

Music as Remedy for Diseases and Poison

"Music which evokes the normal expansive emotions makes for health and happiness," writes Dr. Agnes Savill in "Music, Health and Happiness." She seeks to prove that a half-hour of listening to the right kind of music will heal certain diseases more surely than medicine.

"The fact that the predominating psychical effect of music is emotional rather than intellectual implies, of necessity, that the condition of the heart and circulation is modified in some manner. Pleasant and continuous emotion causes a rise of blood pressure, a slower rhythm, and a firmer action of the heart, with a consequent improvement of the general health."

Dr. Savill tells of an experiment recently conducted in an asylum. "The piano was played for half an hour to 1,400 insane women. It was found that all responded to the rhythm; in some the pulse rate rose; others became restless and beat time. With slow music the worst cases were soothed, even sent to sleep. After several experiments it was noted that all showed improvement."

"Hecker," continues Dr. Savill, "quotes the evidence from old Italian records as to the therapeutic value of music for the victims of tarantula and viper bites. When the patients were senseless or pining away, music alone could cure them."

In the Spring

"I wonder what is wrong with my wrist," said the father. "Possibly it was cleaning."

"Oh, yes, daddy," said his little son. "I quite clean. I had it in the bathroom yesterday and I washed all the 'daddy's' life."

Paradise Nuts.
Paradise nuts are sweet and oily and resemble the Brazil nut. The nuts are formed inside a large urn-shaped shell, commonly known as "monkey pot," similar in construction to that enclosing Brazil nuts, but much larger. When the mature pod falls to the ground the natural gas within blows off the neatly-fitting lid of the urn, scattering the nuts and at the same time producing a characteristic report which brings all the neighboring monkeys rushing to the feast.

Political Notices of County-Candidates

To the Voters of Sherman County:
I am a candidate for the republican nomination for District Attorney of Sherman County at the Republican primary to be held Friday, May 16th, 1924.

The office of District Attorney, representing and protecting as it does the interests of the State and the County, is one of the most important

offices within the gift of the people. I am the candidate of no class, element nor interest, but if elected will be the District Attorney of all the people. I am for efficiency in office and competent performance of duty. I ask for your vote and support and will appreciate the same.

Ira M. Peterson.

To the Voters of Sherman County:
I hereby announce my candidacy for the office of District Attorney for Sherman County, Oregon, at the Republican primary nominating election to be held on the 16th day of May, 1924. If nominated and elected I promise to discharge the duties of the office conscientiously, efficiently, with fairness to all, and with minimum expense to the taxpayers of the County.

Francis T. Wade.

To the Voters of Sherman County:
I hereby announce myself as a candidate for the office of County Commissioner of Sherman County, Oregon, at the Republican primary nominating election to be held on May 16th, 1924. If elected I shall endeavor to faithfully serve the people of Sherman County.

A. A. Dunlap, Kent, Oregon.

To the Voters of Sherman County:
I hereby announce myself a candidate for the office of County Clerk for Sherman County, Oregon, at the Democratic primary nominating election to be held on May 16th, 1924. If nominated and elected, I shall continue to faithfully serve the people of Sherman County.

Mary L. Hoskinson.

To the Voters of Sherman County:
I hereby announce myself as a candidate for the office of County Treasurer of Sherman County, Oregon, at the Democratic primary nominating election to be held on May 16th, 1924, and if elected, will undertake to attend to the business of that office in a manner which will be satisfactory to all.

A. M. Young.

THE JUDGE -- Why Use A Bloodhound? -- by M.B.

FIND DUCK-SHAPED POTTERY

Explorers Unearth Rare Relics of the Pueblo Indians in Southwestern Colorado.

Two important pieces of pottery of unusual historic interest made by the Pueblo Indians were unearthed in southwestern Colorado this summer by a state museum expedition party headed by Frank H. H. Roberts, associated with Curator J. Allard Jeancon of the state museum in archeological exploration work, says the Rocky Mountain News.

The pottery is in the shape of a duck and was used by the Pueblo Indians in their religious ceremonies. So far as is known, this is the first duck-shaped pottery ever discovered, and is valued for that reason.

"Southwestern Colorado is a vast storehouse of treasure for the archeologist," Roberts says, "and is scarcely scratched as yet."

Roberts says the apartment house, supposedly a product of modern American efficiency and ingenuity, was used by the Pueblo Indians long before the supremacy of the white man had been established. A high type of civilization prevailed among the cliff-dwelling Indians, comparing favorably in some respects to that which exists today. Relics revealing Pueblo Indian civilization in its earliest stages were discovered at Montezuma mesa. Some of the earliest dwelling sites were examined carefully and information of great historic value was obtained.

CRIPPLE SAVES 100 WHEN HOTEL BURNS

Heroism of Syracuse Man Prevents Disaster.

Syracuse, N. Y.—Heroism of a crippled man was a vital factor in preventing a disaster when flames threatened the Hotel Warner, in which one hundred persons were asleep.

Arthur Frier, one of the owners of the hotel, aroused by the smell of smoke, hobbled on crutches from room to room, aroused the endangered by thumping on their doors and made a quick checkup to see that all the guests had left the building. Rescue work was expedited by the arrival of firemen, and it was stated that within seven minutes after the alarm had been sounded the six-story building, opposite the New York Central station, was evacuated.

Only one guest was reported injured, John E. J. Clare of New York, who slid down a rope from the fifth floor and fell to the ground unconscious when several feet above the sidewalk. More than a score were carried down ladders.

After Mr. and Mrs. A. H. Hall and little daughter Mary of New York were on a fire escape, the child remembered that she had left her doll in her room. Despite the density of the smoke she insisted that her father save the doll. With the playing thing in her arms Mary consented to go down the fire escape.

More than half the guests at the hotel were women and at no time was there any sign of panic. Women and children came down the fire ladders as calmly as did the men.

The damage to the building was estimated at \$80,000, caused mostly by water. The blaze started in a cellar from an undetermined cause.

She Likes the Show

Did you ever see a show so interesting you could sit through 128 performances? Doris Symonds has seen the musical comedy, "Little Nellie Kelly," that many times in Boston. Voluntarily, she said admission; wasn't an usher. Doris is fortunate. She demonstrates that she can go through life without monotony. Life is a repetition of the same old show. There is novelty only during the intermissions.

Wives and Goats Tabooed

Ancient records of York county, Me., preserved in the courthouse at Alfred, show that at one time goats and women were not allowed on the Isles of Shoals. One fisherman brought his wife there, at the same time importing some goats. Lively legal battles were waged concerning the matter, and finally it was settled that the goats must go but the wife could stay.

New Anesthetic Is Used to Ripen Oranges

St. Louis.—The development of ethylene, a new anesthetic, was described by Dr. A. B. Lockhardt and Dr. J. B. Carter, its discoverers, before the closing session of the Federation of American Societies for Experimental Biology recently.

Although objection to its use as an anesthetic has been made because of its odor and because it may explode if exposed to flames, or a spark, Doctor Lockhardt, who read the paper, said ethylene was being used successfully and that experiments have shown that it produces no ill effects even on children and old men. Ethylene is being used successfully also, he asserted, to ripen oranges and lemons artificially. Ethylene, Doctor Lockhardt declared, is present in automobile exhausts, and the fumes from an untrimmed kerosene lamp. It also has been found in illuminating gas.

Strange Malady Hits 1,000

Leavenworth, Kan.—Nearly 1,000 persons in Leavenworth are reported suffering from a strange malady with symptoms which recently baffled physicians in Santa Anna, Cal. The victims are attacked suddenly with nausea and become ill, but usually recover within thirty-six to forty-eight hours.

Sweden Electrified

Stockholm.—Sweden has bought her last steam locomotive. She expects to electrify all of her railway lines within ten years, the operating power to be developed almost entirely from the many waterfalls of the country.

Ice Imprisons Man in Ship's Crow's Nest

New York.—An icy blast of 100 miles drove spray of tall sea above the crow's nest of the Scandinavian-American liner Hellig Olay, in recently from Copenhagen, and she was so tightly frozen forward that the look-out in the crow's nest signaled for help. They rescued him with rope and tackle. The forecast was a massive ice stagnante.

OREGON NEWS ITEMS OF SPECIAL INTEREST

Brief Resume of Happenings of the Week Collected for Our Readers.

Approximately 100 editors and publishers from different parts of Oregon met at Eugene for the sixth annual Oregon newspaper conference at the University of Oregon.

Representatives of the main automobile stage lines in Oregon met in Roseburg to arrange final plans for the consolidation of these lines into the Oregon stage system.

Of proposals for the delivery of \$86,000 tons of rock for jetty construction at the entrance of Coos bay, that of the Hauser Construction company of Portland was lowest at 97 cents a ton, delivered f. o. b. government barges.

Ten passenger trains of the Oregon Electric were taken off the run on Sunday, according to the announcement made by W. F. Turner, president of the Spokane, Portland & Seattle railway, which operates the electric line.

W. A. Steward and Fred A. Phillips, prominent beef cattle growers of Baker county have received a shipment of 41 head of Holstein cows from Parma, Ind., which will be used as the nucleus of dairy herds they expect to build up.

B. F. Wilson, one of the leading citizens of Union county, a farmer and lawyer, has announced his intention of being a candidate for the nomination on the democratic ticket for representative in congress at the coming primary election.

The public service commission has suspended until May 15 tariffs filed by a number of railroads operating in the state cancelling all fare turn concessions for attendants accompanying livestock shipments to Portland and other terminals.

Citizens of Eugene will hold a mass meeting next week to discuss a proposed bond issue of \$250,000 or \$300,000 to drain the Amazon slough that flows through the southern part of Eugene and which overflows every winter, causing much damage to property.

The Pelton Water Wheel company of San Francisco has shipped to the Portland Railway, Light & Power company, designed for the Oak Grove hydroelectric plant, the world's highest head reaction turbine, designed to operate under an average effective head of 857 feet.

Sent by Attorney-General Van Winkle to investigate claims of six ex-county road workers for payment for covering a period of two years of more and amounting to several thousand dollars. J. M. Devers, formerly district attorney of Lane county, is in Eugene.

Wheat farmers in Umatilla county have disregarded the calendar and are taking the performance of the weather as a sure indication that spring has arrived. Spring seeding of grain has already begun in some sections, and in many localities plowing is under way.

A temporary office where individuals, corporations and partnerships affected by the state income tax law may obtain assistance in preparing their tax returns, and obtain other information in connection with the operation of the law, will be opened in Portland this week.

The 1924 joshberry crop in the Willamette valley will not exceed 25 per cent of normal, according to officials of the Oregon Growers' Cooperative association, who have made a careful survey of the situation. The small crop will be due to the cold weather experienced a few weeks ago.

August W. Schmeckmeyer, corporal headquarters detachment, 249th artillery, route 4, Salem, and Cecil W. Kennedy, private, 123d infantry, 1211 Garfield avenue, Portland, have been designated by the president from the national guard of Oregon as cadets at the United States military academy, at West Point.

James H. Linn and Frank Durbin of Salem will each donate a silver cup for the boy and girl prize winners at the next state fair. Mr. Linn's cup will be for the best Jersey calf exhibited in the boys' and girls' classes, while Mr. Durbin's cup will be for the girl or boy exhibiting the best Holstein calf.

Oregon pensions have been granted as follows: Wilcox B. Sinaett, Cottage Grove, \$12; John J. Buchter, Med-

ford, \$15; Karre Nelson, Woodburn, \$30; Ellen Roberts, Woodburn, \$30; Millie Higgins, Cottage Grove, \$20; Archie W. Colton, Portland, \$12; Frederick Edmunds, Portland, \$12; Mary J. Mangie, Newport, \$30; William E. Miller, Portland, \$12.

There were five fatalities due to industrial accidents in Oregon during the week ending February 14, according to a report prepared by the state industrial accident commission. The victims were: Frank Tucker, Salem, choker setter; Harry Clark, Albany, logger; John Edge, Baker, oiler; Peter Jordan, Astoria, foreman; and Roy Jordan, Ilwaco, Klamath Falls. A total of 118 accidents were reported.

Seventy business and professional leaders of Willamette valley towns met at Albany and effected a temporary organization which will conduct a survey of the project to bring the water of Clear lake into the valley for domestic and power purposes. Officers of the organization, of which the name will be chosen later, were elected and committees chosen to conduct the survey and to raise funds to pay for the work. Waldo Anderson of Albany, father of the plan, was chosen president; Victor Oliver of Albany secretary and Frank Schramm of Corvallis, treasurer.

Their Account Squared

The foreman was going from one man to another with a sheet of paper in his hand.

When he reached Sandy he said: "Sandy, this is a subscription to get a wreath for Jack Stuart, who died last week, and all your mates have given a shilling each toward it."

"Och, mon," replied Sandy, "that'll make me an Aock square, noo. He owed me a bob, anyway."

Old Romance Blasted

Brings Girl \$150,000

When the will of Louis T. Lehmeier, ninety-two years old, was filed in New York recently, a bequest of \$150,000 was made to Miss Elizabeth Rosalie Wurthmann, attractive young school teacher, and thereby hangs a tale of a blasted romance three-quarters of a century old, says the Kansas City Star.

Seventy-five years ago in Mainz, Germany, two young men were deeply devoted to a girl. They were both poor, and because it was inevitable that one must lose should the other die, their friendship was strengthened when Lehmeier's friend and friend left the girl to the altar. Lehmeier was best man and he wished them godspeed on their matrimonial voyage.

Lehmeier's friend and his wife emigrated to America. A year later Lehmeier came also. His friend had settled in New Jersey. Louis Lehmeier chose Manhattan. As the years passed Lehmeier acquired one parcel of property after another. He built tenements and apartment houses. He was known as a man who always had money.

On late summer afternoons of recent years Lehmeier would sit in the garden of the home where he lived the daughter of the woman he had loved in his youth. Elizabeth Rosalie, the granddaughter of her whose image was graven on his heart, would knit in the shadow of the vine. Lehmeier, with a shawl thrown around his shoulders, turned his thoughts to the Mainz of yesterday and murmured:

"My dear, I wish you could have seen your grandmother in her youth. Ah! but she was one of God's noblewomen."

500,000 Miles of Cables

Submarine cables are expensive things to make and lay, the 500,000 miles of cable in all at the bottom of the sea representing \$500,000,000, each line costing about \$1,000 a mile. The average useful life of a cable nowdays is between thirty and forty years, according to conditions. Some 10,000-000 messages are conveyed by the world's cables in the course of a year, and under present conditions the working speed is up to 100 words a minute. About nine-tenths of the cable messages are sent in code or cipher.

The Man of It

Roland dopineered over his little sister and made her fetch and carry for him quite a lot. When she was going away for the entire winter with her aunt, Ronald started bawling. "Why are you crying, dear?" asked his mother. "You are always fighting with Muriel and don't seem to love her."

"I don't love her," sobbed Ronald. "but I need her."—Boston Transcript.

Vast Spaces Within the Atom.
Just think of it. Although an atom is a particle of matter so tiny that it can scarcely be recognized by the most delicate scientific instruments, yet, says Prof. Niels Bohr, the famous Danish scientist now at New Haven, its infinitesimal parts, the electrons, can be as far away from the nucleus, comparatively, as the sun is from the earth.

Blow Your Horn.
"Never imagine," said Uncle Eben, "dat you kin git so good you don't need a little boostin'. Even Barnum's circus had to use billboards."—Washington Star.

NOTICE FOR PUBLICATION.
U. S. land office at The Dalles, Oregon, January 29, 1924.

Notice is hereby given that Frank Carl Schumacher, of Moro, Oregon, who, on Oct. 20, 1920, made homestead entry, No. 017714, for 80 acres, section 21, township 1 north, range 19 east, Willamette meridian, has filed notice of intention to make final three year proof, to establish claim to the land above described, before register and receiver, United States land office, at The Dalles, Oregon, on the 19th day of March, 1924.

Claimant names as witnesses: J. R. Cothran, John Gibson, Dell H. Wright, and O. R. Knapp all of Moro, Oregon.

J. W. Donnelly, Register.

NOTICE OF SEIZURE

In the Circuit Court of the State of Oregon, for the County of Sherman.

In the matter of the seizure of one Maxwell touring automobile, motor 870111.

State of Oregon, }
County of Sherman, }
To L. R. Jones, Care of Sheriff, Moro, Oregon. And to whomever it may concern: In the name of the state of Oregon:

You and each of you, are hereby notified and will take notice that the following described personal property, to-wit: One Maxwell touring car automobile, Oregon license No. 64418 for the year 1923, motor No. 870111, was seized by the sheriff of Sherman county, Oregon, on the 24th day of September, 1923, at about the hour of 10 o'clock p. m. of said day, in the county of Sherman, state of Oregon, in the City of Wasco, in said county; that said Maxwell automobile ever since has been, and now is, in the possession and custody of said sheriff of Sherman county, Oregon, and is being proceeded against in the above entitled court for the forfeiture of the same for a violation of Chapter 29 of the General Laws of Oregon for 1923, the same being an act relating to the forfeiture and sale of boats, vehicles and other conveyances used in the unlawful transportation or possession of intoxicating liquor within the state of Oregon; and that all persons having or claiming any interest in said Maxwell automobile are hereby required to appear before the above entitled court in the county court house of Sherman county, Oregon, at Moro, Oregon by Saturday, the 8th day of March, 1924, which said day has heretofore been duly set by the above entitled court, and to defend against said proceedings, and that upon their failure so to do, a judgment of forfeiture of said Maxwell automobile will be entered.

This notice is issued and given to you, and each of you, pursuant to an order duly made by D. R. Parker, presiding judge of the above entitled court, on the 31st day of January, 1924.

Witness my hand and seal of said court affixed at Moro, Sherman county, Oregon, this 2nd day of February, 1924.

Mary L. Hoskinson, County Clerk.

Curious Umbrella.
It was a French inventor, with a tender heart for bicyclists, chauffeurs, fishermen and wandering artists, who contrived a form of umbrella for protection against sun or rain, which can be easily and solidly attached to the shoulders so as to leave the arms and hands absolutely free. When not in use it folds up in a conveniently portable form.
