

ALONG THE COAST.

Items of General Interest Gleaned From the Writing Pacific States.

Excursion to Alaska.

The New England delegates to the National Editorial Association will be joined in Portland by the New England delegates to the National Educational Association, and together a trip is contemplated to Skagway and Alaska coast points.

Weak Wool Market.

E. Y. Judd, of the Pendleton Wool Scouring & Packing Company, writes from the East that the recent organization of the worsted mill trust has demoralized the wool market and is largely responsible for the decline in the price of wool, as buyers are at sea as to the future action of the trust and are unable to determine what their outlook for wool this year is.

The Fish Combine.

The control of the fish-taking appliances of lower Puget sound by the Pacific American Fish Company is an assured fact. The last dollar of the \$100,000 of stock which the vendees asked the trustees to subscribe has been taken. The capital stock of the company is \$5,000,000.

Good Market for Cattle.

Cattle-buyers are busy interviewing the cattlemen of Malheur and Harney counties, and the outlook for stock shipments from that point this season is better than last. Superintendent Gilchrist, of the Pacific Livestock Company, states that all the shipping of that large cattle company would be done at Ontario as heretofore, and that they would, in all probability, ship more stock this season than last.

Judge Ross, in the district court at Los Angeles has handed down a decision in the case entitled the United States against the Southern Pacific Company, which involved title to 1,160,000 acres of land in Southern California.

The sheriff's office in New York city received an attachment for \$10,000 against the Joseph L. Loring & Co. company, in favor of Morton C. Nichols, for money advanced for stock in the company. The company has a capital stock of \$5,000,000, and was founded to take over the properties of Joseph Loring, known as the "founder of Dawson City."

New Fish Commissioner for Oregon.

F. C. Reed, of Astoria, has been appointed fish commissioner by Governor Geer, to fill the vacancy caused by the resignation of Hollister D. McGuire, of Portland. He will receive a salary of \$3,500 a year and traveling and other necessary expenses. He will be required to furnish a bond of \$25,000.

Sheep Not Doing Well.

J. H. Jackson, who has returned from the Antelope country, says sheep in that section are not doing well. The young lambs are dying pretty rapidly, owing to the fact that the ewes are poor and are not giving sufficient milk to keep the lambs alive.

Tannery and Glove Factory.

One of the most important young manufacturing industries is that of the glove leather tannery and factory of Anderson & Meyers, near Talent, Or. Improved machinery for making gloves of every kind has been installed, and the factory is now turning out excellent goods.

Bond Sale.

The county commissioners of Jefferson county, Mont., recently sold \$75,000 worth of county refunding bonds to N. W. Harris & Co., of Chicago. The bonds bear interest at the rate of 4 1/2 per cent, and are subject to recall after 10 or 20 years.

Sixty-Fourth Anniversary.

At the First M. E. church of Salem last week was celebrated the 64th anniversary of the beginning of the work of that church in Oregon.

Some Large Timber.

A Skagit fir scaled 32,444 feet—43 feet long and nine in diameter. Another scaled 16,000 feet and weighed 88,000 pounds.

A Second Dividend.

A second dividend of 20 per cent is now ready for payment on claims against the Bellingham Bay National Bank.

Reached Goldendale.

The preliminary surveying party of the Lyle & Goldendale railway has arrived at Goldendale from Centerville.

A Tin-Plate Factory.

A tin-plate manufacturer from California was on Bellingham bay recently for the purpose of arranging to establish a large tin plate factory at Fairhaven. His plans are for an extensive plant sufficient to furnish all the tin required on the Northwest coast.

Corbin Beet-Sugar Factory.

The Corbin Beet-Sugar Factory Company, of Spokane, has received sufficient seed to plant 5,000 acres in sugar beets. The seed is of the best quality, and was imported from Germany and France.

Experiments in Buttermaking.

In experiments carried on at the Oregon experiment station, butter was produced from common grade cows at a cost of from 9 to 17 cents. An exact account was kept of feed and labor, and interest on the investment was calculated.

New Patent Device.

A patent has been issued from Washington to County Auditor Waldrip, of Astoria, Wash., for a desk copy-holder, which will be manufactured and sold to the trade by a Portland firm, who are now negotiating with the patentee.

Wool at The Dailies.

There is at present 1,000,000 pounds of wool stored in the warehouses at The Dailies, and in a short time the new crop, which will probably amount to 7,500,000 pounds, will begin arriving.

KEPT ON THE MOVE.

General Lawton Makes It Warm for the Southern Rebels. Manila, April 17.—General Lawton is marching north along the road between the hills and the lake, with the gunboats Napian and Laguna de Bay abreast of his troops. The enemy is retreating northward.

Wednesday the troops crossed the Pagsongan and concentrated at Lambun, at the mouth of the river. After leaving two companies of the Fourth regiment to guard the entrance of the river, the troops marched to Longas and found it deserted. Furniture which had been dropped, the flight of the natives scattered along the trails leading into the hills.

Major Weisenberger's sharpshooters were sent toward Pactus Anconeta in the afternoon. They ran upon a nest of rebels in some thick bushes, which afforded a splendid cover. Three men of the North Dakota regiment were killed and four were wounded, two of the latter dying after being brought to Longas church, where Father McKinnon administered the sacrament to them.

The main body of American troops, while at dinner in Longas, heard the firing and advanced to the support of the sharpshooters. A scout from the hills saw the little fight and many whitecoats running into the hills. The latter firing after having been brought to Longas church, where Father McKinnon administered the sacrament to them.

San Antonio Captured.

The American troops at San Antonio at sunset without meeting with any resistance. Twenty unnamed prisoners bearing copies of the proclamation of the United States commission, which they had somehow secured, were afterward released and sent outside our lines with bundles of proclamations to distribute.

The country just occupied is thickly populated, and produces much fruit. McKenna of the signal corps, who is enlisted at Portland, Or., is indefatigable. He ran a wire through the hostile country without having a guard with him.

Entrenched Rebels Routed.

Manila, April 17.—Starting in an easterly direction along the road to Pagsangan, a party of 70 sharpshooters, under Lieutenant Southern, of the Washington regiment, came upon a trench across the road about a mile east of Santa Cruz. Lieutenant Southern was wounded.

The Americans then advanced with mounted guns, and the Fourteenth infantry battalions in the center, Lincoln's battalion of the First Idaho infantry on the right, and Praine's battalion of the First North Dakota infantry on the left, both flanking. The trench was carried without difficulty by the Americans. Pagsangan was found deserted. Four monuments on the border of the village celebrate the proclamation of Filipino independence, issued last year, and glorify "Aguinaldo, the Liberator."

The troops on entering the abandoned houses found them in perfect order. A few guerrilla shots were exchanged and one member of the Fourth regiment was accidentally shot in the leg by his comrade.

DEFINITE AGREEMENT REACHED

Samoan Commissioners of Three Powers. Washington, April 17.—After hearing this morning from the German and British embassies, the state department was enabled to announce positively and finally that the three parties to the Berlin treaty had agreed upon the instructions to be given their Samoan commissioners, and that it was certain the commission would leave San Francisco April 25.

The instructions to the commissioners are identical, the three governments having accepted a form which compromises the differences which have existed up to this time. The commission will be empowered to deal with the situation as it finds it in the Samoan islands upon its arrival. This applies to the acts necessary to place the affairs of the islands in a peaceful and satisfactory condition for the time being and subject to the approval of the three powers.

DASHED DOWN A CANYON.

Rotary Snow Flow Wrecked by an Avalanche. Seattle, April 17.—A Post-Intelligencer special from Wellington says that while a rotary plow was clearing the Great Northern track this side of Madison it was struck by an avalanche and dashed 1,000 feet down a canyon. There were seven men on the engine in addition to the regular crew. All have been dug out of the snow, but one. Four men were injured, three probably fatally. The injured are Pilot Jerry Moriarity, head cut, internally hurt; George Hart, both legs and arms broken, injured internally; Thomas Sullivan, internally injured; Fireman Thomas Grant, head and hand cut.

About 170 men are searching for the missing man. The injured have been taken to Everett. It is expected to have the track cleared in 12 hours.

Revolution in Brazil.

Lima, Peru, April 17.—A revolution has broken out in the province of Matto Grosso, Brazil. It is led by Jose Marinho, who was deposed or governor by Antonio Luiz.

New Minister to Belgium.

Washington, April 17.—President McKinley is said to have decided to send Lawrence Townsend, United States minister to Portugal, to the Belgian mission, to succeed Bellamy Storer, who goes to Madrid.

A Committee has been appointed by the Seattle chamber of commerce to urge that the \$169,000 appropriated for the building of a government drydock at Port Orchard be put to use, and the work started at once.

Half a Billion Capital.

Boston, April 17.—The consolidation of all the copper interests is to be effected sure the coming week, now that the supreme court of Montana has set aside the appointment of a receiver for the Boston & Montana Company. This was the last obstacle in the way of the formation of the trust, and the Rockefeller interests will push the details rapidly. The Boston & Montana is to be reincorporated under New Jersey laws, and the same done with the Michigan companies. It is not known what the name of the trust will be, but its capital will be \$500,000,000.

"Out of Sight Out of Mind."

In other months we forget the harsh winds of Spring. But they have their use, as some say, to blow out the bad air accumulated after winter storms and Spring thaws. There is far more important accumulation of badness in the veins and arteries of humanity, which needs Hood's Sarsaparilla.

This great Spring Medicine clarifies the blood as nothing else can. It cures rheumatism, kidney disease, liver troubles, rheumatism and kindred ailments. Thus it gives perfect health, strength and appetite for months to come.

Kidneys—"My kidneys troubled me, and on advice took Hood's Sarsaparilla which gave prompt relief, better appetite. My sleep is refreshing. It cured my wife also."—MICHAEL BOYLE, 3473 Denny street, Pittsburg, Pa.

Dyspepsia—"Complicated with liver and kidney trouble, I suffered for years with dyspepsia, with severe pains. Hood's Sarsaparilla made me strong and hearty."—J. H. EMERTON, Main street, Auburn, Me.

Hip Disease—"Five years ago I was confined to my bed by a cruel disease. Hood's Sarsaparilla saved my life, as it cured me. My sleep is refreshing. It cured my wife also."—MICHAEL BOYLE, 3473 Denny street, Pittsburg, Pa.

Anthony Hope's New Romance. The Ladies' Home Journal has secured the American rights of Anthony Hope's new romance "The Countess Emilia" and will begin its publication in the May issue. It is the best romantic story that the famous novelist has written since "The Prisoner of Zenda." "The Countess Emilia" is not unlike its predecessor in style and treatment and in its action. Its motif is that of the marriage relation. It will be illustrated by Alice Barber Stephens and will run in the Journal throughout the summer.

Famous Artists in Their Studios. The April Ladies' Home Journal introduces its readers to its favorite illustrators, who are shown, in a page of photographic reproductions, at work in their studios. The little group of artists includes those whose work is most popular with the Journal's readers, who will be pleased to be brought face to face with their favorites.

The Duke was beside himself with rage. "Your family have only plebian blood in their veins!" hissed his grace. THE DUTY OF MOTHERS.

Daughters Should be Carefully Guided in Early Womanhood. What suffering frequently results from a mother's ignorance; or more frequently from a mother's neglect to properly instruct her daughter! Tradition says "woman must suffer," and young women are so taught. There is a little truth and a great deal of exaggeration in this. If a young woman suffers severely she needs treatment and her mother should see that she gets it.

Many mothers hesitate to take their daughters to a physician for examination; but no mother need hesitate to write freely about her daughter or herself to Mrs. Pinkham and secure the most efficient advice without charge. Mrs. Pinkham's address is Lynn, Mass.

The following letter from Miss MARRIE F. JOHNSON, Centralia, Pa., shows what neglect will do, and tells how Mrs. Pinkham helped her: "My health became so poor that I had to leave school. I was tired all the time, and had dreadful pains in my very weak, and am now as well as I ever was. I have gained flesh and have a good color. I am completely cured of irregularity."
