WHEREVER THERE ARE FLIES USE FLY-TOX

Millions of American Women Kill Insects this clean sure way
It means cleanliness, comfort, health

FLY-TOX is in daily use in millions of American homes. Indeed it is considered an essential to good housekeeping. For it has brought a new sense of cleanliness to the home, liberated the housewife from the insect pest.

Though harmless to humans, contact with that cleanly, fragrant, spray of Fly-Tox is sure death to flies, mosquitoes and similar insects.

FLY-TOX is a scientific insecticide. It was developed at Mellon Institute of Industrial Research by Rex Fellowship

FLY-TOX
Kills FLIES, MOSQUITOES, MOTHS, ROACHES, ANTS, FLEAS

College Work Completed

Oregon State College at Corvallis Graduates Students From Moro

Moro was represented by four students in the O. S. C. graduating class of 1928 at Corvallis which totals more than 500. Students who were among those receiving degree at the annual commencement exercises June 4 are Hollis M. Bull, Opal Powell, Owen L. Searcy and Edmund Stephens. The graduating class is composed of those who have "survived" four years of rigorous work during which their scholarship had to be kept high to

STEPHENS BULL POWELL SEARCY

meet the requirements. The college does not grant a degree to one whose average is less than a C even though he may have accumulated sufficient credits.

Opal Powell and Owen L. Searcy earned degrees of bachelor of science in commerce. This is the largest school in the college and is organized to afford work in the various branches such as accounting and management, advertising and selling, banking and finance, commercial education, economics and sociology, general business, markets and marketing, agricultural economics, political science, real estate and secretarial training.

Aside from completing his regular work, Searcy has also taken an active part in campus affairs. He was a member of Delta Sigma Phi, social

fraternity; member of the Student Cooperative association; board of directors, and interfraternity council.

Bull and Stephens have completed work for a bachelor of science degree in agriculture. This school has won a wide reputation throughout the country and even the world for quality of work done, and while it is not the largest in point of number of students it annually attracts men—and even women—from distant points, some of whom come for graduate work. For the first two years Bull and Stephens with the other 47 graduates in this school took a rather general course and then chose a speciality from among the depart-

ments of animal husbandry, farm crops, horticulture, dairy husbandry, agricultural engineering, poultry husbandry, farm management, and agricultural chemistry, zoology, entomology, botany, and plant pathology, economics and education. Women and men both major in landscape gardening under the school of agriculture or in the section of horticultural products.

Bull is a member of Alpha Chi Rho, social fraternity; agricultural class publicity committee chairman, Farm Crops club president. Stephens was also active in campus affairs. He is a member of Alpha Zeta, national honorary fraternity in agriculture; member of ag-home-ec ball committee; interfraternity council; and Agricultural club.

Electricity On Farms

Experimental Project to Exhaust All Possibilities

An organization known as the National Rural Electric Project, located in Maryland has been formed for the purpose of establishing a group of powerful agencies to conduct a series of experiments and demonstrations in the application of electricity to agriculture on a scale more complete, more elaborate and more comprehensive than anything hitherto attempted. The experimental project will begin to produce valuable data almost from its inception and by the end of five years it is expected the full field of the possibilities of electricity on the farm will have been exhausted.

The high school auditorium was very prettily decorated in green and white last Friday evening as a setting for the commencement exercises of Moro high school. A large crowd was present to enjoy the program and honor the graduating class. Hon. R. R. Butler of The Dalles, republican candidate for congressman from the second Oregon district, was the principal speaker.

The older division of Moro campfire girls, in charge of Mrs. C. P. Moore and with C. P. Moore acting as chauffeur, left this week for a camping visit to Newport. Included in the party were Josephine Johnson, Mary Nickerson, Emma Jean Stephens, Lois Bryant; at Portland they were joined by Mrs. Moore's mother and sister and a second car and camp equipment, and at McMinville by Dorothy Foss.

Albert S. Porter, pioneer resident of Sherman county, died in The Dalles Tuesday morning following an illness of more than two years. Funeral services will be held at the Methodist church in Wasco Friday afternoon, Rev. F. R. Jackson officiating. Interment will be in Wasco cemetery. Mr. Porter has been an employee of the W. W. M. Co. for twenty years, in charge of their Hay Canyon warehouse.

Much interest has been taken this week by local farmers in methods to control morning glory in wheat fields. This was partly stimulated by a visit made to wheat fields near Dufur by J. B. Adams, T. W. Alley, Roy Powell and George Meloy. These men found that the roots of the plant had been killed to a depth of more than three feet by application of a spray, used when the plant stems had nearly matured.

Mr. and Mrs. W. E. Buell, their son Fred and daughters Pauline and Eveline, spent last weekend as house guests of E. E. Barzee and wife. The Buell family have many friends at Moro as the result of their residence here while Mr. Buell was in charge of the local schools. Mr. Buell is now in charge of the Estacada schools, being recently again elected to that position with an increase of \$200 in salary.

Ferral Barr was taken with a serious attack of what doctors thought might be compression of the brain late Tuesday when driving from Wasco to Moro in company with three companions. He was taken first to Grass Valley, where Dr. Poley could do little for him; then brought to Moro and Dr. Morse called from The Dalles. About five hours after the seizure first occurred, he recovered consciousness and is now reported out of danger.

Lawrence W. Rakes, County Superintendent

SUMMONS

In the Circuit Court of the State of Oregon for Sherman County.

R. T. Dingle, plaintiff, vs. Lola A. Dingle, defendant.

To Lola A. Dingle, the defendant of this summons as hereinafter stated, and if you fail to so answer said complaint, or otherwise appear or plead thereto, plaintiff, for want thereof, will apply to the Court for the relief as prayed for in his complaint, namely, for a decree dissolving the bonds of matrimony now existing between you and the plaintiff, on the grounds of wilful desertion continuing for a period of one year.

This summons is served upon you by order of the Honorable D. R. Parker, Judge of the above entitled Court, made and entered on the 29th day of May, 1928, which said order requires this summons to be published for a period of four consecutive weeks in the Sherman County Observer, a newspaper of general circulation published at Moro, in Sherman County, Oregon. And the date of the first publication of this summons is June 1st, 1928.

W. C. Bryant
Post office address Moro, Oregon.
C. L. Pepper
Post office address The Dalles, Oregon.
Attorneys for plaintiff. 4t-j1-22

MOVIE NOTES

"THANKS FOR THE BUGGY RIDE"

Laura La Plante, blonde, mischievous and delicious, will make the world a better place to live in for an hour and a half when "Thanks for the Buggy Ride," one of the best little love farces you ever saw, is shown at Moro Theater Saturday.

There is an old Hindoo proverb which declares that it takes two to make a buggy ride. The other featured player is Glenn Tryon, that famously funny peanut eater who made millions forget their immediate troubles when he made them laugh in "Painting the Town" and "A Hero for a Night."

"Thanks for the Buggy Ride" is just a delightfully humorous love story, written around the composing of the popular song of the same title and was suggested by a Byron Morgan story and written for the screen by Beatrice Van.

The cast includes Richard Tucker, Lee Moran, Jack Raymond, David Rollins, Kate Price and Trixie Friganza.

William A. Seiter, who is the husband of Miss La Plante, directed her starring vehicle and he put everything into the picture to make it a glorious comedy-romance.

"FINNEGAN'S BALL"

Standing out like a beacon of fun with coherent plot in this year of almost plotless comedies, "Finnegan's Ball," one of the funniest screen comedies of recent years, opens at Wasco Sunday. It is a comedy with a clean laugh every 20 seconds, and retains the hilarious snap of the original stage play.

"Finnegan's Ball" points the trend of motion pictures today inasmuch as all of its comedy situations are spontaneous and fit the action of the story. And the laughs begin almost with the first foot of film and still echo after the curtain has closed over the screen.

Blanche Mehaffey as the beautiful colleen, Cullen Landis as her lover, huge Mack Swain as the boisterous Finnegan, Charley McHugh as little Finnegan, and Aggie Herring as Mrs. Finnegan are the principal players and are all to be featured.

Mr. and Mrs. Kenneth Corning of Seattle and Miss Jane Beaton of Plenty, Sask., Canada, were visitors at the Geo. A. Williams home on Monday of last week leaving Thursday morning for Portland on their way to Seattle. Mrs. Corning and Miss Beaton were school mates with Mrs. Williams in the province of Quebec when they were girls. On Memorial day they visited the experimental farm and expressed themselves as very much pleased with what they saw there.

NOTICE OF FINAL SETTLEMENT

Notice is given that J. M. Wilson, as administrator of the estate of George S. Wilson, has filed with the Clerk of the County Court of the State of Oregon for Sherman County, his final report and account of his administration of said estate. Said Court has fixed Saturday, the 30th day of June, 1928, at the hour of ten o'clock A. M. of said day, and the courtroom of the above entitled Court in the city of Moro, as the time and place for hearing all objections to said report.

J. M. Wilson, Administrator.
W. C. Bryant, Attorney for Estate.
First publication June 1, 1928.
Last publication June 29, 1928.

TASCO SERVICE

The small farmer of Europe, who uses the flail and winnow to thresh his grain, is no more behind the times than the present day merchant who waits until inventory time to find his profits or losses. TASCO SERVICE gives definite information on your condition, every month, and tells you why.
