ADMIRAL JONES

 Rear Admiral M. P. Jones, who was appointed by Secretary Wilbur to head the official board to investigate and place the responsibility for the wreck of the dirigible Shepandoah.

BANKERS HELP
 The banks of Bodford county, Tennessee, are furnishing pure bred eggs to all who will agree to return one pullet for each fifteen eggs in the fall.

The Missouri Bankers Association issued the first number of the "Agricultural Information Service Quarterly" in April. This publication deals with timely agricultural subjects of interest to bankers. A discussion of the various projects proposed as a basis for the program of banker-farmer co-operation in Missouri appears in the first issue.

Be a Milk Tippler,
 Says Dr. Schireson

Peaches and cream complexion of American women have their foundation in a milk diet, according to Dr. Henry J. Schireson, famous Chicago dermatologist and facial plastic surgeon.

Doctor Schireson— and many society women of America. He transformed Fanny Brice's nose, rejuvenated Eva Tanguay's face, removed sixty-four pounds of adipose tissue from Trudy Shattuck in one operation, straightened the crooked nose of the leading lady of Stinger's midwest, and has performed other corrections for making people young and beautiful.

Doctors Schireson has one infallible prescription for the attainment of beauty. It is: "One quart of milk a day, one hour of sunshine, and repeat ad libitum."

"Beauty specialists and cosmetic-makers," says Doctor Schireson "would be driven out of business in a few weeks if all the women of America would drink their quart of milk a day."

STORY OF CHRISTMAS SEAL INTERESTING

Idea Originated in Denmark Years Ago Accomplishes Wonders in United States.

More full of dramatic interest than the chapters of a novel, is the history of the little Christmas Seal now on sale throughout the state of Oregon. Conceived by a Danish postal clerk, to raise money that would save the lives of children suffering from tuberculosis; wandering across the Atlantic, falling into the hands of a great American writer; being recreated on American soil, and sold to maintain another tuberculosis hospital; becoming the sole financial support of a great organization dedicated to a health campaign steadily and surely overcoming the "white plague," are leading events in the life history of the Christmas Seal.

Mr. Elmar Holboell, postal clerk in far off Denmark, busy cancelling stamps and handling packages during the Christmas season of 1903, had on his heart the problem of raising money to support a little hospital for poor children stricken with tuberculosis. In the midst of his work, he conceived the idea of selling a seal somewhat like the stamps he was so busy cancelling.

Several years later, one of the Danish seals fell into the hands of Jacob Ritis, the American writer and publicist. He was immediately interested, wrote to a friend across the ocean, obtained the story behind the seal and published it in the "Outlook" in 1907.

This story in turn stirred to action an American woman, Miss Emily Bissel, who like the Danish Postal Clerk, was struggling with the financial problem of a little tuberculosis sanitarium near Wilmington, Delaware. Miss Bissel managed the first American Christmas Seal Sale in 1907, raising \$3,000 for the needy hospital, a sum far beyond her expectations.

From the three thousand dollar Seal Sale in 1907 to the four and a half million dollar sale in 1924, the story of the Christmas Seal has been one of magnificent accomplishment against the foe tuberculosis. Between 1908 and 1919 the American Red Cross, put its shoulder to the wheel, and backed the Seal Sale, hence the term "Red Cross Seal" which still lingers although now six years out of date. The right name is CHRISTMAS SEALS or tuberculosis Christmas Seals, for since 1918 the National Tuberculosis Association, and its branches, state and local, have been selling the seals, and depending on them for their entire support.

The Oregon sale is conducted by the Oregon Tuberculosis Association and the County Public Health Associations.

Since the time of the first Seal Sale many millions of dollars have been invested in tuberculosis-fighting equipment; hospitals, open air schools, clinics, dispensaries, tuberculosis nurseries, etc., and it has been through the "interest" raised on the sale of Christmas Seals in the United States has been considerably more than in half in these eighteen years. The disease is being conquered. The winning slogan is Health! Health! Health!—such fine radiant health that it repels sickness, and Christmas Seals are in the field in Oregon, and in every state in the Union, to continue the fight to a winning finish.

EIGHTEENTH SEAL SALE ON

Money to Finance Anti-Tuberculosis Fight in Oregon
 Christmas Seals, selling for one cent each are expected to raise \$50,000 in Oregon between Thanksgiving and Christmas, in the 18th annual Seal Sale. Ninety-five per cent of the money will be kept in Oregon, where it is the sole source of income for the Oregon Tuberculosis Association, and provides most of the funds used by the County Public Health Associations.

Every city, village and community in the state will have a chairman or group of workers actively interested in selling the seals. Women's clubs and organizations are giving it enthusiastic support, and a large number of Parent-Teacher Associations are lending aid to the "Give Health, Fight Tuberculosis" campaign which the seals finance.

One of the few things a penny will buy—A Christmas Seal.

There is also the young woman who will wash the dog but who wouldn't wash dishes for a million dollars.

A straw hat to withstand rain is anybody's. But why doesn't somebody bring out one that won't sunburn?

W. W. ATTERBURY

W. W. Atterbury, recently-elected president of the Pennsylvania system, succeeding Samuel Rea, retired.

Tribute to Healing Spring

The ancient and famous mineral springs from which the town of Bath, England, receives its name and fame, are rich in historical reminiscence. Between 1612 and 1784 it was the custom for persons of distinction who had derived benefit from the Bath mineral waters to present a brass ring to be fixed in the wall of the bath for the help and support of those bathing in the hot water. John Revet visited Bath in 1874, and appropriately presented a brass ring, which may still be seen on the walls of the king's bath. The inscription reads: "Thanks to God, I, John Revet, his Majesty's Brasser, at fifty years of age of July, 1874, received Cure of a Trus Palste from Head to Foot on one side."

ON GUARD AGAINST FARM CROOKS

With every constructive movement for the improvement of agriculture, one is likely to find men who will attempt to capitalize it for their own personal benefit. This may take the form of shipping in poor and unprofitable livestock to palm off on unsuspecting farmers, or it may sometimes be selling fair to good livestock at exorbitant prices under promise of taking back some of the offspring at high figures.

There are several instances where the college of agriculture through its county agent system has co-operated in heading off the introduction of undesirable or extravagantly priced livestock. In other instances the state bankers association, through its agricultural committee or the secretary's office, has sent warnings to its member banks relative to individuals or firms operating on an unsound basis. It is as important to head off undesirable investments as it is to encourage constructive and profitable ones.—Banker-Farmer.

Used Grain Sacks WANTED

Will pick up at your ranch. We make regular weekly trips to Moro with garden produce from the Yakima Valley.

We carry quality Merchandise only and the price is right.
