FORTUNES OF WAR BRING VIOLINIST TO AMERICA

Chautauque Presents Prominent French Artist, Mlle. Lucile Collette

Mlle. Lucile Collette, the sensational French violinist, is one of the most notable artists ever presented on the Western Chautauques. The fortunes of war brought her to America and her success here was instantaneous. The Montreal Gazette in speaking of her

recent appearance in that city said: "She is a brilliant violinist, somewhat of the Kubelik type, although with a much more brilliant and incisive tone." She is now under contract with one of America's leading phonograph companies. She has appeared in the East with Ethel Legniska, Graveney Martinelli, Botta, Rothler and many other great artists.

"As in the greatest cities so in his own home town—the U. S. Tire user gets fresh, live tires of current production."

THE U. S. CHAIN TREAD
One of the few tires of which it may be said that they deliver economy year in and year out and tire after tire. The U. S. Chain Tread gives sufficient traction on all ordinary road surfaces. It is probably the handiest, and by all odds the most popular, of the whole U. S. Fabric Tire line.

Economy rides on U.S. Tires

If you could get together all the car owners you know, you'd probably find that their tire experiences had been much the same.

Most of them have taken their fling at "job lots," "discontinued lines" and "surplus stocks." Soon or late, nearly all settled back on quality first as the one sound assurance of tire value.

As soon as a man forgets the cut-price tag, and comes to the dealer who concentrates on a full, completely sized stock of U. S. Tires—he learns what it means to get fresh, live tires—not once in a while but every time.

Not merely in the big cities, but in his own home town.

Not merely for the heavy car, but for the medium and light-weight car—a full selection of size, tread and type.

Your U. S. Tire dealer can give you this service because of the service he gets from his neighboring U. S. Factory Branch. There are 92 of these Branches. Each gets its share of U. S. Tires, so that the dealer is always supplied with fresh, live stock.

U. S. Tires sell as fast as they are made. There is no over production. No surplus piled up waiting for a "market." Wherever you buy a U. S. Tire—you buy a tire of current production, as full of life and value as the day it left the makers.
