**"Talkies" Demands Perfect
True Tones in Pianos**

During the past year the world has heard a great deal about the many innovations of one kind and another that have accompanied the introduction and development of screen talking pictures. The effect of these changes has been, as great, perhaps, in the "sound props" under which classification is pianos, as in any other department of the film industry.

Before the advent of sound in films the piano used in pictures was entirely a matter of eye appeal. Now, however, with the sound of the instrument being projected, the tone must be given careful consideration.
It is a significant fact that the name Starr has been so closely associated with the most prominent sound pictures that have been made. For the purpose of showing how extensively Starr Pianos are used in sound pictures, we are giving herewith a few of the many pictures now being filmed, in which the Starr takes a prominent part. Many of these are now in the making and have not been publicly announced.

- Universal Studios: "King of Jazz," Paul Whiteman.
- United Artists Studios: "Lumox," all star.
- Fox Studios: "Why Leave Home," all star; "Big Pine," Tracy-Clark.
- Metro - Goldwyn - Mayer Studios: "Marianne," Marion Davies.
- Columbia Studios: "The Fall of Eve," Patsy Ruth Miller; "Song of Love," Bell Baker; "The Broadway Hooper," Sally O'Neil - Jack Eagan.
- Pathe Studio: "Paris Bound," with Anne Harding; "Sailor's Holiday," Allen Hale; "The Awful Truth," Ina Claire; Joe College and Eddy Quillan in negro comedies; The Wildcat Ser-

ies, Buck and Bubbles; "The Flying Fool," William Boyd; "Rich People," Constance Bennett.

This general use of the Starr Piano in connection with work in which the requirements as to tone are exceedingly high, indicates a deserved recognition of Starr quality. If the Starr Piano will pass the critical requirements of the motion picture musical director, it can be depended upon to give satisfaction in any line of musical endeavor.

**Two Papers in Sherman
County Change Heads**

Both the Grass Valley Journal and the Wasco News in their several issues last week made announcement of a change in their respective managements. The Grass Valley Journal carried news to their readers that Mrs. W. I. Westerfield had sold the paper and business to Giles French of that city. The Wasco News made similar announcement that Clarence Anderson had again severed his interests with that publication, A. D. Richelderfer and B. L. Casteel taking over the ownership and the paper was to continue with Mr. Mahaney, formerly employed in the office, as foreman of the shop.

Strain Is King

The way some families keep up a front imposes a great strain on the shops they deal with - Butland Daily Herald.

Trait of the Inolent

"Contentment," said 100 lbs. the sage of Chinatown, "is usually experienced by those who are too indolent of mind to face their troubles." - Washington Star.

No Test of Quality
Self-praise is no recommendation
Many a man throws bouquets at him
self who never pays his debts a bill -

Answer This Question!

All Automobiles and Furniture are Painted by Air Pressure. Why not Your Home and Barns?

We Save You Real Money!

Think of Painting your Home or Barn with the Best Paint obtainable at a cost for both Labor and Material at very little in excess of the cost for the Paint you might buy from a mail-order house!

The Air Gun for Painting is a Great Labor Saver. The Finish is Beautiful. While Protection Value is Superior.

We use the best Paint Materials—both Oil and Color. If you doubt this statement, we permit you to select samples from what we are using and send them to the Oregon State College at Corvallis for Analysis.

Call us up at phone 102 Moro for estimates. This will put you under no obligation to us. Ask our customers about us. We refer you to the school boards of the DeMoss school, the Moro school, the Boardman school, the Grass Valley school, and the Grass Valley Elevator Company.

Our Air Brush, run by power, is a Master Painter, the "last word" in excellence in painting roofs or buildings. All the cracks, crevices, and inaccessible places are reached by Paint, driven under high pressure, like rain driven by a windstorm. A first blast of air gives a CLEAN SURFACE while the immediate following of the Air Driven Pressure Painting gives a CLOSE CONTACT, resulting in neat, beautiful work!

All Work done on a Guarantee and at very reasonable prices and easy terms.
