HEALTH CENTERS AID ALL COMMUNITY LIFE

Home Service Work Broadens to Include Civilian Families.

By DR. J. E. CRICHTON
Manager Northwestern Division American Red Cross

An integral part of the great health program of the American Red Cross, undertaken after the suspension of many of the war activities of the organization, is the establishment of Health Centers—which now are being installed in many communities throughout the northwest. It is a movement of compelling interest to the citizens of this part of the country.

The health center as organized by the Red Cross is proving the greatest preventive medicine known, as well as protection of great value in times of widespread illness or epidemic. From health centers radiate all kinds of healthful influences from the giving of proper advice and the furnishing of competent nursing, medical and surgical aid, to the inauguration of many forms of beneficial exercises such as community singing, athletics and outdoor games. From health centers go the visiting nurses. There are held the teaching classes for home nursing, children's clinics and proper welfare work.

The Red Cross says that no longer shall curable physical deformities curse the lives of our children. It believes the time is past when tuberculosis should be allowed without hindrance to fasten itself upon the tender bodies of our little ones. It

believes that through health centers established in every considerable community throughout the United States, health can be safeguarded and therefrom greater happiness be brought to our people.

Ignorance of diseases, ignorance as to what are the best means to pursue in combatting them, ignorance as to the standing and competency of certain medical men—these today are responsible for a vast number of deaths in the world. Quacks prey upon our people with their glaring and lying advertisements and in hundreds of thousands of cases individuals absolutely deceived by their pretensions pass beyond the days when their infirmities might be cured. For these perils the Red Cross health center forms a safeguard.

The health centers being established become the people's clubs, with memberships designed to reach vast numbers of the population since membership costs but $1 a [illegible] the annual Red Cross dues.

Another phase of the peace-time program of the organization which rapidly is becoming of paramount value in the northwest is comprised in the Home Service activities. Designed originally for the benefit solely of disabled service men and their families, it has grown to occupy a far broader field. Red Cross welfare workers look to the interests of former soldiers and sailors in hospitals and schools; maintain personal contact with the disabled who are at home. Home Service forms the connecting link between the disabled man in hospital or school and his family.

But Home Service has grown beyond this. In nearly 40 of the 106 chapters of the Northwestern Division experienced social workers are employed, and the service is being extended to civilian families. In some chapters information stations for the benefit of the general public have been established. In Raymond, Washington, the Home Service department maintains an office close to the railway stations and hotels where any day may be seen the visitor inquiring for the residence of a friend, or the genial traveling man asking the location of the business house upon which he wants to call.

Social Service extends down through the chapters to the branches and auxiliaries. Several Northwestern chapters have branches which maintain local Home Service operatives, their activities being financed through small revolving funds from the chapter treasuries.

Fifty cents of every dollar of membership fees stays in the community in which it has been contributed. It is that fifty cents which aids in this important Home Service development.

Bread in Variety for Foreigners.

In a tour of the various foreign quarters of New York, one may find a variety of breads: Asiatic small-bread, the blood-bread of Scandinavia, the braised-in-oil bean bread of the Japanese, the tree-pith biscuits of the Mongols. Chain bread comes in links and is the product of the Balkans and South Russia.

TREMBLOR SHAKES PACIFIC NORTHWEST

Portland, Or.—A large part of the Pacific Northwest was given a slight earthquake shock about 3:30 Sunday morning. The temblor was felt in Portland, Seattle, Spokane, Tacoma and other points.

Sacred Heart hospital, on the brow of the hill in the residence section of Spokane, seems to have had the only unpleasant experience. One patient is reported to have been thrown out of bed, statuettes rocked and the nurses were alarmed. The oscillations seemed to continue for nearly ten minutes, according to the seismograph at Gonzaga university, with the most severe at the beginning, 3:33 o'clock.

Leavenworth, Wash., reports that many people felt the quake, three distinct tremors causing buildings to sway and dishes to rattle. Plaster cracked in a house just outside of town.

No damage was reported and local scientists declared that it was not an earthquake at all, merely a temblor. A temblor, they say, compares with an earthquake for destructiveness in about the same fashion as a domestic kitten stacks up with a wild cat.

Getting Sense.

There comes a clear day when one realizes that clothes are to keep the weather off you, that food is to give you health, that home is shelter and inspiration; that, aside from being clean and inoffensive, one's personal appearance does not signify very much; that the main thing in life is to be going along toward the goal of your ideals. That isn't getting old, it's getting sense. From then on Time is not master, but friend.—Collier's.

BRITISH LOSE IN MANDATES FIGHT

Control of Commission Is Given to Non-mandatory Powers.

Geneva.—The difficulty of any single power or influence dominating the league of nations was demonstrated when the council of that body, in spite of determined protests by the British members, decided finally to give control in the permanent mandates commission to non-mandatory powers.

The commission will be composed of representatives of five non-mandatory powers and four of the mandatory states.

The first American treaties to be filed with the league of nations were put officially on record when Sweden presented the text of two agreements with the United States.

Under the covenant of the league of nations the various countries must file all treaties and agreements made since January 10 of the present year, even those in which the other contracting party is not a member of the league.

The arrival of the first American treaties, although they are minor ones, was an occasion of considerable interest among the league members and officials.

A total of 51 treaties and agreements have been filed with the league. Of these, 15 were filed by Great Britain, 11 by France, four by Sweden, six by Switzerland and 15 by other nations which filed one each. Germany, although not a member, has voluntarily filed nine treaties.

It is situated at Ballykinlar, in Dundrumbay, county Down, and is capable of accommodating 1000 prisoners. It is asserted prisoners will be liable to be interned without trial and that membership in the Irish republican army will be sufficient reason for internment. Other camps are in course of preparation.

It is reported that the roundup the last seven days has resulted in 200 arrests.

BARRICADES UP IN LONDON

Barriers Eight Feet High Are Erected in Downing Street.

London.—The seizure during raids in Ireland of Sinn Fein documents alleged to give details of a conspiracy for damaging buildings in England, was said in police circles to be the cause of the erection of formidable barricades at the entrances of Downing street and King Charles street.

Both streets lead from Whitehall to a group of government departmental offices and also the official residences of Premier Lloyd George and Andrew Bonar Law, the government leader in the house of commons.

The Perfect Color.

Green is a restful color. Oculists say that of all colors green is the most friendly to the optic nerve. In lands where eternal snows or eternal white sands flash up their glaring reflections, men have to shade their eyes or go blind. But green grass never bothers the eye. One can stare a forest in the face all day with impunity. Nature's greens never get on your nerves, and they never quarrel with any other of nature's colors and tints.

"THEY SAID I HAD T. B. AND WOULD NOT LIVE THREE MONTHS"

Mr. Harold W. Schmidt, Box 98, Breese, Clinton Co., Ill., believes he has reason to praise Dr. Hartman's Remedy for Catarrhal conditions.

"FEEL LIKE A GIANT SINCE USING PE-RU-NA"

"I used Pe-ru-na eight months for Chronic Bronchial Catarrh. I do not get tired, feel like a giant, am six pounds over normal weight and able to work every day. In March, 1918, I contracted a severe cold, with spitting and took to my bed. They said I had T. B. and would not live three months. After taking a couple bottles of Pe-ru-na and a box of Man-a-lin Tablets, could walk around and in seven months went back to work. My trouble was due to Chronic Catarrh of the nose and throat, which I had ten years, extending down into the bronchial tubes. "Pe-ru-na was my life saver."
