One investment which would certainly pay well in Wasco is an office building. School Work

Friday, September 20, 1907, is the day set by the School Board for holding entrance examinations and removal of conditions. Those who are not sure of the grade in which they enter will be assigned the proper grade by the Principal. This is for those coming in from the outlying districts. Those who failed in some one of their studies last May, or failed to take any of the final examination, because of leaving school before time, will be given a chance to show that they are ready to enter the new grade, otherwise they will be expected to review their year's work.

New High School pupils coming in should make it a point to meet the Principal relative to grade, and if necessary, be examined, to show at what place they may enter to the best advantage. J. O. RUSSELL, Principal.
