## Good Weather Is Ahead

Not long since—about the time the Ground Hog was poking his head out of the hole to renew the ancient controversy about his prophetic ability—close observers of business conditions received an infinitely more trustworthy forecast of good business weather ahead.

The size of one of the largest nationally circulated publications was increased from 115 to 148 pages to accommodate national advertisers who offer the public articles of every-day need.

This indicates returning confidence, and proves that business men are going after business with renewed energy.

Our patrons have always had confidence in this Institution to cooperate with them in their efforts to hasten the return of good business weather.
