

May Have Relatives Here.

Will Owen received a letter the other day from J. E. Potter, of Hornbrook, California, in which was given the known facts of the death at that place recently of a man whose name is supposed to have been Thomas McDonough, who may have been a relative of the McDonough family residing here. The letter says: "I have just served as a juror at a coroner's inquest held over the body of a man who was killed by the train at this place. The verdict was, 'Death by accident.' On his body we found one piece of paper, on which was the following: 'Thomas McDonough, St. Paul, Minn.' he had brown hair, inclined to be curly, rather stout built. The body was fearfully mangled. The body was found at 7:00 o'clock December 31st. There may have been foul play, as the body was found in the middle of the track some distance from town. I remember a son of Jas. McDonough and I think his name was Thomas. The man killed here was from 35 to 40 years old as near as I can judge."

ALL THE WORLD

is a stage, and Ballard's Snow Liniment plays a most prominent part. It has no superior for Rheumatism, stiff joints, cuts, sprains, and all pains. Buy it, try it and you will always use it. Anybody who has used Ballard's Snow Liniment is a living proof of what it does. Buy a trial bottle. 25c, 50c and \$1.00. Sold by Central Point Pharmacy.

Ended His Life.

Joe Bush, a cowboy employed at the Bloomingcamp ranch, at Bly, Klamath County, committed suicide on the morning of December 27th by drinking carbolic acid.

A few days before Christmas Bush had a misunderstanding with his wife and the couple separated. Christmas evening they met at a dance, where Bush was drinking heavily. He seemed insanely jealous of his wife and made considerable trouble during the evening. Two days later he went to Griffith's place, where his wife was staying, and after writing several letters he drank the acid and died 20 minutes later. An inquest was held, the verdict being in accordance with the facts as above stated. The funeral was held at Bly on the 28th. Mrs. Bush has returned to her parents' home at Paisley.

The HERALD is indebted to Mr. F. M. Cornutt, formerly of this place, now of Bly, for information regarding the tragedy.

A Positive Necessity

Having to lay upon my bed for 14 days from a severely bruised leg, I only found relief when I used a bottle of Ballard's Snow Liniment. I can cheerfully recommend it as the best medicine for bruises ever sent to the afflicted. It has now become a positive necessity upon myself.

Will Locate Here.

E. Pettit and William Alexander, recently of Dungeness, Washington, are here for the purpose of locating in this valley. The gentlemen are friends of M. Marshall, the well-known dairyman, and will engage in that line of business here. They are more than pleased with the country, and are just the kind of people we need more of. Mr. Pettit will spend a few months in California this winter, but will return here in the Spring.

certainly smashed a hole in the bar-rooms of Kansas, but Ballard's Horehound Syrup has smashed all records as a cure for coughs, Bronchitis, Influenza and all Pulmonary diseases. T. C. H., Horton, Kansas, writes: "I have never found a medicine that would cure a cough so quickly as Ballard's Horehound Syrup. I have used it for years." Sold by Central Point Pharmacy.

Will Operate at Willow Springs.

Dr. Barden, of Gold Hill, and A. A. Brann, of Spokane, who with other associates have acquired a large amount of placer ground in the Willow Springs district, were in town Monday and Tuesday on business connected with the extensive mining operations which they expect to inaugurate on their property during the coming season. The company owns 140 acres of good ground in the district and also control water enough to successfully work the ground by the hydraulic process. If they are not disappointed in securing a consignment of pipe which they have ordered they will operate the mine on a much larger scale this season than has been formerly attempted. The operations of this company will be of considerable commercial value to Central Point for the reason that practically all the supplies used will be purchased here. Mr. Brann, who is a practical placer miner, will have charge of the operations of the company in the capacity of superintendent.

Our Flour Will Lead.

"Only the latest and most improved machinery for the manufacture of flour will have a place in the Central Point Flouring Mills when the next milling season opens. We are obliged to meet competition from all the hard wheat sections of the Northwest, and only by the installation of the very best machinery can we do it."

Such was the declaration of W. J. Virgin, present sole proprietor of the Central Point Roller Mills, while in town Monday morning. Mr. Virgin was here to put men to work at further improvements on the milling property, which was started last Summer, but owing to the stormy weather he decided to defer the matter for a few days.

Mr. Virgin returned from Portland a few days ago, where he spent a month investigating the latest improvements in milling machinery and he is fixed in the opinion that only the very latest and the very best is good enough for Central Point.

Mr. Virgin has been engaged in the milling business at Ashland for several years, but several months ago he sold his mill and water right to the city for the use of the city water works. Since then he has acquired complete ownership of the Central Point mills and it is now his intention to center his business at this point.
