No Bird Census.
There are no statistics from which to determine the largest flock of birds ever known. Audubon once computed that a continuous stream of carrier pigeons observed by him included more than 1,100,000,000 birds. Wilson similarly calculated that a flock observed by him was 240 miles long and numbered 2,280,272,000 pigeons.

One Woman Who Admitted It.
Mrs. W. L. C. writes: "An elderly lady passing a brass band in the street playing 'Darling, I Am Growing Old,' said: 'Well, I know I am growing old, but I do not need a band to tell the world.'"
—Boston Transcript.

Might Be Useful Some Time.
"I see you always carry a spare tire," remarked Brown. "Yes," replied Black, "and when my wife is driving I wish I could carry a spare neck, too."
—Cincinnati Enquirer.

The Endeavorers this week are attending the state Christian Endeavor convention at The Dalles. Some are going today, Friday, while others will attend later. The evening meetings from now on will begin at eight o'clock, next Sunday evening, the union meeting being held in the Presbyterian church with Henry G. Hanson as the preacher.

The midweek service next week in the Methodist church will be led by Rev. Henry G. Hanson on the subject, "How Can We Enrich our Sabbath?" The meeting starts at eight o'clock.
