

Observation Cars.

On and after November 15, 1907, the observation cars between Portland and Oakland California, on trains Nos. 15 and 16 will be carried through instead of being cut out, as heretofore, at Roseburg.

Southbound, under this new arrangement, passengers holding proper transportation and Pullman accommodations may occupy these cars on the night leaving Portland until reaching Eugene at 12:32 a. m.

FRED PARKER, Agt. S. P. Co.,
31st
Central Point, Oregon.

Born in Iowa.

Our family were all born and raised in Iowa, and have used Chamberlain's Colic, Cholera and Diarrhoea Remedy (made at Des Moines) for years. We know how good it is from long experience in the use of it. In fact, when in El Paso, Texas, the writer's life was saved by the prompt use of this remedy. We are now engaged in the mercantile business at Narcoossee, Fla., and have introduced the remedy here. It has proved very successful and is constantly growing in favor.—ENNIS BROS. This remedy is for sale by Mary A. Mee.

Methodist Church Services.

Preaching services every Sunday at 11 a. m. and every other Sunday evening at 7:30.

Sunday School every Sunday morning at 10:00.

Epworth League at 6:45 every Sunday evening.

Junior Epworth League at 3 p. m. every Sunday.

Prayer meeting every Thursday evening at 7:30.

For a Sprained Ankle.

As usually treated, a sprained ankle will disable the injured person for a month or more, but by applying Chamberlain's Liniment and observing the directions with each bottle faithfully, a cure may be effected in many cases in less than one week's time. This liniment is a most remarkable preparation. Try it for a sprain or bruise, or when laid up with chronic or muscular rheumatism, and you are certain to be delighted with the prompt relief which it affords. For sale by Mary A. Mee.

Ten Dollars Reward

for information leading to the recovery of a team of work horses, described as follows:

One light-brown horse, carries head high, collar mark, shod, weight about 1300. One dark-bay, brand half moon on left shoulder, small star on forehead, barefooted, weight about 1100, in good condition.

J. A. LARSON,
Care Southern Oregon Supply Co.,

Grants Pass, Oregon.

No Need of Suffering from Rheumatism.

It is a mistake to allow anyone to suffer from rheumatism, as the pain can always be relieved, and in most cases a cure effected by applying Chamberlain's Liniment. The relief from pain which it affords is alone worth many times its cost. It makes sleep and rest possible. Even in cases of long standing this liniment should be used on account of the relief which it affords. Do not be discouraged until you have given it a trial. For sale by Mary A. Mee.

Summer Excursion Rates to Newport.

To afford an opportunity to the people of this locality to visit the coast during the Summer months, the Southern Pacific Company will sell round trip excursion tickets from Central Point to Newport and Yaquina Bay points for \$10.00 for the round trip daily from June 1st to October 15th. These tickets are good for return passage for six months from date of sale. Tickets good only for continuous passage each way, except in cases of serious illness of ticketholder or member of his family, when stop-overs or extension of limit may be arranged. For further information, address or call on FRED PARKER, WM. McMURRAY, Agent, G. P. & T. A., Central Point, Ore. Portland, Ore. 6th

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by Mary A. Mee.

New Clubbing Offer.

For a limited time we offer the Central Point Herald and the Thrice-a-Week World (New York) each one year for \$2.15. This means 208 papers at a cost of only a cent apiece.

Central Point is going to improve more during the present year than in any year in its past history. You will need the Herald to keep posted on what is doing at home.

A presidential election is coming on this year and you will need the Thrice-a-Week World to keep you posted on national affairs, especially regarding the political situation in New York. Better subscribe today.

Fighting Fog and Hall.

An Italian engineer has offered to secure immunity for London from the dense fogs which occasionally envelop her and paralyze her traffic, and as he asks for financial aid to demonstrate his theories the London county council has declined his offer. Writing of this fog problem, Consul General Wynne of London says:

In replying to the report which made light of the theory that fogs could be driven away by the discharge of cannon a civil and electric engineer informs the writer that the inventor of the fog disperser has never claimed to be able to displace the atmosphere in order to prevent the fog from forming or to drive it away when once formed. His theory is quite different and the work to do very simple. He states that in order to prevent the phenomenon from taking place it suffices to destroy the atmospheric equilibrium which exists at the moment when the fog forms and which lasts as long as the fog lasts. The inventor states that the tranquility of the atmosphere is the sole cause of fog. His purpose is to produce a movement in the air molecules. This movement is easily obtained by means of vibrations of the atmosphere. In order to produce molecular movement in 100 tons of metal it is not in the least necessary to displace the mass of metal—it is sufficient to strike it with a hammer to put the molecules of the entire mass in vibration.

The inventor quotes the case of hall in France, where a discharge at the right moment has often dispersed a gathering storm. According to a recently issued report of the District Viticulture society of Lyons, France, it appears that in the ten years preceding the use of protection against hail the losses to crops amounted to about \$2,600,000. In the six following years they amounted only to \$200,000, and it is here stated that "all the slight failures sustained were invariably due to the relaxation of discipline on the part of the farmers, who allowed themselves to be taken unawares."

Experts on the Navy.

At the outset of the investigation into the Reuterdahl charges as to the weakness of our warships the senate committee intimated that the charges were not taken seriously in Washington. The chairman of the committee apologized to the admirals who were called to testify and pronounced the charges "absurd." It transpired in the first hour of the inquiry that Artist Reuterdahl had merely given publicity to views and criticisms freely expressed among naval officers, which prove to be nothing more or less than differences of opinion.

The absurdity of charges made in the magazine article which attracted the attention of the whole country was exposed by Admiral Converse in the matter of the lower guns of the ships being rendered useless because the vessels lie too low in the water. He said that the ships sailed for the Pacific loaded for a long voyage and that when the superfluous weight came to be removed to place the ship in battle trim she would be raised thirty inches or more. As to the armor belt being "awash" or below water, as alleged, two admirals declared that there is not a ship in the navy that would have less than eleven inches of her armor belt above water, even when carrying her bunkers full of coal. It was further explained that in the construction of every new ship the plans are changed or modified according to the latest experience with ships already in commission. Sometimes speed is sacrificed to insure greater firing efficiency, and again firing efficiency is secondary where the two clash, so that we really have ships for every emergency.

It is just a hundred years since hard coal came into use. Other ways of spending money may be older, but not more effective.

Every man has a right always to live where he pleases, but not always to live as he pleases.
