1ST AMERICAN YOUTH ENTRY

Edith May Adams, eighteen-year-old Barrington, N. J., girl, presenting her entry blank to Mayor Kendrick in his office at City Hall, Philadelphia. The American Youth and Teacher Award was established as a tribute to American youth and teachers by the Board of Directors of the Sesqui-Centennial International Exposition, through which the people of the United States and the world at large will celebrate the 150th anniversary of the Declaration of American Independence. The exposition will run from June 1 to December 1. Miss Adams' entry blank cited her for heroism displayed recently when she remained inside a burning building helping doctors render first aid to injured firemen. She is a candidate for the Golden Eaglette, the highest gift within the hands of the Girl Scouts. Each state will elect a girl and boy and one teacher to represent them and the successful candidates will be the guest of the Sesqui officials from June 23 to July 5 at the exposition. This will also include a trip to Washington where they will be received by President Coolidge and presented with medals.

Work, and Banish Worry

It is not work that kills men; it is worry. Work is healthful; you can scarcely put more upon a man than he can bear. Worry is rust upon the blade. It is not the revolution that destroys machinery, but the friction. Fear secretes acid; but love and trust are sweet juices.—Becher.

STRAIGHT TALKS WITH AUNT EMMY

On Carrying Checks Around

"Have you heard about the trouble Jim Sykes is in, Aunt Emmy?" asked Molly, who dearly loved to talk about her neighbors.

"Why, no," answered Aunt Emmy; "what is it?"

"Well, Aunty, you know how proud he was to get that building job from Mr. Parker. He needed the money so much. When it was finished Mr. Parker gave him a check for \$3,000. Of course Jim had obligated himself to pay a lot of that out for materials and things. Well, you know what an old slow poke Jim Sykes is. Instead of taking the check to the bank right away he carried it around in his pocket and then poor Mr. Parker died. Now he must wait until Mr. Parker's estate is settled, and that may be a couple of years before he can cash the check. Poor Jim, isn't it a shame!"

"It's too bad," agreed Aunt Emmy, "but quite in keeping with most folks' carelessness about money. People should be prompt in depositing checks. Aside from such a serious thing as a death, an undeposited check is a nuisance to lots of people. Banks and business houses keep their books carefully balanced. If at the end of a month a check that has been issued has not been put through for collection it means a lot of unnecessary bookkeeping for the person who issued the check, and for the bank.

"That, too, there is the danger of loss. People often write their names across the back of a check and then carry it around for a day or two before banking it. An indorsed check is as negotiable as money. To be safe always indorse it to your bank. Write 'Pay to the Order of _____' then the name of your bank and below that sign your name. That protects the check from being used, if it should get out of your hands. But never waste any time about depositing checks you receive."

"Not after what happened to Jim and after hearing you tell me all these things, Aunty!" said Molly. "I'd be scared to keep a check a minute more than necessary."—Anne B. Aymes.

DISPOSES IN 282 WORDS OF THE BANK GUARANTEE LAW

"Understand bank deposit guaranty being proposed in your legislature," telegraphed R. H. Clark, president of the Bank of Tupelo, Miss., to Paul R. Brown, Secretary of the North Carolina Bankers Association. "Such a law in any form is a snare and a delusion. It is license and encouragement to irresponsible banks and banking and penalizes capital solvency and prudent banking. It creates a sense of security in the minds of the unthinking and uninformed that is false and impossible to be realized on ultimately. It tends to debauch one's right and duty to be thoughtful and discriminating. To compare it to legitimate insurance is without reason and absurd. It jeopardizes the solvency of all banks and the safety of all depositors for the theoretical safety of a few. We have had it ten years, and the fund is hopelessly in arrears. Have been fighting for repeal and have made progress. Only repeal can save our state system of banks. Many of the best are nationalizing even now. Guaranty schemes always have been, are and always will be impotent, futile and disastrous. Consider Oklahoma, Texas, Nebraska, Mississippi and others. It is not new. Has been tried, failed and discarded at intervals for more than 100 years in this country. No well-informed, honest and intelligent mind can accept it in principle or practice. Well paid intelligently competent supervision, restriction of banks to territory that will warrant sufficient capital investment and encourage surplus accounts is the only sane and honest course and will afford all the guaranty the depositing public is entitled to as compared with all other human affairs. Arouse your people and crush the misguided effort for all time. To do so will be worth whatever it may cost, and the value will be to your people generally more than to the banks."

The bill was reported unfavorably.

PITFALLS FOR THE UNWARY

Seek Bankers' Advice on Foreign Bonds, Says Department of Commerce.

American investors in securities of foreign companies and foreign governments should take care to purchase them only through reliable bankers or brokers, says Commerce Reports issued by the Department of Commerce. It adds:

"There have recently been several flagrant cases of securities being advertised in American journals at prices from 10 to 100 times the price quoted on the same date in the markets of the countries where the concerns are located. Some of these cases have even attracted the attention of foreign newspapers. This is not a safe kind of speculation for uninformed Americans but the would-be investor can easily protect himself by asking the advice of his regular banker."

CLEAN-PURE
DRINKING WATER CHILLED FOR THE CHILDREN

The **AUTOMATIC REFRIGERATOR BUILT-IN WATER COOLER**

You Take No Chances With the AUTOMATIC

The Automatic's built-in water cooling system eliminates the danger to your children's health and your own from using cracked ice. Instead you just turn the faucet and out flows pure, clean drinking water, ice cold, yet untouched by ice. The illustration above shows how the white porcelain lined water tank is built-in along side the ice chamber, taking up no space in either the food or ice chambers.

Many Improved Features

Although in itself of inestimable value, the built-in water cooler, making your ice do "double duty", is only one of the many advantages built into the Automatic. Other distinctive features are eight-wall insulation, scientific air circulation, air-tight sanitary trap, snow white enamel lining in food chambers, non-rusting shelves, hand-fitted doors, tight-locking hardware, and a golden finish exterior of seasoned ash.

Celtic History

Celtic-speaking peoples occupied a very wide territory of old, spreading from central Europe, where the first records of them exist, far to the west, southwest and even southeast. They settled in Gaul perhaps about 1000 B. C. and were probably at the height of their power about 400 B. C. Later they were under constant pressure from the Germanic tribes to the north, and saw most of their territories conquered by the Romans, from the south. They maintained their independence in the British Isles, though, for centuries.

Patriotic Pride

The term "God's country" is often applied to a nation or country by its sons and daughters. A recently published bulletin on Australia calls attention to the fact that among the white inhabitants, poverty is practically unknown, the aged, infirm and children are adequately provided for, the labor situation is satisfactory and the territory itself offers unlimited possibility for development, exploitation and the exercise of man's ingenuity. All these things would make it seem a favored spot.

Originated Turkey Trot

Going back to the early Eighteenth century to show that every innovation in dancing has met with violent opposition, a writer in Liberty Magazine says that it was in 1812 that Mabel Hite, an actress, and Mike Donlin, a ball player turned vaudeville, who was Mabel's husband, brought to Broadway the first turkey trot New York had ever seen. Right there recently ordered terpsichore expired.
