The theory that hull could be pre-
vented by firing cannon or discharging
explosives never was accepted by
scientists, and careful experiments
have shown that it has no foundation.
The theory was advanced that the agi-
tation caused by an explosion would
prevent the formation of halitosis.

Speaking recently of electrical af-
fairs in connection with the Pacific
Light & Power Co. at The Dalles, the
manager of that company stated that
manipulation of electric ranges was being
used in the homes of that city. It was fur-
ther stated that every electric range in
The Dalles was giving satisfaction to
its owner and that up to this time
no complaint has been received re-
garding the ranges. At the present
time the only electric range in local
service is the one installed in the
F. E. Fortner home. Mr. Fortner's
experience coincides with that of The
Dalles people owning electric ranges,
and he says that his range is giving
entire satisfaction.

STORY OF ROMANCE TOLD IN "THE GREAT MOMENT"

Gloria Swanson, Emotional Paramount
Star, Featured in Play

A story of romantic quality, with
that continental flavor which has been
imparted to most of her stories by
Mme. Elinor Glyn, is included in "The
Great Moment," in which Gloria
Swanson makes her debut as a Para-
mount star, and which will be shown
at the Moro Theatre next Saturday.

Monte M. Katterjohn, working side
by side with the author, prepared the
screen version of the story which
opens at an orgy in St. Petersburg
when a British aristocrat is captivated
by and marries a woman from the
plains of Tartary—a Gypsy. The
latter leaves him a daughter, Nadine,
and in this role Miss Swanson has one
of the greatest roles of her career.
The tempestuous nature of her
mother is transmitted to the child; the
longing for the nomadic life is an in-
born passion and she takes the Knight
Byrd of history, "without fear and
without reproach," as her ideal. A
love story follows—a vivid, colorful
romance, the story shifting across
oceans and continents to America and
the wilds of Nevada. Later the scene
of the story is taken up in Washington
and the strict official life of the cap-
ital. Finally, the lovers find happi-
ness in the Nevada hills tasting of
heaven and becoming equals of the
gods.

A glance thru any rural or national
newspaper published in the world today
will reveal the truth in the statement "It
Pays to Advertise."

"WE, THE PEOPLE OF THE UNITED STATES,—"

As decade after decade passes, we who live
and prosper under the Constitution marvel
more and more at the matchless wisdom, the
almost prophetic vision of those early leaders of
the nation who could devise a plan of government so
perfect that it has endured basically unchanged for
over a hundred and thirty years.

The story of the making of the Constitution and what
it means to us is told in an absorbingly interesting
manner in the latest of the Our Government stories
now being issued by this Institution.
