Golden Rule Pays Best in Business

Service and courtesy are the two greatest assets of business firms. Having the goods and delivering them in a pleasing manner are what win public approval.

Good rules along this line are: When the customer comes in with a complaint, don't send him or her from pillar to post; that irritates.

Study the cause of complaints; eradicate them at their source. Completeness of reply is only one-half of courtesy; the manner of reply is the other half.

Be polite and pleasant, thus making the party glad he or she called. Show individuality to each customer; make him feel he is "Mr. Simpson" and not just one of the throng.

Get the other fellow's point of view. Don't argue, inform.
