Make for Business Success.
The foundations for success in business are work, perseverance and character. Different men who have triumphed in various spheres of business may set down their own experiences and views in other ways, but you will practically always find that the summing up comes to those three items in the end.

Gathering Coconuts.
Mature coconuts fall from the trees; but planters cannot always wait for them to fall, and there is no pole or ladder to reach one hundred feet; climbing is the only way, and coconut climbing is a trade in coconut countries. Professional tree-climbers have the speed and agility of monkeys. To facilitate the operation, they place a strong loop of coil rope around the feet, near the ankles; this enables them to grip the tree securely and ascend the highest trees with amazing alacrity. The climbers are also tree-tappers, that is, tapping the coconut bud for the sap from which arrack is made.

As We Feel About It.
The safety razor is all right, but probably the man who can use the old-fashioned kind without cutting himself more than once or twice a week will always feel a certain sense of superiority.—Ohio State Journal.

BUFFALO ON THE INCREASE

Latest Reports Show That the Animal Is Not Likely to Become Extinct, at Any Rate.

The fear that existed not long ago that the native buffalo would soon become extinct is dispelled by a report of the American Bison society, which states that there were 3,383 wild and tame buffalo in the United States in January, 1920. This is an increase of about 300 per cent since 1908, in which year there were 1,116 wild and tame buffalo in this country.

Of the nine government-owned herds, two of the largest under the care of the United States Department of Agriculture are located in the Wichita national game preserve, Oklahoma, and on the national bison range at Dixon, Mont. The herd on the Wichita preserve now numbers 154, including 28 calves of this year. In this herd four bulls and 12 cows are ten years of age or over, and one cow is twenty-nine years old. The 15 animals that constituted the original Wichita herd came from the New York Zoological park.

It is planned this year to dispose of some of the surplus buffalo in the government herds in accordance with the provisions made by the 1919 appropriation bill for their care. Public parks and municipalities are the largest patrons. By distributing the animals over the country, if disease or misfortune overtakes the main herds, there still will be stock left with which groups could be built up again.

WHY DRUGGISTS ARE BALD

Seemingly, Their Duties Are manifold, if They Would Satisfy Their Various "Customers."

"Now, what do you think of that?" said the druggist's clerk. "She wanted to know what Thanksgiving is for. Some people think a drug store is an information bureau."

"The other day a woman came in and wanted to know who discovered America. She said she had an argument with a friend about it, and they decided I must be the referee."

He had perched himself on top of a ladder and was trying to juggle three or four boxes at a time when a woman came in and after waiting a minute to be waited on knocked on the counter.

"I want a two-cent stamp in a hurry," she said. He gave her the stamp and made change from a \$5 bill.

"Would you please give me the same kind of medicine that you gave to my mother the last time she came in?" she said.

"Who is your mother?" he asked. "You know my mother—the fat lady that always buys a bottle of soda every night."

Various Causes of Death.

It is illuminating to read the causes of death. In 1917—a typical year in which the figures were not complicated by the war—14.2 of every thousand persons in the United States died; out of every hundred thousand deaths 153.2 were from diseases of the heart, 149.8 from pneumonia, 146.4 from tuberculosis, 107.4 from kidney troubles, 82.9 from apoplexy, 81.6 from cancer, 79 from diarrhoea, 25.3 from diseases of the arteries, 17.2 from influenza, 16.9 from diabetes, 16.5 from diphtheria, 16.3 from bronchitis, 10.8 from accidents of all sorts. Arterial diseases and diabetes show an increase that is really alarming; for in 1900 only 6.1 per 100,000 died of the former and only 9.7 the latter. These with those of the heart and kidneys are diseases that result directly from the strain and stress of modern life.—Popular Science Monthly.

The Sick Miner.

Judge Elbert H. Gary, on his return from Europe, discussed the English coal strike at a luncheon.

"The men demanded an unconditional two-shilling increase," he said "but the government couldn't very well grant them that, because each former increase had been followed by a decrease of output. So many miners you see found that they could make enough in three or four days to keep them all the week."

"So many miners, in fact, were like the sick miner. As the sick miner, pale and drawn, lay in his bed the doctor entered."

"The doctor examined him and then said: 'I prescribe complete rest. You tired yourself out in the last strike.'"

Gave to "Unworthy Poor."

A Missouri man has left a will establishing a fund for the aid of the poor of his town, Eldorado Springs, Mo., every Christmas. It is especially suggested that the gifts be distributed to unfortunate persons, "whether they are worthy or unworthy according to the standards of society."

Those in a position to give money to fellow beings in misfortune so long have insisted that the poor be aided must be "worthy" that is a great relief to find one man who does not attach the obnoxious string to his act of generosity. The ne'er-do-well with an empty stomach probably feels just as hungry as the pious person whose fortunes have fallen.—Detroit Free Press.

War Memorial on Mountain.

The furious battles fought during the war on the Hartmannswillerkopf in Alsace, will be commemorated by the erection upon its apex of a huge cross which will be visible from the Rhine valley. The monument will be erected on a portion of the summit of the mountain which will be considered as sacred ground.

Mortality and Religion.

Mortality without religion is only a kind of dead reckoning—an endeavor to find our place on a cloudy sea by measuring the distance we have run, but without any observation of the heavenly bodies.—Longfellow.

Don't Be a Quitter.

It's the way a man sticks to a thing that marks him as a success or failure. Many a fellow has won out at the eleventh hour just because he would not let go. Don't be a quitter.—Farrington.

Real Joy Giving.

Joy giving comes within the reach of everybody. Sometimes people make failures of their first attempts. That's because they are too mechanical. People want to give joy ready made. That's not the way it's done. You must be genuinely in earnest and put yourself into it if you are to get results that count. You must not think of the thing you do—you must do it for its own merit. It must be so completely lost in spontaneous good will that motives never suggested themselves.

Wouldn't Be Overcharged.

One Sunday morning Robert's mother gave him two nickels to put in the collection basket at church. Robert and his mother were late that morning and had to sit in the balcony. Robert's mother noticed that he put only one nickel in the basket when it passed him. On the way home she asked him why he did this. He replied: "Why, mother, you know balcony seats are always half price."

Can Quiet Down Now.

"Three time in four days," says a Daily Express report, "a Parisian has thrown his wife out of a bedroom window." Later reports point out that all is now quiet, as the fellow has found his collar button.—Punch, London.

Here's why CAMELS are the quality cigarette

BECAUSE we put the utmost quality into this one brand. Camels are as good as it's possible for skill, money and lifelong knowledge of fine tobaccos to make a cigarette.

Nothing is too good for Camels. And bear this in mind! Everything is done to make Camels the best cigarette it's possible to buy. Nothing is done simply for show.

Take the Camel package for instance. It's the most perfect packing science can devise to protect cigarettes and keep them fresh. Heavy paper—secure foil wrapping—revenue stamp to seal the fold and make the package air-tight. But there's nothing flashy about it. You'll find no extra wrappers. No frills or furbelows.

Such things do not improve the smoke any more than premiums or coupons. And remember—you must pay their extra cost or get lowered quality.

If you want the smoothest, mildest, mildest cigarette you can imagine—and one entirely free from cigarette aftertaste,

It's Camels for you.

THE U. S. USCO TREAD

Here is the U. S. Usco Tread, with a long-established standard of service among motorists who have an eye to value, as well as to price. While selling for less than the other tires in the U. S. Fabric line, the Usco has earned a reputation for quality and dependable economy which is not exceeded by any tire in its class.

United States Tires are Good Tires

The standard tire likes nothing better than to prove its service

PEOPLE used to be secretly envious of the young fellow who came tearing up the street and stopped his car with a jerk.

Now they are inclined to criticize such abuse of tires. A mark of the growing consciousness about tires—their service, their work, their value.

This same respect for a good tire is the reason why the four-square tire dealer has passed up odds and ends, "job lots", "seconds", "cut prices"—and come out squarely with the standard quality service of U. S. Tires.

He is getting a bigger, and also better, tire business than he ever had before.

He is dealing now with his own kind

of people. The substantial citizen. The man who knows that you can't get something for nothing. The steady customer—not the bargain hunter.

To the man who has not yet learned the standard tire service he is entitled to we say—

Go to the dealer in U. S. Tires and make him show you.

Here is a man in close touch with one of the 92 U. S. Factory Branches—a constant supply of fresh, live U. S. Tires.

The U. S. Tire you buy is a tire built for current demands. No overproduction. No piling up of stock. No loss of mileage by hanging around on the dealer's racks.

Every way you look at it, a par quality tire at a net price.
