"Tootsie," the little daughter of Mr. and Mrs. L. F. Reddichie, who was seriously burned nearly two weeks ago, is now recovering rapidly under the care of Drs. Anderson and Polnitz.

Are you going to build this summer? Let us figure on your lumber bill. We can prove to you that we will sell you high grade lumber, delivered on your ground for less money than any other dealer in the valley. Butte Falls Lumber Co. 31f

John Grieve was down from Prospect during the week. He has been engaged at county road work in that section lately and was authorized by the County Court Wednesday to continue the good work.

A report from Jacksonville states that the town well being sunk at that place for a town water supply has reached a depth of some 10 feet where a strong flow of water has been encountered. A centrifugal pump, throwing a six-inch stream, fails to keep the well clear of water.

Work is progressing in good shape at the city well a depth of some 20 feet having been reached yesterday. Water was struck at 17 feet and work had to be suspended Tuesday afternoon pending the installation of the motor and pump. A 10-horse motor has now been installed and it is expected the work will proceed without interruption. Alfred Gillette, who has the contract for sinking the well, has had considerable experience in such work here and he expects to encounter the second water gravel strata at a depth of about 40 feet.

An Astrologer's Letter.

An astrologer's letter to President Van Buren forecasting the results of his election in 1840 is in the library of congress and perhaps gives a crude idea of some of the fallacies of our grandfathers. The following are some extracts: "In this horoscope the ascendant directed to the semisquare of Mars would be in operation about the middle of the fourth year, October, 1785, and might cause sickness, * * * flux or hurt by wounds," etc. * * * "I have opened the horoscope for General Harrison, which accords with the chief events of his past life and which if right he will not fill the office of president during the next term even if elected. And the danger I apprehend to yourself is not from your public opponents, but from those on whom you repose confidence." Those who are superstitious may be inclined to credit this star gazer with some measure of wisdom, for Harrison, although elected, died a month after his inauguration—New York Post.

Home Loving Montenegrins.

Nowhere is love of country more intense than among the Montenegrins, to whom exile is the greatest of punishments. When W. J. Sullivan was there in the seventies all the free men were away fighting, and he observed that when a messenger was wanted the official took a man out of the prison and sent him off, with no fear that he would not return. One such messenger was sent to Cattaro, in Austrian territory, with a large sum of money for the bank, and he duly came back. Another asked a Russian at Cattaro to intercede with Prince Nicholas for his release from prison. "But you are not in prison," said the Russian. "Oh," said the man, "I have only come down for a load of skins for So-and-so, but I must go into prison again when I get back to Cetinje." One prison guard watched all the prisoners when they sunned themselves out of doors, and if he was called away a prisoner would take his rifle and act as sentry for the time.

Abroad.

Abroad is a locality entirely surrounded by senselessness. In another view it is a bourne more or less mysterious, bounded on its farther side by your income and on its hither side by custom houses where you have to declare everything you bring back with you except a foreign accent and one change of hosiery. Abroad is where—
1. They put
a. Labels all over your luggage and
b. It all over you.
2. You are almost always going down from Jerusalem to Jericho, and the good Samaritan invariably wants a tip.
Abroad is the stage of history, but that is only because history made the too common mistake of not seeing America first.—Puck.

Keeping Up the Limit.

In J. Comyns Cdr's reminiscences is a characteristic anecdote of Burne-Jones, who had consulted his doctor about certain symptoms which seemed alarming.

Table Rockets.

H. T. Findley has engaged F. D. Carpenter, recently from Shasta County, California, to attend to his farm here, and Mr. Carpenter and family are now occupying the house on the premises.

S. M. Grimes, a prominent citizen of Chicago, is staying here for a few days at the home of Mrs. E. S. Hitzler. Mr. Grimes may invest in some property here should he find something to his liking.

Miss Isabell Timmil entertained several of her young friends Thursday evening of last week at her home, the occasion being her eleventh birthday. The little folks had a good time.

The box social will take place Saturday evening and, should the weather be favorable, will be held in the Byrum grove. A large attendance is looked for and a pleasant time promised all who come.

Mrs. R. C. Washburn has returned from Portland, where she has been visiting several weeks with relatives. Her mother, Mrs. Jones, came with her.

In the last issue of the Herald there is a communication from E. O. Bissell, in which he asks for space to give a true version of what he terms a disreputable affair. Your correspondent has read his article, several times, and cannot discover what his version is. The facts in regard to the act of hoodlumism to which he refers were given by me to the Herald soon after its occurrence. These facts were that some degenerates had removed the rubber tires and had taken off and misplaced the wheels of a buggy in which Hallie Head and two friends attended an entertainment held at the school house. It seems Mr. Bissell appointed himself a committee of one to investigate the case, but as he failed to interview any person who had personal knowledge of the crime his investigation cannot be called a success. If he wanted the facts why did he not seek them from the only persons except the guilty parties who know them? These parties are Mr. Head and the two who accompanied him in the rig. Mr. Head can be reached by a letter addressed to him at Happy Camp, California, and the others are well known residents of Agate and who can be found at any time. The statement about the tires being cut to pieces and the payment of

\$32.00 damages is certainly news to most of the people of Table Rock and must have been put in circulation by the guilty parties or their friends so they could truthfully deny that part of the story and thus tend to discredit the account of what they actually did. No doubt the "respectable people" of this community will feel duly grateful to Mr. Bissell for his very lucid version of the affair and that the hoodlums when they meet for the next outrage will give him a vote of thanks for his efforts to prove that no crime was committed and that certain poor innocent young men are victims of some naughty parties who do not like them.
