Work at the county rock crusher was halted this week on account of a broken arm used to propel the crushing plates. The accident occurred Wednesday afternoon and most of the crew was put to work on curb construction up town. A new arm was expected to arrive in time for work Saturday, otherwise the crusher will not resume until Tuesday, Monday being the 4th. It is thought that the arm crystallized from the constant jarring and broke when an unusually hard rock was put into the crusher.
