Useful Teeth.

Many different reasons are assigned by people for their unwillingness to submit to the extraction of teeth. But it was no fear of pain which was uppermost in the mind of Miss Melitabile Lamson of Willowby when told by the dentist that she would be much benefited by the loss of two of her prominent teeth.

"You say they can't be filled," she said, in evident distress, "and you couldn't get any others in for me for more'n a fortnight?"

The dentist admitted reluctantly that it was so.

"Well, then, I suppose I'll have to get on as best I can." And Miss Melitabile seated herself in the torture chair. "But I don't see how I shall make out. Here I am, chambermaid to the Willowby inn during the summer, and it's chock full of folks, with lots of transients coming and going, and those are my pillowcase teeth!"
