

**Electric Range and Refrigerator Demonstrated**

The cooking school held at Moro on Monday and Tuesday of this week, sponsored by the local management of the Pacific Power and Light company, was an unequalled home economic success, both in attendance and the interest manifested by those attending.

Miss Elsie Goodall, representative of the Home Economics department of the electric power company, was in charge of the demonstration work and gave the ladies who attended many practical hints and suggestions for using electric ranges and refrigerators as well as solving many problems that were presented through the numerous questions asked. This last was quite a feature of the school and at times the meeting was more like a round table discussion of kitchen problems connected with the cooking and preservation of foods by electricity. Each one attending was given a pencil and paper and at the conclusion of the session had many excellent receipts for their individual home use at future times.

Names of those present each day were placed in a hat, the first two names drawn being presented with prizes. The first day Mrs. J. L. Searcy was given an electric toaster and Mrs. M. E. McKee the macaroni cheese roll, cooked as a demonstration. The second day Mrs. Idabelle Hunter was given an electric percolator and Mrs. J. R. Morgan an economy cooker dinner, cooked as a demonstration. The last day ice cream and cookies were served to all who attended.

**Great Auk in Museum**

An assembled skeleton of the extinct Great Auk, the huge bird once quite common in North America, is on exhibition at the Field Museum of Natural History, Chicago.

**Switzerland First**

The Scientific American says that Switzerland leads in the number of people who possess the inventive turn of mind.

**News Items From Kent**

R. H. Coppock, Roy Powell, and C. H. Larson were Moro men calling here Friday.

Walter Wilson has been here for the past week, and is not with the Rooper sheep any more.

John Hardin, a grain dealer from The Dalles, was here Friday looking over the conditions.

Many members of the grange are in Redmond this week attending the state grange meeting.

L. M. Schadewitz and Mrs. Louis Schadewitz left last week for California to be away for some time.

Wm. Mitchell made a trip over in Washington last week and has secured some work there for his road outfit.

Wm. Mitchell and a crew of men were at work in Buck Hollow Friday repairing the dam at the swimming pool.

The cold weather appears to be over, but no rain yet of any amount. While not yet suffering for rain we are all hoping to get some as it will very soon be needed.

Charles and Margaret Dunlap, Kenneth Sather, Arthur Holt, Lester Wilson and Carl Pluemke left Sunday for Corvallis to attend the 4-H Club work schooling this week.

It is reported that O. H. Adams has bought a place near Hood River and will move there, and that he has rented his Kent home to Ross Andrews manager of the Shell plant here.

Albert Pluemke, who is home again after spending the winter in Moro attending school at that place, is packing his grip for a visit in Portland with relatives prior to the beginning of harvest.

A general feeling of satisfaction here on learning that Lyle Smith of Shaniko was sentenced to five years in the penitentiary, in The Dalles on Monday, after pleading guilty to the charge of assault on Mrs. McKinley.

There was a home coming meeting in the Rebekah lodge Thursday night. After the regular meeting a short program was given and Mrs. Anna B. Guyton was presented with a twenty-five year jewel. She will leave soon for Oakland, California.

**Motoring A Privilege**

The notion seems to prevail that driving a car is a right. Quite the contrary; it is a privilege—and one that the state is amply warranted in hedging about with restrictions in the interests of public safety. Eleven states now require proof of financial responsibility.

**Notes of Interest From The County School Superintendent's Office**

Fifty-one Certificates of Award have been issued this month to students who have been neither absent nor tardy for the school year.

Students having an average grade of 90 per cent or more in the 8th grade are placed on the honor roll in the office of the superintendent.

Those whose names will be inscribed on the honor roll for the year are: Maxine Henrichs, Flora Williams, Marjorie Byers, Earl Shipley, Robert Rolfe, Cathryn Johnson, Harry Dean Proudfoot, Arthur Holt, Lavon Sayrs, Jean Powell, Sibyl Belshe, Donald Davis, Vivian Reynolds, Bennie Payne, Charles Dunlap, Karl Pluemke, Helen McLeod, Virginia Helyer, Edna Lyons, Winifred Fortner, Mary Jeanette Sargent, Lillian Yancey, Anna Sather.

Those who have registered to attend the 4-H Club summer school at Corvallis and who are up in their work and entitled to go are: George Hennagin, Margaret Dunlap, Karl Pluemke, Arthur Holt, Leora Peetz, Lillian Schassen, Viola Hansen, Mildred Hansen, Flora Williams, Kenneth Sather, Donald Davis, Helen Searcy, Maxine Henrichs, Marjorie Byers, Imogene Johnson, Chas. Dunlap, Maynard Christiansen, Anna Sather.

The required qualifications of a child who aspires to attend the 4-H Club summer school at the state college held this year from the 9th of June to the 21st, are that he or she be 12 years old (and under 19), be a 4-H Club member, and have his or her work up to date by the 6th of June, and pay the fee of \$15 which covers the fare and scholarship in Corvallis for the full time. The railroad fare of the members is paid by the county.

Kent Grange has paid the fare for two, Margaret Dunlap and Kenneth Sather. Shearer Grange has selected one to go from their community. Mildred and Viola Hansen each won a first prize at the state fair at Salem last September, which entitles them to go to the summer school free.

Mrs. L. W. Rakes will accompany the youngsters on the trip. They will take part in the instruction, play, and entertainment with about 800 other boys and girls from all counties of Oregon. Regular college instructors will be their teachers and will help to make the trip one worth while.

The children will entertain as well as be entertained. They will partake in many events and hear noted speakers. Sherman county boys and girls will broadcast over the radio at the Oregon State College station KOAC on the evening of June 17th. Let's tune in and hear our own kiddies say hello, and perhaps sing us a song of their own make.

A scientist sees the possibility of a working week of three, even of two days through ultimate use of ultra violet and other radiations for illumination to permit night work. Just how that might reduce the number of days for the average worker is not wholly clear, since many factories, shops and other business now may be operated on a 24-hour basis, where it is desirable or profitable. But the idea of a week that is cut in half or more is alluring, says the Kansas City Times. Coming in with the new year, when hopes are high and resolutions strong it should strengthen the expectation that after a while it will be unnecessary to have a working week at all. People may just sit in their homes and imagine themselves at work, and the jobs, if any are necessary, will be done.

The recent government census in Bulgaria has disclosed that there is a greater proportion of persons more than one hundred years old than in any other nation. Most of them were found in localities more than 1,500 feet above sea level, and were for the most part shepherds living in the open, and subsisting upon many vegetables but little meat, while drinking large quantities of goat milk, mostly sour. These shepherds use, as a rule, very little liquor or tobacco. Out of a total population of 5,000,000, there are found to be 158 centenarians. Italy, with a total population of 40,000,000, is believed to be next in number of persons one hundred years old, or older, with a total of 53.

Every tree is affected for good or bad by the trees that surround it. Even the soil in a forest is different from the soil outside. It teems with countless living things, some made visible only by powerful microscopes says "Forests and Mankind" by Charles Lathrop Pack. Without this soil life the forest could not live, for it helps provide the tree roots with certain needed foods. Neither could these soil dwellers live without the forest and although we know very little about this form of life, we do know that in some way these microscopic organisms are as necessary to forest growth as the sunlight or rain.

America is the richest country in the world—so rich that its people feel from time to time that they can afford to gamble heavily. The plain citizens who follow old Ben Franklin's maxims on thrift go their accustomed ways and continue to have rather the better of the argument.

Read the Observer for county news.

**Home Pointers**

(From School of Home Economics)

A spoonful of vinegar added to each quart of rinsing water will sometimes revive faded colors in cloth, particularly when the fading has been caused by the use of washing soda and strong soaps in laundering. The garment is wrung thoroughly and dried as quickly as possible.

There is no truth in the common idea that some colors, such as green, fade more easily than others, textile experts say. There are various classes of dyes and some are better than others. A blue fabric and a pink fabric dyed with a poor quality dye are equally alike to fade, but if the dye is good, a green material will hold its color with any other in the rainbow.

If flour sacks are soaked in cold water, spread on a smooth surface and soaped well and then moistened with coal oil, rolled as tightly as possible and scalded, all the lettering can usually be removed with the first washing.

A felt hat may be freshened by going over the entire surface with a piece of fine sandpaper and then brushing vigorously.

**Notice of Annual School Meeting.**

Notice is hereby given to the legal voters of School District No. 17 of Sherman County, State of Oregon, that the annual school meeting of said District will be held at School House; to begin at the hour of 2:00 o'clock p. m. on the third Monday of June, being the 16th day of June, A. D. 1930.

This meeting is called for the purpose of electing Director and Clerk, and the transaction of business usual at such meeting.

Dated this 23rd day of May, 1930.  
Attest:  
F. E. Fortner, District Clerk.  
D. E. Stephens, Chairman Board of Directors.

**NOTICE OF SHERIFF'S SALE OF REAL PROPERTY**

Notice is given that an execution and order of sale has been issued out of the Circuit Court of the State of Oregon for Sherman County, to me directed and dated May 28th, 1930, in a suit herein pending wherein A. W. Norblad, Governor of the State of Oregon; Hal E. Hoss, Secretary of State of the State of Oregon, and Thomas B. Kay, Treasurer of the State of Oregon, collectively constituting the State Land Board of the State of Oregon, was plaintiff and Mary Marlin, widow of J. M. Marlin, deceased; James Shannon, unmarried; Jesse Shannon, unmarried; Mary Shannon, unmarried; Frances Shannon, unmarried; Irene Shannon, unmarried; Charles Goettjen, unmarried; Hester Howard, unmarried; Ash Marlin and Mary Marlin, husband and wife; Aldo Marlin, unmarried; Rella Olds and Frank Olds, wife and husband; J. E. Baker, unmarried; Delmar Baker, unmarried; Alto Baker, unmarried; Oler Baker, unmarried; Clifford Marlin and Mary Marlin, husband and wife; Walter Marlin and May Marlin, husband and wife; Melva Tankesley and Roy T. Tankesley, wife and husband; and Millard Marlin, unmarried; defendants and in which said proceeding a judgment and decree was rendered in favor of said plaintiff and against the said defendant Mary Marlin in the sum of \$1200 with interest thereon from the first day of August 1928, at the rate of six per cent per annum until paid; for the further sum of \$125.00 attorney fees; and plaintiff costs and disbursements in the sum of \$34.65, and which said writ of execution commands me to make sale of all and singular the following described real property situated in Sherman County, Oregon, to-wit:

Southwest Quarter (SW 1/4) and the West Half of the East Half (W 1/2 E 1/2) of Section Nine (9) Township Three (3) South of Range Eighteen (18) E. W. M. Now therefore, in compliance with the demands of said writ of execution, and for the purpose of satisfying the judgment and decree aforesaid and accruing costs, I will, on Tuesday the first day of July, 1930, at the hour of ten o'clock a. m. in the forenoon of said day, and at the front door of the court house in Moro, in Sherman County, Oregon, sell at public auction, subject to redemption, to the highest bidder for cash in hand, sell the right, title, interest and estate in and to the said real property, which the said named defendants had on the 30th day of January, 1923, being the date on which the mortgage mentioned in said decree was recorded, or since had in or to the above described real property.  
Dated this 28th day of May, 1930.  
Hugh Chrisman, Sheriff of Sherman County.

**SHERIFF'S SALE.**

Notice is hereby given that an execution and order of sale was issued out of the Circuit Court of the State of Oregon, Gilliam County, on the 22nd day of May, 1930, upon a decree therein rendered on the 22nd day of May, 1930, in favor of W. W. Fordney plaintiff, and against George A. Tiltonson, Elsie Tiltonson and R. C. Stakely defendants, which said execution and order of sale is to me directed and commanding me to sell the property hereinafter described, for the purpose of satisfying the judgment of the plaintiff in said cause for the sum of (\$6000.00) Five Thousand and no-100 dollars with interest thereon at 6 per cent per annum from the 1st day of January, 1929, and \$500.00 attorney fees, and the costs and disbursements of said suit taxed at \$23.60.

Therefore, in compliance with said execution and order of sale, I will on Saturday, the 6th day of July, 1930, at the hour of 10:00 o'clock a. m., at the Court House door in Moro, Sherman County, Oregon, sell at public auction to the highest bidder for cash in hand, for the purpose of satisfying the judgment and decree mentioned, the following described real property, to-wit: SW 1/4 NW 1/4 Section 8; and that part of SE 1/4 SW 1/4 Section 5 and E 1/2 NW 1/4 and NE 1/4 SW 1/4 S 1/2 SE 1/4 Section 8 lying west and south of the John Day river in Tp 5 S. R. 19 E. W. M. in Sherman County, Oregon.  
Dated this 24th day of May, 1930.  
Hugh Chrisman, Sheriff of Sherman county, Oregon.

**NOTICE TO CREDITORS**

Notice is hereby given that the undersigned has been appointed executor of the estate of William Fitzgerald Guyton, deceased, by the County Court of the State of Oregon for Sherman County and has qualified. All persons having claims against said estate are hereby notified to present the same, duly verified, as by law required, to the undersigned at the office of W. C. Bryant at Moro, Oregon within six months from the date hereof.

Dated May 15, 1930.  
Anna B. Guyton, Executrix.  
First published May 16, 1930.  
Last published June 13, 1930.

Experience of large fleet owners reveals the unusual reliability and economy of the new Ford

A SIGNIFICANT TRIBUTE to the value of the new Ford is found in its increasing use by Federal, state and city governments and by large industrial companies which keep careful day-by-day cost records. In most instances, the Ford has been chosen only after exhaustive tests of every factor that contributes to good performance—speed, power, safety, comfort, low cost of operation and up-keep, reliability and long life.

Prominent among the companies using the Ford are the Associated Companies of the Bell System, Armour and Company, The Borden Company, Continental Baking Corporation, Firestone Tire and Rubber Company, General Electric Company, Goodyear Tire and Rubber Company, Kellogg Company, Knickerbocker Ice Company, Morton Salt Company, Pillsbury Flour Mills Company, The Procter and Gamble Company, and Swift & Company.

Each of these companies uses a large number of Ford cars and trucks. The Associated Companies of the Bell System use more than eight thousand.

Modern business moves at a fast pace and it needs the Ford. Daily, in countless ways and places, it helps to speed the production and delivery of the world's goods and extend the useful service of men and companies.

Constant, steady operation over many thousands of miles emphasizes the advantages of the sound design of the Ford car, its high quality of materials, and

unusual accuracy in manufacturing. Beneath its graceful lines and beautiful colors there is a high degree of mechanical excellence.

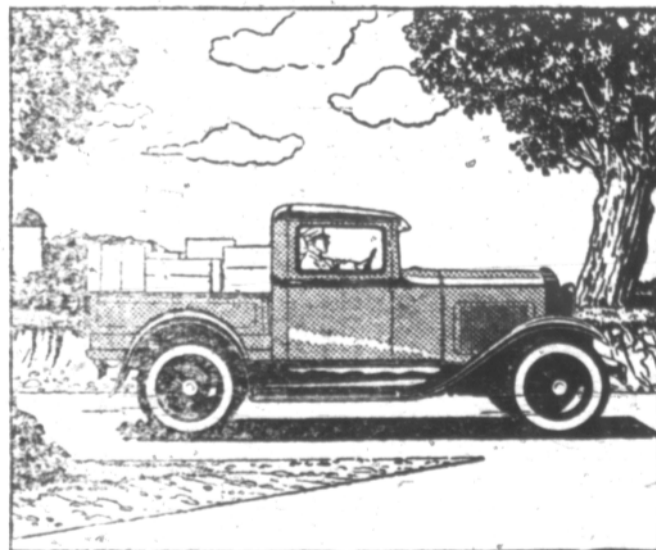

An example of the value built into the Ford is the use of more than twenty ball and roller bearings. They are hidden within the car and you may never see them. Yet they play an important part in satisfactory, economical performance. Their function is similar to the jewels of a fine watch.

Throughout the Ford chassis, a ball or roller bearing is used at every place where it is needed to reduce friction and wear and give smooth, reliable mechanical operation.

At many points, as on the transmission counter-shaft, clutch release, fan and pump shaft, and front drive shaft, these ball and roller bearings are used where less costly types of bearings might be considered adequate.

Additional instances of the high quality built into the Ford are the extensive use of steel forgings, fully enclosed four-wheel brakes, Rustless Steel, four Houdaille double-acting hydraulic shock absorbers, aluminum pistons, chrome silicon alloy valves, torque-tube drive, three-quarter floating rear axle, and the Triplex shatter-proof glass windshield.

The Ford policy has always been to use the best possible material for each part and then, through large production, give it to the public at low cost.
