Some One He Knew.
Little two-and-a-half-year-old Bud accompanied his parents for the first time to a movie. He seemed very interested, especially when a horse or a "beel" was flashed on the screen, but a cry of delight came when a colored man appeared. "Muvver dere's our ice man," he said. He was glad to see a face he thought he knew.

Break the Matches.
The woodman always breaks in two a match after use. The habit prompts the thought "Be careful!" requires handling the hot end, takes up little time, and if the match is not extinguished, the half which burns on the ground is not so likely to generate heat enough to ignite the litter. Get the habit.

OREGON NEWS NOTES OF GENERAL INTEREST

Principal Events of the Week Briefly Sketched for Information of Our Readers.

Deschutes county Friday experienced an "old-fashioned spring cleaning" as far as matters Volsteadian were concerned. Fines in justice court meted out to offenders, who without exception pleaded guilty to charges of manufacturing or possessing moonshine, netted \$1400 and jail sentences amounted to 23 months.

Representative McArthur has introduced a bill authorizing the secretary of the treasury to pay the sum of \$25,000 to school district No. 1 of the county of Multnomah, in full settlement of the claim of the Benson Polytechnic high school on account of moneys advanced at the behest of the federal board for vocational training for the purchase and installation of machinery for vocational rehabilitation work at this school.

Motor vehicle operators apparently are little interested in signal bells and "wig wag" systems at grade crossings, according to a report prepared by T. A. Rafferty, chief inspector for the law enforcement bureau of the state motor vehicle department. Mr. Rafferty has prepared a letter calling the attention of his field operatives to the apparent lack of interest taken by drivers in avoiding accidents on crossings. Mr. Rafferty advises his men to require all drivers using crossings to a speed not in excess of 15 miles an hour. Drivers who refuse to comply with this law, Mr. Rafferty said, should be arrested and prosecuted.

The Roosevelt Memorial Coast highway association holds out strong hopes that it will win out in the fight for the coast counties in its efforts to have the Roosevelt highway designated as a road of primary importance. It is in receipt of information from Washington stating that the designation of the Roosevelt highway is held up pending further investigation, and that the secretary of agriculture will not act in the matter until a further report is made.

A fortunate discovery prevented what might have been a disastrous accident on the Lewis & Clark railroad, near Astoria. Flatbeds had been placed on top of one of the rails and fastened with a chain, apparently with the intent of wrecking a train.

There was one fatality in Oregon due to industrial accidents during the week ending April 6, according to a report prepared by the state industrial accident commission. The victim was Howard Gwyne, mechanic of Portland. A total of 326 accidents were reported.

The Pacific Telephone & Telegraph company's rate of return in Oregon for the year 1921, as shown by the report of the corporation filed at Salem, was 2.21 per cent. The same figures interpreted by the commission indicated that the rate of return was 3.83 per cent.

Because of the adverse vote on the bonds referred to the voters of the district at a special school election Saturday, the Roseburg school board has been forced to discontinue the departments of music, manual training, domestic art and teacher training in the city schools.

General reduction of taxes in Oregon through the initiation of several measures to be submitted to the voters at the general election in November was the program outlined at a meeting at Salem of the so-called committee of seven of the tax reduction clubs of the state.

The proposal of the Oregon Trunk Railroad company to abandon approximately 29 miles of its track between Metolius and North Junction probably will meet with considerable opposition, according to information received at the offices of the Oregon public service commission.

H. O. Brown, for seven years manager of the Eugene branch of Allen & Lewis, Portland wholesale grocers, was indicted by the Lane county grand jury on a charge of embezzlement, pleaded guilty immediately afterward and was sentenced to serve five years in the penitentiary.

No Allowance for Lateness.
Jonas has been to visit his son in America and on his return remarks: "They say that the sun rises six hours later in America than in Sweden, but I had to get up at the same time, anyhow."—Strix, Stockholm.

It Costs You More to rot buildings than it does to let paint save them

CHECK the costs. Compare the prices of lumber and paint. They will show you how extravagant it is to allow buildings to depreciate for lack of paint.

And buildings do depreciate rapidly unless they are painted when they need to be. Paint saves the lumber. It protects your investment.

To enjoy the biggest saving in painting, use the best paint. It spreads more easily—saves labor cost. It covers more surface per gallon than "cheap" paint.

It serves five or more years longer than "cheap" paint.

The best paint is most economical because it is scientific in formula and preparation. We have been making best paints for 73 years.
