### All About Arizona.

(Editor Central Point Herald:—)

Glendale, Arizona, July 24, 1907.  
I am an Arizona girl. Have lived here ten years, one mile and a half from Phoenix and two miles and a half from Glendale. In this part of the valley the climate is dry. It is very warm in the summer. The 3rd day of this month it was 122 in the shade. It is so warm that the people here break out with heat and look like people broken out with measles. The sun is so hot that it kills the leaves upon the vines, it also cooks eggs done that are laid on the haystacks, and the water drawn from the wells is warm enough to wash dishes in. The winters are perfectly lovely. It does not snow in the valley, but one can see snow on the mountains. It will sometimes freeze the faucets so that we have to pour hot water on them before we can get the water started. Fires have to be built in the orange groves so the trees will not freeze, for orange trees are easily frozen.

The surface here is mountainous. It consists of large plateaus. There is considerable desert here, which has nothing but weeds growing on it. The native tree, or bush, which is greasewood, grows to about six feet high. Of course there are other trees here—palm, olive, umbrella, ash, cottonwood, fir, date, etc.

The population of Phoenix is 16,000. Phoenix has eight public schools, one high school, two business colleges, two ice plants, three flouring mills, three lumber yards, four large hotels, electric street railways, parks and gardens. The insane asylum is located two miles from Phoenix. The normal school is at

Tempe and the penitentiary is at Yuma. The land here is watered from canals. They dig ditches and have canvas tapoons to put in. They have to irrigate whenever the water comes—day or night. Within ten years' time 545 miles of ditches have been dug.

There is no forest at all in the valley nor no trees except what is planted, but in the cooler climate there is the largest pine forest in America.

The scenery here is magnificent. The Grand Canyon is 200 miles long, 4 1/2 to 12 miles from rim to rim and 5000 feet deep. The petrified forest covers two square miles. The Montezuma well is a very interesting sight. It is 200 yards in diameter. The natural bridge is 600 feet long, 500 feet wide and 200 feet deep. Cliff dwellings are found throughout Arizona.

Mining is the chief industry of this place. Gold, silver, copper, lead, iron and limestone are the metals found. Stockraising is a great industry here. There are 250 different grasses grow on the range.

The manufactures of this place are: Smelting of copper, lumber mills and boxing fruits. Ore, hay, grain, cattle, hogs, fruit and honey are the largest commerce. There is more alfalfa hay raised here than grain. When water is plentiful four or five crops of alfalfa is put up in a season off the same ground. Hay sells here all the way from \$7 to \$14 per ton and if it is straight hay, no weeds, it will go as high as \$18 per ton. Hogs are selling at 9 cents a pound at the present time.

There is a sugar factory one mile east from Glendale. The inhabitants of Glendale are mostly Mexicans. They live in small frame houses and tents with brush shades all around them.

As history has told us, the white man took Arizona from the Indian. So, of

course, there are a number of Indians here yet, but they are not dangerous, all peaceable. It looks very odd to see the Indians come to Phoenix and sit down on the sidewalk and eat or rest. They sell their trinkets along the streets as odd as can be. They carry their trinkets in large flat baskets upon their heads and I should judge as high as 25 pounds are carried in each basket. The Indians dress very odd, too. The women wear Mother Hubbard dresses, with their hair hanging, bare-headed and bare-footed. The married women paint their faces, but the unmarried women do not paint. The mother carries her baby, or pappoose, in a basket upon her back. The men wear their hair long and have shoes, but no hat. We have a very large Indian school here. They learn everything that is to be learned. About two years ago one of the lady teachers married one of her Indian pupils.

Our schools are as good as any in the United States. The Glendale school took first prize at the World's Fair at St. Louis.

Last Friday (July 12) the neighbors had a rabbit drive. Jack rabbits are very destructive. There is five cents bounty on them. At the drive they got 2556 rabbits. It seems as though six rabbits have come to every one killed.

Tempe has a large trade for cantaloupes. They go as far as London. From one to eight car loads of watermelons are shipped every day during the season. Mr. Hicks, a farmer living 13 miles from us, brought a watermelon to Phoenix that weighed 50 pounds.

There are several large orange groves here, one of which is on the place where I live.

There are about five ostrich farms here, two of which have 100 birds each. The birds are very clumsy and the pictures do no flatter them in size or beauty. The small sized eggs average 1 1/4 inches in diameter. The feathers plucked from the birds, without dressing, are very valuable. A feather 20 inches long sells at \$1.50; a feather 22 inches long, natural crimp, sell for \$3. Now just step over and take a Turkish bath. Please don't think me a land agent, for I am not.

AN ARIZONA GIRL.

### Why Fret and Worry

when your child has a severe cold? You need not fear pneumonia or other pulmonary diseases. Keep supplied with Ballard's Horehound Syrup—a positive cure for Colds, Coughs, Whooping Cough and Bronchitis. Mrs. Hall, of Sioux Falls, S. D., writes: "I have used your wonderful Ballard's Horehound Syrup, on my children for five years. Its results have been wonderful." Sold by Central Point Pharmacy.

## PINEULES

30 DAYS' TREATMENT FOR \$1.00

Satisfaction guaranteed or money refunded.

FOR ALL KIDNEY BLADDER TROUBLE, RHEUMATISM AND LUMBAGO

A dose at bed time usually relieves the most severe case before morning.

## BACK-ACHE

PINEULE MEDICINE CO. CHICAGO, U. S. A.

Sold by Mary A. Mee.

A few doses of this remedy will invariably cure an ordinary attack of diarrhoea. It can always be depended upon, even in the more severe attacks of cramp colic and cholera morbus. It is equally successful for summer diarrhoea and cholera infantum in children, and is the means of saving the lives of many children each year. When reduced with water and sweetened it is pleasant to take. Every man of a family should keep this remedy in his home. Buy it now. PRICE, 25c. LARGE SIZE, 50c.

Sold by Mary A. Mee.

### The Ball Game.

The Jacksonville boys came over again Sunday and, as usual, trimmed the local team to a fare-you-well. Our boys played ball all right at the start, but they couldn't hold out and in the closing chapters of the tragedy it was something awful.

Wilcox, of Jacksonville, started in to act as umpire of Sunday's game, and it is probable some of Mr. Wilcox's decisions discouraged the Pointers, and when he jumped the job in the middle of the game and Nash was called in to finish the game it was too late for them to make good.

The trouble with Central Point is that they have no organization and no practice. They have no regular team and hardly ever is the lineup the same. They need a manager who knows how to coach the players and who will do it and who will see to it that they work out in practice games through the week.

If Central Point wants a ball team and if the players expect to continue playing they should get to work. The town should give the boys some support, both financially and morally, and the boys should work out, study the rules and play the game. If base ball is worth while it is worth playing well enough to win a game once in a while from some team other than Phoenix.

The lineup of Sunday's game follows:

JACKSONVILLE	CENTRAL POINT
McIntyre	Peart—Pankey
Wilson	Boswell
Dunford	1st Farra
Hoefs	2nd Sanderson
Stout	3rd Clark
Shultz	rf Shaft
Wendt	lf H. Peart
Davidson	cf Ross
F. Stout	ss Peart
Score—Jacksonville 11, Central Point 5.	

### HAD AN AWFUL TIME

But Chamberlain's Colic, Cholera and Diarrhoea Remedy Cured Him.

It is with pleasure that I give you this unsolicited testimonial. About a year ago when I had a severe case of measles I got caught out in a hard rain and the measles settled in my stomach and bowels. I had an awful time and had it not been for the use of Chamberlain's Colic, Cholera and Diarrhoea Remedy I could not have possibly lived but a few hours longer, but thanks to this remedy I am now strong and well. I have written the above through simple gratitude and I shall always speak a good word for this remedy.—SAM H. GWIN, Concord, Ga. For sale by Mary A. Mee.

### Post Office Hours.

GENERAL DELIVERY HOURS.  
Open 7:30 a. m. close 8:30 p. m.  
Sundays, open one hour after each train.

### Chamberlain's Colic, Cholera and Diarrhoea Remedy, Better Than Three Doctors.

"Three years ago we had three doctors with our little boy and everything that they could do seemed in vain. At last when all hope seemed to be gone we began using Chamberlain's Colic, Cholera and Diarrhoea Remedy and in a few hours he began to improve. Today he is as healthy a child as parents could wish for."—MRS. B. J. JOHNSTON, Linton, Miss. For sale by Mary A. Mee.

### Seriously Injured.

Walter Chapman, a well-known resident of Sams Valley, was very seriously injured last Saturday while at work at Glass' threshing machine. Mr. Chapman was pitching to the machine, when by accident he was struck in the left eye with the end of a fork handle in the hands of another workman. The blow was a heavy one and all but destroyed the eyeball, and at this writing his physician has not determined whether or not the sight will be affected. The injury was very painful and Mr. Chapman collapsed before he could be taken home. Dr. Campbell, of this place, was notified by phone and did everything possible to make the patient comfortable.

### Children in Pain

never cry as do children who are suffering from hunger. Such is the cause of all baby's who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Sold by Central Point Pharmacy.

### If You Love He

Don't be afraid to tell her so. She will not hurt you. Brace up, be a brick and

### "Pop the Question"

Don't make any mistake in the question; ask her sweetly and gently: "Dearest, will you join me in eating some of that delicious Ice Cream at Sam Moore's Confectionery?"

and She'll say "Yes."
