The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Why Fruit Trees Fail.

Country Life in America points out that the dropping off of young fruit is not due to insect pests, as it is popularly supposed. More often it is because of the fact that many varieties of fruits are self-sterile and the blossoms require the contact of the pollen of other varieties before they will mature fruit. Not getting this pollen, many fruit trees do not bear at all or very much. The same trees treated by the methods of grafting and planting will often bear large fruit and plenty of it.

THE KING OF BLOOD PURIFIERS SSS

No remedy ever yet discovered has met with such popular favor as S. S. S. The people everywhere endorse it, and there are few homes where S. S. S. for the blood is not known and used. It is superior in many ways to the ordinary blood medicines. In the first place S. S. S. is a guaranteed purely vegetable compound, made exclusively of medicinal roots selected for their wonderful purifying and tonic properties that act upon the blood, purging it of impurities and restoring it to a healthy, natural condition. At the same time, under its tonic effects the general system improves, the sluggish organs are toned up, and renewed strength and vigor and better health is the result. No bad after-effects follow the use of S. S. S., as so often happens with blood medicines containing strong minerals, which derange the stomach and digestion and in other ways damage the system. For diseases of the blood, such as Chronic Sores, Rheumatism, Catarrh, Boils and Pimples, Eczema, Tetters, Blood Poisons, and other troubles due to impure or bad condition of the blood, no remedy acts so promptly and thoroughly as S. S. S. It reaches deep-seated, long-standing cases, upon which the ordinary potash and sarsaparilla compounds have no effect. Even where there is an hereditary predisposition to disease, S. S. S. will search out and remove from the blood the fixed poison and build up the health; it enriches and purifies weak, thin blood and stimulates the circulation. Pure blood is essential to health. You can exist without good blood, but can never be robust and strong; for every organ, tissue and nerve in the body looks to the blood for nourishment, and unless this vital fluid is kept in a pure, healthy state, the rest of the body suffers and the system soon breaks down. Nature has provided in S. S. S. a remedy for diseases of the blood which long experience and a thorough test have proven superior to all others, and the acknowledged "King of Blood Purifiers."

Monticello, Ark., May 21, 1903.

Gentlemen—For about twelve years I have been using your S. S. S. as a household remedy. I have taken it as a tonic and appetizer, and believe there is none better. I have used it for my children at various times for little skin eruptions, boils and poisons caused by playing with weeds. S. S. S. is my standard, never mind what is the matter. If I use a bottle of S. S. S. it tones up the system, cleanses the blood and makes me well again. As an all-round family medicine I consider S. S. S. the best remedy of the kind that have I ever used, and generally keep it on hand as a family remedy.

Revenge of a Walter.

Tips regarding prospective smugglers come to the customs officials in strange ways and from peculiar sources, says the New York Tribune. One of the queerest was a cable dispatch from Bermuda, received a few weeks ago. It read: "Customs, New York: Watch Green—bicycle trunk—from Bermuda." There was no signature, and the officials, utterly puzzled as to the source of the message, awaited the arrival of the next Bermuda boat with interest. Sure enough, there was a passenger named Green, and among his luggage was a bicycle trunk.

He made the usual declaration that he was bringing in nothing dutiable.

"What is in this?" asked an inspector, tapping the bicycle trunk.

"My bicycle, of course."

"Suppose you open it," said the inspector.

Mr. Green was sorry, but he had lost the key. Then they broke it open and found it packed with expensive cigars, which were promptly confiscated.

The mystery of the cabled tip was cleared up by a passenger who had stopped in Hamilton at the same hotel with Green. It seemed that Green never tipped hotel servants. One of them discovered that he was packing the bicycle case with cigars and told his fellows. They chipped in enough to pay for the cable dispatch and in giving the tip had revenge for tips not given.

The Preacher's Evidence.

Roland, Ill., June 27.—Diabetes has so long been looked upon as an incurable form of Kidney Disease that a sure cure for it must rank as one of the most valuable medical discoveries of the age. And every day brings forth fresh evidence that Dodd's Kidney Pills will cure Diabetes. Important evidence in their favor is given by Rev. Thos. B. Norman, the well known Baptist minister here. Mr. Norman says: "I had all the symptoms of a bad case of Diabetes and received so much benefit from the use of Dodd's Kidney Pills that I cheerfully recommend them to anyone suffering from that dread disease. Dodd's Kidney Pills will cure the worst form of Diabetes."

Dodd's Kidney Pills always cure Diabetes, one of the final stages of Kidney Disease. All the earlier stages from Backache to Rheumatism are naturally much more easily cured by the same remedy.

SECRET OF BEAUTY.

How Some Clever Women Defy the Ravages of Time.

"It's a mystery to me how actresses manage always to look so fresh and wholesome, even girlish, when their manner of living is so directly opposed to all laws of hygiene one ever heard of. We who follow out the tenets of the 'early to bed and early to rise' theory don't look half so well." "Yes," was the response, "I'm sure that if I worked till 12 every night and studied and practiced and posed all day, to say nothing of drinking all manner of things and reading all the criticisms of my work, I should be a fright and a physical wreck."

A Tribune writer chancing to hear this conversation determined to investigate the subject and discover, if possible, the mysterious talisman which enabled a hard-working actress to preserve her charms, while the domestic woman, the happy wife and mother, the woman of leisure and ample accomplishments, appears fully her age or years older.

"I'll tell you the things I do, the philosophy on which I model myself, if I can be incognito," said one well-preserved heroine of the mimic world; and this agreement being entered into, she proceeded to discourse on the subject. "In the first place, you must understand, anybody who wants to be good-looking must never worry. Worry means ruination, death and destruction to every vestige of beauty one may have. It means loss of flesh, sallowness, tell-tale lines in the face, and no end of disasters. Never mind what happens, an actress must not worry. Once she understands this she has passed a milestone on the high road to keeping her looks."

After hearing the subject thoroughly canvassed the following inference was deduced: That, apart from the laws regulating the expression and nutrition of the face, the actress' secret consisted chiefly in the avoidance of monotony and petty worries, those arch enemies of feminine good looks and good temper; the performance of her work with earnestness and lightness of heart and the regularity of a certain degree of exercise—exercise involving quick and general movements of the muscles, combined with a certain amount of mental excitement.—New York Tribune.

against his own clan of the Samurais, and many stories are told in Japan of his achievements in hand to hand combats. Ten years later he helped to suppress the insurrection. In the China-Japanese war he commanded the division which captured the dozens of forts defending Wei-Hai-Wei. In the Boxer war of 1900 he commanded a part of the Japanese force that so distinguished itself in the relief of the legations at Peking.

Elephant as a Nurse.

A woman in India tells this story of an elephant's skill as a nurse: "Thou art hungry, big mother," said Remmi, emerging from the hut with the baby in her arms. "Ishta, beautiful elephant, take care of baby; I am going to see to your dinner." She put the little restless brown bundle down on the ground between Ishta's two feet. Then she fetched the earthenware jar of unglazed red clay and filled it with live charcoal, setting it down to get heated through while she mixed flour and water into dough. With the skill of frequent practice she spread the rough mixture three or four inches thick all over the inside of the jar. While the dough was slowly baked by the heat from the embers inside, Ishta, patient and docile, as was her wont, cared for baby, gently restraining the little truant, who would have crawled away. Now and again, when the baby limbs moved, quicker and achieved a few paces of freedom, Ishta's trunk would carefully wind around the little body and lift it back to safety between the huge barriers of her feet, and the tip would gently pet and fondle away baby's fretfulness and impatience at control.—Hour Glass.

Suggestions by Dr. Hartman.—How to Combat the Nervous Depression Incident to Warm Weather.

Nervousness is very common among women. This condition is due to anaemic nerve centers. The nerve centers are the reservoir for nerve vitality. These centers become bloodless for the want of proper nutrition.

This condition is especially noticeable during the warm season. Every summer an army of invalids are produced as a direct result of weak nervous systems.

This could be easily overcome by the use of Peruna. Peruna strikes at the root of the trouble by correcting the digestion. Perfect digestion furnishes increased nutrition for the nerve centers. Perfectly digested food gives these reservoirs of life a vitality which creates strong, steady nerves, and in this manner fortifies and nourishes life.

Miss Blanche Grey, a prominent young society woman of Memphis, Tenn., in a recent letter from 174 Alabama street, writes: "To a society woman whose nervous force is often taxed to the utmost from lack of rest and irregular meals, I know of nothing which is of so much benefit as Peruna."

I took it a few months ago when I felt my strength giving way, and it soon made itself manifest in giving me new strength and health."—Miss Blanche Grey.

Pe-ru-na Contains no Narcotics.

One reason why Peruna has found permanent use in so many homes is that it contains no narcotic of any kind. Peruna is perfectly harmless. It can be used any length of time without acquiring a drug habit. Peruna does not produce temporary results. It is permanent in its effect.

It has no bad effect upon the system, and gradually eliminates catarrh by removing the cause of catarrh. There are a multitude of homes where Peruna has been used off and on for twenty years. Such a thing could not be possible if Peruna contained any drugs of a narcotic nature.

At this season of the year we are peculiarly liable to inflammations of the stomach and bowels. It is the part of wisdom to learn how to cut them short and in the easiest and quickest manner.

Peruna does this by its peculiar power over all forms of catarrhal troubles.
