## PLATFORM OF R. C. HENSLEY.

Socialist Candidate for State Senator for Jackson County

FIRST—Believing in the principles of International Socialism, I hold that labor produces all the wealth of the world and is therefore entitled to all the wealth of the world.

SECOND—That our present system of government, wherein our representatives have the power during their term of office to enact such laws as they see fit, results in class legislation, thereby favoring the classes instead of the masses and creating a favored class who are rapidly absorbing the wealth of the nation; and realizing that so long as we continue to live under private ownership system that this state of affairs will always exist, therefore, if elected, I pledge myself to work for the overthrow of this present private ownership system and inaugurate in its stead the co-operative commonwealth wherein the natural resources shall be the common inheritance of all the people, and wherein every worker shall have an equal voice in the administration of the affairs of the government.

THIRD—In regard to electing United State Senator by a direct vote of the people, I will say that as Socialists we have no interest in the matter, as we do not believe in a delegated system of government, and hold that so long as you give the law-making power into the hands of any set of men, that it does not matter by or through what means they get this power, the fact remaining that during their term of office they are masters of the situation, and so long as they have this law-making power in their hands they will sell it to the highest bidder.

R. C. HENSLEY.
