L. M. Davis, of Portland, a member of the late legislature and who sued the Portland Journal for \$40,000 damages for criticisms regarding his wobbles on his Statement No. 1 pledge, lost out in his damage suit last week and discovered that it is not considered libelous for a newspaper in Oregon to tell the truth about a politician.

Joe Hoagland and H. C. Cook were driving in the country last Friday in Mr. Hoagland's new surrey when the team became frightened and the neck-yoke gave way resulting in a lively runaway. The damage was not heavy to rig or occupants.

The Margaret Iles company will play a three night engagement in the opera house Thursday-Friday-Saturday, May 13-14-15. This company was here about a year ago and the excellent work they done at that time insures them big houses at the coming engagement. Miss Iles is one of the best emotional actresses on the road and the entire company is well above the average in their line.

The formation of a valley ball league for the present season is a step in the right direction. It will not only encourage this favorite sport, but it will have a tendency to bring the people of the different towns closer together and give them an opportunity of becoming better acquainted. That is what the valley needs. We are all pretty good people if we could but get to know each other and a good lively ball league will help greatly in that direction.

R. C. F. Astbury returned Monday from Central Point, where he has been for the past two weeks. He says that this year bids fair to be the banner year for fruit growers, particularly in the pear line. The pear crop, Mr. Astbury says, will be simply immense. Every orchard of note is loaded with fruit, and the danger of frost being practically over, there is every reason to believe that the biggest crop that ever went out of the valley will be shipped this year. The apple crop, while large, will not be extraordinary, owing to the weather conditions of last year which prevented the setting of the fruit buds, but at that it will be satisfactory.—Gold Hill News.

SMALL MOTORS

There is almost no business in which an electric motor of some size is not practical.

Can you use one in your line? If you can use one at all you can use it to advantage.

Electric power is the power of today. You may not want to grind coffee but you may need an electric motor for one of the many things in which power is a necessity.

Send for our man and get the details about electricity—the perfect power.

Write or telephone your wants and we will have our Representative call on you. **Rogue River Electric Co.**

or any kindred topics being especially invited and assured a cordial welcome. Prof. O'Gara is a recognized authority on fruit growing, etc. He is not a stranger here, having addressed a big meeting in the opera house in this city last month. Everybody interested should turn out and hear him on this occasion.

The box social was held in the Byrum grove Saturday evening and was a great success. About 150 people were present, made up of nearly all of our own citizens, with a number of visitors from Agate, Central Point and other places. The Central Point band came out and added much to the success of the affair. After a short program was rendered Major J. W. Hicks, of Willow Springs auctioned off the boxes in a manner that showed him an expert in the business. The boxes sold for \$52.00 which, with the \$7.00 contributed, paid for the organ and left some to help the band boys. Like all other communities we have some knockers but the success of the affair shows their opposition did not amount to much. Table Rock tenders thanks to the band boys, to our visitors, to Major Hicks and to all who helped to make the entertainment a success.

Chamberlain's Liniment.

This is a new preparation and a good one. It is especially valuable as a cure for chronic and muscular rheumatism, and for the relief from pain which it affords in acute inflammatory rheumatism. Those who have used it have invariably spoken of it in the highest terms of praise. Lame back, lame shoulder and stiff neck are due to rheumatism of the muscles, usually brought on by exposure to cold or damp and are quickly cured by applying this liniment freely and massaging the affected parts. Soreness of the muscles, whether induced by violent exercise or injury, is allayed by this liniment. For sale by Mary A. Mee.

Orchard Promises Big Crop.

H. T. Pankey, formerly superintendent of the Snowy Butte orchard, has recently gone through the pear and apple groves and reports that the indications now are for the heaviest crop of pears ever produced on the place. When it is remembered that two years ago the Winter Nellis pear crop from 16 acres yielded 13 cars and netted the owner some \$19,000 f. o. b. here, it will be seen that the present prospects are phenomenal. The promise of a big crop of apples is also most flattering.

Whooping Cough.

This is a more dangerous disease than is generally presumed. It will be a surprise to many to learn that more deaths result from it than from scarlet fever. Pneumonia often results from it. Chamberlain's Cough Remedy has been used in many epidemics of whooping cough, and always with the best results. Delbert McKeig of Harlan, Iowa, says of it: "My boy took whooping cough when nine months old. He had it in the winter. I got a bottle of Chamberlain's Cough Remedy which proved good. I cannot recommend it too highly." For sale by Mary A. Mee.
