It has been demonstrated repeatedly in every state in the Union and in many foreign countries that Chamberlain's Cough Remedy is a certain preventive and cure for croup. It has become the universal remedy for that disease. M. V. Fisher, of Liberty, W. Va., only repeats what he writes: "I have used Chamberlain's Cough Remedy in my family for several years and always with perfect success. We believe that it is not only the best cough remedy but a sure cure for croup. It has saved the lives of our children a number of times." This remedy is for sale by Marsh & Medler.

There are just three things that girls should not dare do in Paris, and those are to visit cafes that they don't know anything about, to wander too far from the main paths in the Bois de Boulogne and the other great parks, or go out alone after dark. Some American girls do all these things, and they are the ones who have wild tales to tell.—January Ladies' Home Journal.

We have had such warm weather lately that even the weather bureau are taking it up. The Spokane bureau says: "While this month of December is among the warmest, there were others warmer; but November, 1899, was much warmer than ever before experienced, and in taking the two months together we are having the warmest winter since the establishment of our weather station."

To those who show a disposition to be frightened at prospective sickness from the smallpox we would say, don't leave the place where you are living to escape from it. The same disease is now prevalent all over the Northwest coast, and even on the other side of the Rockies, so no matter where you go you are apt to run into it just the same as at home. But, however, hazardous as the disease may have found its way all over the country, carrying fright and anxiety along with its offensive odor, we have yet to hear of more than one death from it. The cause of the unusual mildness in these cases is the remarkable warmth of the winter. It is possible that when the winter sets in earnest the symptoms will appear with great severity.

W. L. Gosser's team was litleted by the slaughter house yesterday afternoon when they became frightened at something and jerked loose from their fastenings. They ran up town, where several tried in vain to stop them then, turned the corner at the depot and ran to L. Clark's residence, where they broke through a barb-wire fence and turned into the fields. They were caught while making a circle of the town. The harness was badly used up.

Judge Biggle not only knows a great deal about horses, but what is more important he knows how to impart his information in a way that will be understood. One does not have to wade through a great mass of undigested, unimportant matter. The Biggle Books are models of clearness and conciseness. They are advertised in another column. There is an order organized by the younger citizen of Stevenson, Wash., says the Pioneer, called the Royal Roustlers. It costs \$4 to join, and \$1 a day thereafter for dues. We believe the money is home manufactured, however, being made of cardboard. It has a sick and accident benefit, each member receiving \$1 per day for headache, toothache, etc. Although the dues and assessments are rather high, by being sick a few days a large percentage of this sum will be refunded.

Mr. Biggs is plowing up his town lots preparatory to setting out shade trees to beautify the city. This is a worthy example that should be followed by others.

Clarley Jones has purchased the stock of millinery goods owned by Mrs. Murchie, and has branched out in the millinery business for himself. The new showcases filled with ladies' headgear present a very attractive appearance in his crowded store. No doubt his spring trade will be augmented considerably by his latest acquisition.

The good prospect before us for a splendid crop this year has a tendency to loosen purse-strings to a certain extent. The prevailing look of blue met with a short time since, when the bank first closed its doors, is seldom seen now, a more hopeful one being generally substituted. The smallpox scare has nearly subsided, everybody has been vaccinated and feels safe from the scourge, the one case in town being isolated. There is some satisfaction in the reflection that we have something to look forward to.

Wedding Bells.

A quiet wedding took place at the residence of the bride's parents, Mr. and Mrs. Emsey Sissel, in this city last Sunday afternoon at 3 o'clock, the principals being Miss Floye Sissel and Mr. Giles L. Coleman. Judge Marsh tied the knot.

The bride is a Sherman county girl and no one stands higher in the community where she has lived since her early childhood than does she. The groom is the foreman of the North Pacific Flour Mills in this city, and one of its most trusted employes, he having been with the company for the last nine years.

They were the recipients of numerous presents, of which and the donors the following is a list:

Couch, E. S. Duffum; handsome set of dishes, J. Kauffman; J. F. Watson, M. J. Short; lamp, A. B. Potter, clock, J. F. Potter; bedspread, Mrs. P. A. Sissel; towels, Florence and Mary Barnett; table linen, Mr. and Mrs. Porter; foot mat, Emsey Sissel; lamp, Alma and Shirley Barnett; set silver table cutlery, O. A. Hazen; set silver table spoons, Yinnie Brown set teaspoons, Catharine Andrews; silver sugar shell, butter knife and teaspoons, Jesse Barnett; ice cream set, cup and saucer, Chas. Sissel; salt and pepper shakers, Perry Sissel; chamber set, O. T. Co.; \$5 gold piece, Mrs. Perry Taylor.

Only the immediate relatives of the bride and the employees of the mill were present.

This young couple have the heartiest good wishes of everyone in the community as they start on life's real journey. We add our congratulations to the already large number tendered.

Made an Assignment.

Saturday last the Sherman County Bank made an assignment of all its assets to L. Clark, one of its principal creditors, to take effect as soon as Mr. Clark qualifies. This was the best way in effecting a settlement of the bank's affairs, as there were apparently insurmountable difficulties to be overcome in getting a receiver appointed, without going to the expense of taking the deponent bank through the United States district court at Portland. As the matter now stands, Mr. Clark will wind up the affairs of the institution under the supervision of Judge Bradshaw or his successor in office.

Department of Alaska.

The president has created a military department, consisting of the territory of Alaska, and assigned Colonel George H. Randall, Eighth United States Infantry, to its command. Randall is on duty with his regiment in Cuba, and will report en route to Alaska January 15.

It was stated at the war department that Colonel Randall would be given command as a brigadier-general of volunteers, in order that he may have sufficient rank for the new post. The action of the department in this manner is tantamount to the establishment of a complete military government in Alaska, especially as to the northern portion. The matter has been under consideration for a long time. There is no disposition to reflect in any way on the officials of the territorial government, but the civil machinery, which is said to be totally inadequate, could not be strengthened and enlarged without considerable legislation and the loss of much valuable time. In addition to the heavy immigration into the Cape Nome district from the world at large, the Klondike appears to be emptying its population upon those golden shores, and naturally there is danger of an outbreak of lawlessness and disorder among the adventurous spirits attracted to the mines.

The war department has not yet fixed upon the number of troops to be assigned to the new department. Colonel Randall has had experience in that quarter, and will be allowed to exercise his judgment in the matter. It is not believed that a large force will be necessary, as the miners in Alaska have usually been quick to recognize the authority of the United States government in the person of a soldier.
