

Will Develop Coal.

H. J. Hoge, of Pasadena, California, was in Gold Hill the fore part of this week inspecting the coal lands in the Meadows. Mr. Hoge is known to be one of the best coal experts in the United States and is actively interested with some of the largest coal propositions in Ohio, Pennsylvania and Iowa. Mr. Hoge was favorably impressed with the outlook for coal in this valley, saying that the general formation of the coal beds here were the same as in the large coal producing area in the East. In company with R. E. Doan he visited the mines east of Medford and reports a good prospect in that vicinity. He left for Pasadena Sunday afternoon. Mr. Doan informs us that he is now ready to commence working the coal prospects as soon as a few minor details have been attended to. He is very confident of the outcome of his work and is anxious to get started again.—Gold Hill News.
