

WHEREVER THERE ARE FLIES USE FLY-TOX

### Taint Everything They Touch

SOFT, spongy, hairy, reeking with unspeakable filth, the fly's foot poisons and defiles everything it touches. Germs of sickness and dread disease thrive in the putrescent ooze.

Kill the flies. Use FLY-TOX. Make your summertime one of freshness, cleanliness and good health.

**FLY-TOX**  
Kills FLIES, MOSQUITOES  
MOTHS, ROACHES, ANTS, FLEAS

MANUFACTURERS OF

MILL FEED AND FLOUR

A "WANT" ad in THE MORO OBSERVER will reach more people in Sherman County than by any other medium available.

### Savings & Loan Association

Through the plan offered by the Western Savings & Loan Association of Portland to investors, no loss of interest need be suffered by people who wish to reinvest their July funds or to make new investments at the half-year period. Full interest at 6% from July 1 will be paid by the Western to purchasers of paid-up certificates before July 12. These certificates are issued by the Western in amounts of \$100 up to \$9,900 and on large investments these 12 days of interest mean a saving of thousands of dollars to Oregon investors.

There are a number of special features of these paid-up certificates of the Western Savings & Loan Association, according to Fred G. Willis, secretary, which make them ideal investments for people of all classes. The money is always available in time of emergency, while the security back of each certificate amounts to more than double the face of the certificate, and is held in trust by the state, under whose supervision the Western operates.

The Western is also offering other saving plans for the investors, all backed by selected first mortgages on improved Oregon real estate. The company itself has resources of well over \$1,360,000 while the security back of the investment certificates and other savings accounts amounts to well over \$2,000,000. A recently opened account of the Western which has become very popular is known as the 5-point 5-percent account. Mr. Willis has offered to send full information on any of the Western's savings plans to anyone who is interested. The company also makes loans to finance the building or remodeling of homes.

### First Wheat This Year

Wheat will soon begin to roll into the warehouses of Sherman county from active working harvesters all over Sherman county. Each year farmers at different shipping points in the county compete for "first load to warehouse" honors and the warehouse men give zest to the contest by giving a barrel of flour to the owner of the first load of wheat coming to their warehouses.

This year the first load of wheat into Wasco to be accepted by a warehouse was that brought to the W. W. M. Co. by Fred Beymer last Friday and which was followed by a load to the Independent W. & M. Co. on Saturday by Fred Hennagin. Each received a barrel of flour. Roy Belashee also received a barrel of flour from the Independent company for the first load delivered last Saturday at their Rufus house.

A camouflaged still was raided in Portland. It was making stuff camouflaged as whisky.

### Grain Charges Too High

Freight Reduction of 50% Demanded by Oregon P. S. Commission

An important hearing is in progress in Portland, in which the Interstate Commerce Commission is obtaining data from which to determine the justice or injustice of the basin differential rates as between Columbia river points and Puget Sound. This hearing took on a new aspect Monday, when the Oregon Public Service Commission appeared by its attorney and its consulting engineer, and insisted that the freight rates on grain to Portland from wheat shipping centers should be greatly reduced. Attorney Ellis, for the Commission, declared with relation to the differential that "not only was Portland clearly entitled to the Columbia basin differential, but that the existing differential does not give to Oregon ports the advantage to which they are entitled because of geographical location." He also presented a table as given below. The first column gives the present carload rate on wheat to Portland from the points named. The second column gives the direct cost to the railroads of transporting the car, and the third column shows a proposed rate considered fair if wheat is to be reckoned on a parity with other commodities.

From	Present	Proposed	Difference
The Dalles	\$ 87.15	\$28.34	\$ 58.81
Pendleton	158.55	41.54	117.01
La-Grande	207.50	55.45	152.05
Baker	219.95	62.41	157.54
Grass Valley	178.45	57.50	120.95
Condon	168.75	59.60	109.15
Lexington	182.60	52.84	129.76
Enterprise	201.45	73.45	128.00
Ontario	237.30	80.88	156.42
Walla Walla	158.55	46.89	111.66
Dayton	157.70	60.98	96.72
La-Crosse	178.45	64.70	113.75
Kahlotus	178.45	58.68	119.77
Pomeroy	190.90	70.98	119.92
Colfax	199.20	67.69	131.51
Pullman	199.20	76.58	122.62
Oakdale	199.20	66.43	132.77
Marengo	178.45	53.75	124.70

The railroad people were taken by surprise by the introduction of this proposal of the Oregon Commission, but the Commission was fortified by a mass of statistics, by which it felt justified in demanding drastic reduction of freight rates as above. The Commission indicated that a still greater reduction than above shown might be demanded under the Hoch-Smith resolution, which indicated that Congress intended a lower rate for grain than on other commodities.

### Weekend House Guests

E. T. Strong and family entertained a jolly house party of relatives last Sunday rather unexpectedly. Early in the morning Mr. and Mrs. C. A. Rasch, parents of Mrs. Strong, and Herman Rasch, brother of Mrs. Strong, arrived from Redmond and were soon followed by Mr. Strong's cousin, Mrs. A. B. Wolfard, her son Harold Wolfard and wife and Mr. and Mrs. Lee Nixon, parents of Mrs. H. Wolfard. Mr. Rasch and party returned to Redmond Sunday evening. Mrs. Wolfard and party drove from their home at Cottage Grove, over McKenzie pass, leaving Monday for Seaside and Newport beaches.

### NOTICE TO ALL

Every one who has a bill of any kind against any committee on account of the 4th of July celebration at Grass Valley by the county granges are notified to send them to J. J. Wiley, Moro, Oregon, not later than July 15th.

On Friday evening, July 13, at eight p. m., a county-wide meeting of farmers will be held at Moro to discuss methods of eradicating wild morning glory, one of the most troublesome weeds in Sherman county wheat fields. Prof. G. E. Hyslop of O. A. C. will be present and a summary will be presented of the results obtained in Oregon and in other states with the new weed sprays such as K. M. G., sodium chlorate, and sodium arsenite. Every farmer who has a patch of wild morning glory in his field should be at this meeting, which will be held in the club room of the Hotel Moro next Friday evening.

Mr. and Mrs. J. F. Foss; son Austin; daughters Gwendolyn and Dorothy; Miss Essie Foss, sister of J. F. Foss, and Emmajean Stephens drove to Camp Sherman July 3rd where they spent the 4th. On their return to Moro they visited overnight at Terrebonne with Mr. Foss' brother, arriving home early Thursday morning.

Alfalfa with leaves dry but with stems showing slight toughness when twisted usually has about 25 per cent moisture, a proper condition for putting in the stack or mow.

## YES

Dodge Brothers Standard Six is the fastest car with the fastest pick-up, under a thousand dollars.

## HOWEVER

That is only HALF the story. The IMPORTANT point is that this exceptional speed is made practical by Dodge ruggedness of chassis and body construction.

## OTHERS

Might succeed in building a car at this price with equal SPEED, but to do so successfully they would also have to build a car with equal STURDINESS.

## AND

That is where Dodge Brothers, with years of experience in building a dependable low-cost product, are years ahead of the field.

## YOU

Can buy the Standard Six knowing that it is not only the fastest car in its class but the sturdiest and the one is every bit as important as the other.
