The only man in the county that we know of who wears boots, has been seen occasionally on the streets this summer wearing articles over his boots. When asked why he wore articles at this season of the year he said that he had ordered a pair of boots from San Francisco last spring and they had not yet arrived, and he had to wear the articles in order to hold the old boots together. A few days ago the C. S. brought the long looked for boots, with the following explanation glued to the soles: "Your order was delayed until the rainy season was over, so that the men could work out of doors, as there was not room enough in the workshop to build boots of such large size." Later on the old gentleman was asked why he wore his trouser legs in his boots. "So that every body can see that the new boots have arrived," he said.
