The committee in charge of the Ellison and White Chautauqua at DeMoss Park this year face a deficit of \$470. This condition was caused in part by the celebration at Wasco the Ellison and White management itself is at fault to some extent through sending features here each time that have been over their circuit. The guarantee committee, under present conditions, must agree to pay the full expense of putting on the Chautauqua with no word as to what will be given the public and the Sherman county public is becoming indifferent to repetitions of features once presented. This applies equally as well to the Winter Chautauqua as to the one at DeMoss Park.

Contractor Harry Benson has completed a 5000 gallon capacity concrete cistern for F. A. Sayrs and one of the same capacity for B. F. Peetz. He also built a round concrete watering trough for Mr. Peetz.

Hugh Chrisman is having concrete walks and steps built by Contractor Harry Benson leading to his recently purchased residence.

S. P. Brisbine and wife have returned from their auto trip to Washington county.

Where the Sea Sand Sings.
"Singing sands" are found in In-wall. By clapping the sand between the hands a faint hoisting noise is produced. But the sounds are greatly intensified by putting a quantity in a bag and slamming it about.

Farmers of America

The farmers have builded America, for despite the growth of our cities, America's agricultural industry is still the greatest in the world.

As the world has progressed, the farmer has improved his tools and his methods until today with fewer "hands" the farmer produces greater crops than ever before.

Good banking service is one of his requirements. All our facilities are at the disposal of our farmer-patrons.
