbursements of the action.  
Plaintiff will also apply for an order  
of sale of the property attached in  
said action in accordance with law  
and the practice of the court.

This summons is served on you by  
publication thereof in the Sherman  
County Observer, for six weeks in  
pursuance of an order of the above  
entitled Court, heretofore made and  
entered on the 4th day of November,  
A. D. 1920, and by depositing a cer-  
tified copy thereof together with a cer-  
tified copy of the complaint in the

### Sherman Joins State Farm Bureau

A representative number of Sher-  
man county farmers were present at  
the Court House at the County Farm  
Bureau meeting November 18th to hear  
what the three speakers had to say  
about the County, State and American  
Farm Bureau organizations and their  
work.

P. Y. Maris, state director of ex-  
tension, pointed out very clearly that  
the County Farm Bureau and its home  
program were the foundation for the  
State and National organizations.

Chester Gray, member of the Amer-  
ican Farm Bureau federation execu-  
tive committee, showed what the big  
organization already embracing 85  
states and 1,500,000 farm families had  
already done for American agriculture.

He pointed out definite instances  
where corporate and business interests  
were securing legislation lightening  
their burden and throwing it onto agri-  
culture to the extent of billions of dol-  
lars annually. All the farmer asks is  
a square deal in legislation and on  
through the business life and by being  
able to speak they are going to get it.  
They have already been able to save  
the farmers up into millions of dollars  
by securing alteration of legislation.

Mansfield, temporary State Farm  
Bureau president, spoke briefly owing  
the lateness of the hour.  
Every one present was more than  
pleased with the work of the Ameri-  
can Farm Bureau and realized that it  
was an organization which could most  
effectively protect and advance their  
interests. The meeting was unani-  
mous in voting to join the State and  
National organizations. The Farm  
Bureau membership fee was set at \$3,  
two dollars going for the county and  
fifty cents each to the state and nation-  
al.

The executive committee plan to  
designate a week soon when commit-  
tees of farmers will plan to see every  
man in the county and give them a  
chance to affiliate with the organiza-  
tion.

THE AMERICAN  
RED CROSS IN  
PEACE TIME

Boys and girls who learn early to  
take proper care of their teeth,  
throats, eyes, ears and stomachs, have  
made a long step toward healthy  
manhood and womanhood. Through  
its public health and nursing ser-  
vices, the American Red Cross aims  
eventually to reach all school children  
with teachings regarding disease pre-  
vention and health promotion. Here's  
a school nurse treating a little girl  
for sore mouth, at the same time im-  
planting a valuable lesson in teeth-  
brushing and proper diet.

### The Wonders of America

By T. T. MAXEY

THE HIGHEST HIGHWAY IN THE  
WORLD.

PIKE'S PEAK is, without question,  
the most-talked-of, most-written-  
about and consequently most-famous  
mountain in America. Fittingly in-  
deed has it fallen heir to the name  
"Monument of the Continent." For it  
has played an important part in the  
history and romance of our fascinat-  
ing and wonderful West. Now its im-  
portance as a landmark, situated on  
the dividing line between the great  
plains on the east and the mountain  
kingdom on the west, has been fur-  
ther increased, because of the ability  
of the public to ascend it comfortably  
and quickly and enjoy the panoramic  
view of five or six states which is  
visible from its snow-clad summit, 14,109  
feet high.

The most marvelous highway build-  
ing achievement of the age is the  
construction of an automobile highway  
from Colorado Springs and Manitou to  
the summit of this peak. The fearless  
thought that conceived and the daring  
which executed the work of building  
this, the highest highway in the world,  
absolutely stun the average individual.  
It is about 16 miles long, from 20 to 50  
feet wide, smooth as a boulevard, and  
has a maximum grade of 10 1/2 per cent.

While this serpentine road turns  
and twists and winds and zigzags up,  
to an elevation seldom reached in this  
world under any circumstances, the  
visitor is treated to indescribable  
views of limitless space and into im-  
measurable depths and receives a se-  
ries of new thrills and sensations.  
Looking up, one may see cars moving  
in opposite directions on different lev-  
els of this road, yet both are going the  
same way—up.

### Many Different Kinds of Smiles

A popular song describes the vari-  
ous kinds of Smiles; the kind that  
makes you happy, and the kind that  
makes us blue.

There's another smile we'd like to  
add to the list. That is the Smile of  
the Saver—a quiet, wholesome beam  
of satisfaction that it does one good  
to see.

# The Fordson Tractor

Walt Mason, in his "Essay on Horses," describes to a nicety the  
advantages of the tractor over the horse in farm work. He says:

The horse has many pleasing points; he has a lot of useful joints; and he can lope  
and walk and run, and eat up fodder by the ton. He is a beast of sterling worth—and  
yet he's falling off the earth.

We used to think him mighty fleet, but now the auto has him beat.

We used to think him very strong; but tractors show where we were wrong.

If you have worked upon a farm, you know where horses lose their charm. I used  
to work a big bay team, long years ago, and that's no dream. All winter they would  
loaf and eat, and eat and loaf, and then repeat. And when the winter time was  
canned, and it was time to plow the land, and I would harness Dick and Ned, my good  
old father always said: "Be careful, now, don't work too hard! Those horses have a  
lot of lard; for months they've loafed around the barn, and haven't labored worth a  
darn, and they're as soft as castor oil, so work them gently for a while."

Thus, when we needed speed and haste, the precious time must go to waste. I had  
to nurse those plugs along, for fear their muscles would go wrong; and when a furling  
they would go, they had to stop a while and blow. And how they seemed to drizzle  
sweat; I seem to see them raining yet. And when I took them to the trough, they'd  
try to drink their fool heads off, and then the colic they would have, and called for  
aconite and salve.

And when at last their thews grew strong, so they could labor all day long, the  
flies got busy on their frames; life was a torture then, by James! Worn out by bites  
of flies and bugs, they kicked their hind leg over the tugs, and reared and pawed and  
ripped and fussed, and in equine language, cussed. Thus, through the long, long sum-  
mer days, they fooled the golden hours away.

What wonder that the thrifty man desired a saner, wiser plan? We take our well  
tried tractor now, when we go to the fields to plow, or rake the hay or reap the grain,  
and find that tractor safe and sane.

It isn't soft from over-feed; it isn't cranky like a steed; it doesn't care a whoop  
for flies; it never tires of exercise; it has no colic, bots or worms. I praise it in my  
warmest terms.
