Frank Freeman of Oregon City gave this office a brief call Saturday. No doubt that many of our readers will readily recall the sad misfortune that befell the Freeman family last spring. Father and three sons went over the Willamette Falls, the father and two sons, along with a neighbor, forfeiting their lives. The son that was rescued is the only person out of a number who have gone over the falls at various times who lived to tell the tale.

An unusual incident transpired Sunday afternoon in full view of our office window, which no doubt had the gentleman to remark, at least to himself, as the old Quaker was wont to say: "Beckle, the whole world's queer—but thee and me, and ruz is a little peculiar."

L. A. Thompson has opened a photograph gallery over the Republic office and is now prepared to do first-class work in all the branches of his profession. Mr. Thompson has been a student of photography for about 16 years and invites the citizens of Sherman county and visitors from abroad to call at the gallery and inspect his work. He has been for some time a member of the firm of Shurtz & Thompson, but this partnership has been dissolved and the former will go on an extended viewing trip, while the latter will remain in Wasco.

C. G. Morey of Douglass was in town Monday. Since last here Mr. Morey has been in Gilliam and Wasco counties and reports harvest as getting under headway in those counties. He sold our new district No. 32, near Grass Valley, a full set of patent seats, hyloplate blackboard, chart, and globe. Right here let us add that The Dalles school board recently purchased 300 square yards of hyloplate of the North West School Supply Co., a house represented in Sherman, Gilliam, and Morrow counties by Prof. C. G. Morey.

Barnett's large brick building was completed Monday, so far as the masonry is concerned, and a large force of carpenters headed by George Pierce of Goldendale, is hurrying along the wood-work, while a Portland tinner has the roof in charge. When finished, which will not require over three weeks, the building will be the finest, safest, and best in the county. Every brick was laid with care by A. England and H. We trust that every citizen in Sherman county may sign the petition being circulated by the ladies of Sherman county to have President McKinley banish the army "canteen." Let Sherman county be the banner county of Oregon. Come, now, don't be mean about it, boys. Sign the petition for the women. You know they are right.

While driving down the hill just south of Wasco, on their return from Moro, the Somers family concert company met with a very unpleasant accident. It seems that the strap on the neck-yoke became loose and allowed the tongue to drop to the ground, which tipped the wagon in such a shape that all the occupants were thrown out, and the ladies considerably bruised.

A young lady resident of Wasco thoughtlessly left a nicely trimmed new hat over night in a dwelling from which the family had just moved, and on returning to get the hat next day, she found it despoiled of all its trimmings. The hobo or wench who would deliberately do such a mean little trick is none too good to "steal the coppers of a dead nigger's eyes."
