**HARVESTING COST CLAIMS COME FIRST**  
 Salem.—The state board of control ordered a notice sent to all warehouse men and to the committees and attorneys in the various counties that represent the board under the farmer's relief bill of the 1925 legislature, informing them that claims of harvesting, threshing and sacking of grain will be given prior consideration by the board. The legislature provided \$1,500,000 for the relief of farmers in counties where wheat was frozen out, the fund to be used primarily to aid the farmers in buying seed wheat for re-seeding purposes.  
 In some districts it is said harvesting is being held up because warehouse men are unwilling to let the farmers have sacks on time, since their wheat crops are under mortgage. The action taken by the board is expected to meet this difficulty.

**SLAIN BANDIT IS IDENTIFIED**  
 Robber Killed in Bank Holdup Was "Blackie" Williams.  
 Tacoma, Wash.—The second of the two bandits killed in a gun battle last week after holding up the state bank at Buckley, 23 miles east of Tacoma, was identified by Marshal Horton and other Sumner residents as having formerly lived at Sumner and who was known as "Blackie" Williams, Sumner is 12 miles northeast of Tacoma.  
 William's accomplice in the holdup was identified through finger prints by the Tacoma police department as Charles W. Nygren, 27, who had an arrest record with the Portland police.  
 William Rose, a Buckley cigar dealer, who was shot in the abdomen by one of the two bank bandits, died from his wound in the Auburn, Wash., hospital.

Calcium Chloride Used to Lay Duct.  
 Olympia, Wash.—Calcium chloride in flake form will be applied to Washington roads this year as a dust layer, the state highway department has announced. Oil has not proved satisfactory, according to highway officials, because it tends to form a crust on the roads, which eventually develops ruts, interfering with smooth driving and damaging tires.

Another fire in the Fremont national forest, now makes a total of eight in this area lying between Lapine, Fort Rock and Crescent, according to reports from the Deschutes national forest headquarters at Bend.

The remonstrance of 31 patrons was sustained and the Southern Pacific Railway company instructed to continue the maintenance of an agent and station at Alpine, in an order of the state public service commission.

One hundred and ten vessels of an aggregate tonnage of 281,924 entered the port of Portland during June. This was a substantial increase over figures for May, when 107 vessels of a total tonnage of 269,256 entered the harbor.

A slab of bacon falling from its hanging place in the Baker Packing company smoker to the fire grate started a blaze that caused damage estimated at \$500 and destroyed a ton of hams and bacon slabs at Baker.

**VISION CARRIED BY RADIO**  
 Government Officials Witness Test of Device of Washington Scientist.  
 Washington, D. C.—An apparatus by which persons may see movable objects miles away by radio was successfully demonstrated at a private test here of an invention by C. Francis Jenkins, Washington scientist.  
 Secretary Wilbur, Dr. George M. Burgess, director of the bureau of standards, and other high government officials, witnessed the test.  
 On a small screen the officials were able to see a small cross revolving in a beam of light flashed across a light-sensitive cell installed at naval radio station several miles away.  
 The "radio eye," consisting of a polished mirror of graduated thickness and a number of smaller mirrors, in its revolution, breaks up the image of the picture into thousands of flashes, reflecting them into a photo-electric cell. The flashes take a number of "stills" of the moving object and in reproducing them on the screen, give continuity of action similar to a motion picture.

People of the United States are showing greater interest in farm lands of the Pacific northwest this year than at any time in the last 10 years, is the statement at Portland of A. B. Smith, passenger traffic manager of the Northern Pacific railway. He based this upon the fact that farm paper readers to the number of 18,500 have noted the advertisements outlining opportunities of Oregon and Washington and have sent inquiries to the railroad conducting the advertising campaign.
